Section 5. Section 20-9-371, MCA, is amended to read:

"20-9-371. Calculation and uses of school facility entitlement amount. (1) The state reimbursement for school facilities for a district is the percentage determined in 20-9-346(2)(b) times (1-(district mill value per ANB/statewide mill value per ANB)) times the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligations on bonds that qualify under the provisions of 20-9-370~~(2)~~(b)~~(i) or (2)(b)(ii)~~*(3)*.

(2) The state advance for school facilities for a district is determined as follows:

(a) Calculate the percentage of the district's debt service payment that will be advanced by the state using the district ANB, the district mill value and the statewide mill value for the current year, and the percentage used to determine the proportionate share of state reimbursement for school facilities in the prior year.

(b) Multiply the percentage determined in subsection (2)(a) by the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligation for bonds to which the state advance applies.

(3) Within the available appropriation, the superintendent of public instruction shall first distribute to eligible districts the state advance for school facilities. From the remaining appropriation, the superintendent shall distribute to eligible districts the state reimbursement for school facilities.

~~(2) For the school fiscal years beginning July 1, 1993, and July 1, 1994, the~~

(4) The trustees of a district may apply the state reimbursement for school facilities to reduce the levy requirement *in the ensuing school fiscal year* for all outstanding bonded indebtedness on bonds sold in the debt service fund of the district after July 1, 1991. *The trustees may apply the state advance for school*

facilities to reduce the levy requirement in the current school fiscal year for debt service payments on bonds to which the state advance for school facilities applies.

~~(3) For the school fiscal year beginning July 1, 1995, and for succeeding school fiscal years, the trustees of a district may apply the state reimbursement for school facilities to reduce the levy requirement of all bonded indebtedness in the district debt service fund.~~"

Section 6. Section 20-9-406, MCA, is amended to read:

"**20-9-406. Limitations on amount of bond issue.** (1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the taxable value of the property subject to taxation as ascertained by the ~~last-completed~~ *last-completed* assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is up to 90% of the taxable value of the property subject to taxation as ascertained by the last-completed assessment for state, county, and school taxes previous to the incurring of the indebtedness. The total indebtedness of the high school district with an attached elementary district must be limited to the sum of 45% of the taxable value of the property for elementary school program purposes and 45% of the taxable value of the property for high school program purposes.

(c) *(i)* The maximum amount for which an elementary district or a high school district ~~that qualifies for guaranteed tax base aid under the provisions of 20-9-367~~ *with a district mill value per elementary ANB or per high school ANB that is less than the corresponding statewide mill value per elementary ANB or per high school ANB* may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the corresponding statewide mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, the maximum amount for which the district may become indebted is 45% of the sum of the statewide mill value per elementary ANB times 1,000 times the elementary ANB of the district and the statewide mill value per high school ANB times 1,000 times the high school ANB of the district.

(ii) If mutually agreed upon by the affected districts, for the purpose of calculating its maximum bonded indebtedness under this subsection (1)(c), a district may include the ANB of the district plus the number of students residing within the district for which the district or county pays tuition for attendance at a school in an adjacent district. The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB have been included in the ANB of the sending district pursuant to the mutual agreement.

(2) The maximum amounts determined in subsection (1), however, may not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to bonds issued for the repayment of

HeinOnline -- 1995 vol. IV 3442 1995

tax protests lost by the district. All bonds issued in excess of the amount are void, except as provided in this section.

(3) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(4) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly."

Section 7. Section 20-9-422, MCA, is amended to read:

"20-9-422. Additional requirements for trustees' resolution calling bond election. *(1)* In addition to the requirements for calling an election that are prescribed in 20-20-201 and 20-20-203, the trustees' resolution calling a school district bond election shall *must*:

~~(1)~~*(a)* fix the exact amount of the bonds proposed to be issued, which may be more or less than the amounts estimated in a petition;

~~(2)~~*(b)* fix the maximum number of years in which the proposed bonds would be paid; and

~~(3)~~*(c)* in the case of initiation by a petition, state the essential facts about the petition and its presentation.*; and*

(d) state the amount of the state advance for school facilities estimated, pursuant to subsection (2), to be received by the district in the first school fiscal year in which a debt service payment would be due on the proposed bonds.

(2) Prior to the adoption of the resolution calling for a school bond election, the trustees of a district may request from the superintendent of public instruction a statement of the estimated amount of state advance for school facilities that the district will receive for debt service payments on the proposed bonds in the first school fiscal year in which a debt service payment is due. The district shall provide the superintendent with an estimate of the debt service payment due in the first school fiscal year. The superintendent shall estimate the state advance for the bond issue pursuant to 20-9-371(2)."

Section 8. Section 20-9-439, MCA, is amended to read:

"20-9-439. Computation of net levy requirement — procedure when levy inadequate. (1) The county superintendent shall compute the levy requirement for each school district's debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

HeinOnline -- 1995 vol. IV 3443 1995

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state reimbursement *advance* for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371; and

(iv) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from such sources *such* as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners on the fourth Monday of August by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for ~~such~~ *payment* purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county."

HeinOnline -- 1995 vol. IV 3477 1995

~~(5)--(a) Although under this section a payment, item of property, or other benefit is included in the decedent's reclaimable estate, a payor or other third party is not liable for having made a payment or transferred an item of property or other benefit to a beneficiary designated in a governing instrument, or for having taken any other action in good faith reliance on the validity of a governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice from the surviving spouse or spouse's representative of an intention to file a petition for the elective share or that a petition for the elective share has been filed. A payor or other third party is liable for payments made or other actions taken after the payor or other third party received written notice of an intention to file a petition for the elective share or that a petition for the elective share has been filed.~~

~~(b) The written notice of intention to file a petition for the elective share or that a petition for the elective share has been filed must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of intention to file a petition for the elective share or that a petition for the elective share has been filed, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds or item of property and, upon its determination under 72-2-225(4), shall order disbursement in accordance with the determination. If no petition is filed in the court within the specified time under 72-2-225(1) or, if filed, the demand for an elective share is withdrawn under 72-2-225(3), the court shall order disbursement to the designated beneficiary. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.~~

~~(c) Upon petition to the probate court by the beneficiary designated in a governing instrument, the court may order that all or part of the property be paid to the beneficiary in an amount and subject to conditions consistent with this section.~~

~~(6)--(a) A person who purchases property from a recipient for value and without notice or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this part to return the payment, item of property, or benefit nor liable under this part for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit included in the decedent's reclaimable estate is obligated to return the payment, item of property, or benefit or is personally liable for the amount of the payment or the value of the item of property or benefit, as provided in 72-2-227.~~

~~(b) If any section or part of any section of this part is preempted by federal law with respect to a payment, an item of property, or any other benefit included in the decedent's reclaimable estate, a person who, not for value, receives the payment, item of property, or other benefit is obligated to return that payment,~~

~~item of property, or benefit, or is personally liable for the amount of that payment or the value of that item of property or benefit, as provided in 72-2-227, to the person who would have been entitled to it were that section or part of that section not preempted.~~"

Section 6. Section 72-2-223, MCA, is amended to read:

"**72-2-223. Right of election personal to surviving spouse — *incapacitated surviving spouse.*** (1) The right of election may be exercised only by a surviving spouse who is living when the petition for the elective share is filed in the court under 72-2-225(1). If the election is not exercised by the surviving spouse personally, it may be exercised on the surviving spouse's behalf by the surviving spouse's conservator, guardian, or agent under the authority of a power of attorney.

(2) If the election is exercised on behalf of a surviving spouse who is an incapacitated person, the court shall set aside that portion of the elective-share and supplemental elective-share amounts due from the decedent's probate estate and recipients of the decedent's reclaimable ~~estate~~ *nonprobate transfers to others* under 72-2-227(2) and (3) and shall appoint a trustee to administer that property for the support of the surviving spouse. For the purposes of this subsection, an election on behalf of a surviving spouse by an agent under a durable power of attorney is presumed to be on behalf of a surviving spouse who is an incapacitated person. The trustee shall administer the trust in accordance with the following terms and such additional terms as the court determines appropriate:

(a) Expenditures of income and principal may be made in the manner, when, and to the extent that the trustee determines suitable and proper for the surviving spouse's support, without court order but with regard to other support, income, and property of the surviving spouse exclusive of benefits of medical or other forms of assistance from any state or federal government or governmental agency for which the surviving spouse qualifies on the basis of need.

(b) During the surviving spouse's incapacity, neither the surviving spouse nor anyone acting on behalf of the surviving spouse has a power to terminate the trust; but if the surviving spouse regains capacity, the surviving spouse then acquires the power to terminate the trust and acquire full ownership of the trust property free of trust by delivering to the trustee a writing signed by the surviving spouse declaring the termination.

(c) Upon the surviving spouse's death, the trustee shall transfer the unexpended trust property in the following order:

(i) under the residuary clause, if any, of the will of the predeceased spouse against whom the elective share was taken, as if that predeceased spouse died immediately after the surviving spouse; or

(ii) to that predeceased spouse's heirs under 72-2-721."

Section 7. Section 72-2-224, MCA, is amended to read:

"**72-2-224. Waiver of right to elect and of other rights.** (1) The right of election of a surviving spouse and the rights of the surviving spouse to homestead allowance, exempt property, and family allowance or any of them

HeinOnline -- 1995 vol. IV 3479 1995

may be waived, wholly or partially, before or after marriage, by a written contract, agreement, or waiver signed by the surviving spouse. *The written contract, agreement, or waiver is enforceable without consideration.*

(2) A surviving spouse's waiver is not enforceable if the surviving spouse proves that:

(a) the surviving spouse did not execute the waiver voluntarily; or

(b) the waiver was unconscionable when it was executed and, before execution of the waiver, the surviving spouse:

(i) was not provided a fair and reasonable disclosure of the property or financial obligations of the decedent;

(ii) did not voluntarily and expressly waive, in writing, any right to disclosure of the property or financial obligations of the decedent beyond the disclosure provided; and

(iii) did not have or reasonably could not have had an adequate knowledge of the property or financial obligations of the decedent.

(3) An issue of unconscionability of a waiver is for decision by the court as a matter of law.

(4) Unless it provides to the contrary, a waiver of "all rights", or equivalent language, in the property or estate of a present or prospective spouse or a complete property settlement entered into after or in anticipation of separation or divorce is a waiver of all rights to elective share, homestead allowance, exempt property, and family allowance by each spouse in the property of the other and a renunciation by each of all benefits that would otherwise pass to that spouse from the other by intestate succession or by virtue of any will executed before the waiver or property settlement."

Section 8. Personal liability of recipients. (1) Only original recipients of the decedent's nonprobate transfers to others, and the donees of the recipients of the decedent's nonprobate transfers to others, to the extent the donees have the property or its proceeds, are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective-share or supplemental elective-share amount. A person liable to make contribution may choose to give up the proportional part of the decedent's nonprobate transfers to the person or to pay the value of the amount for which the person is liable.

(2) If any section or part of any section of this part is preempted by federal law with respect to a payment, an item of property, or any other benefit included in the decedent's nonprobate transfers to others, a person who, not for value, receives the payment, item of property, or other benefit is obligated to return that payment, item of property, or benefit or is personally liable for the amount of that payment or the value of that item of property or benefit, as provided in 72-2-227, to the person who would have been entitled to it were that section or part of that section not preempted.

Section 9. Protection of payors and other third parties. (1) Although under 72-2-222 a payment, item of property, or other benefit is included in the decedent's nonprobate transfers to others, a payor or other third party is not

liable for having made a payment or transferred an item of property or other benefit to a beneficiary designated in a governing instrument or for having taken any other action in reliance on the validity of a governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice from the surviving spouse or spouse's representative of an intention to file a petition for the elective share or that a petition for the elective share has been filed. A payor or other third party is liable only for actions taken 2 or more business days after the payor or other third party received written notice of an intention to file a petition for the elective share or that a petition for the elective share has been filed. The written notice must indicate the name of the decedent, the date of the decedent's death, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that the spouse intends to file a petition for the elective share or that a petition for the elective share has been filed. Any form of service of notice other than that described in subsection (2) is not sufficient to impose liability on a payor or other third party for actions taken pursuant to the governing instrument.

(2) The written notice must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Notice to a sales representative of the payor or other third party does not constitute notice to the payor or other third party. Upon receipt of written notice of intention to file a petition for the elective share or that a petition for the elective share has been filed, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The availability of an action under this section does not prevent the payor or other third party from taking any other action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment, transfer, or deposit. The court shall hold the funds or item of property and, upon its determination under 72-2-225(4), shall order disbursement in accordance with the determination. If no petition is filed in the court within the specified time under 72-2-225(1) or, if filed, the demand for an elective share is withdrawn under 72-2-225(3), the court shall order disbursement to the designated beneficiary. A filing fee, if any, may, in the discretion of the court, be charged upon disbursement either to the recipient or against the funds or property on deposit with the court. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims under the governing instrument or applicable law for the value of amounts paid to or items of property transferred to or deposited with the court.

(3) Upon petition to the probate court by the beneficiary designated in a governing instrument, the court may order that all or part of the property be paid to the beneficiary in an amount and subject to conditions consistent with this section.

HeinOnline -- 1995 vol. IV 3481 1995

Section 10. Section 72-2-225, MCA, is amended to read:

"72-2-225. Proceeding for elective share — time limit. (1) Except as provided in subsection (2), the election must be made by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within 9 months after the date of the decedent's death or within 6 months after the probate of the decedent's will, whichever limitation later expires. The surviving spouse shall give notice of the time and place set for hearing to persons interested in the estate and to the distributees and recipients of portions of the augmented estate whose interests will be adversely affected by the taking of the elective share. Except as provided in subsection (2), the decedent's ~~reclaimable estate~~, *nonprobate transfers to others* described in 72-2-222(2)(b), is not included within the augmented estate for the purpose of computing the elective share if the petition is filed more than 9 months after the decedent's death.

(2) Within 9 months after the decedent's death, the surviving spouse may petition the court for an extension of time for making an election. If, within 9 months after the decedent's death, the spouse gives notice of the petition to all persons interested in the decedent's ~~reclaimable estate~~, *nonprobate transfers to others* the court for cause shown by the surviving spouse may extend the time for election. If the court grants the spouse's petition for an extension, the decedent's ~~reclaimable estate~~, *nonprobate transfers to others* described in 72-2-222(2)(b), is not excluded from the augmented estate for the purpose of computing the elective-share and supplemental elective-share amounts if the spouse makes an election by filing in the court and mailing or delivering to the personal representative, if any, a petition for the elective share within the time allowed by the extension.

(3) The surviving spouse may withdraw a demand for an elective share at any time before entry of a final determination by the court.

(4) After notice and hearing, the court shall determine the elective-share and supplemental elective-share amounts and shall order its payment from the assets of the augmented estate or by contribution as appears appropriate under 72-2-227. If it appears that a fund or property included in the augmented estate has not come into the possession of the personal representative or has been distributed by the personal representative, the court nevertheless shall fix the liability of any person who has any interest in the fund or property or who has possession thereof, whether as trustee or otherwise. The proceeding may be maintained against fewer than all persons against whom relief could be sought, but no person is subject to contribution in any greater amount than the person would have been under 72-2-227 if relief had been secured against all persons subject to contribution.

(5) The order or judgment of the court may be enforced as necessary in suit for contribution or payment in other courts of this state or other jurisdictions."

Section 11. Section 72-2-227, MCA, is amended to read:

"72-2-227. ~~Charging spouse with owned assets and gifts received — liability of others for balance of~~ *Sources from which* elective share *payable.* (1) In the proceeding for an elective share, the following are applied first to satisfy the elective-share amount and to reduce or eliminate any

contributions due from the decedent's probate estate and recipients of the decedent's ~~reclaimable estate~~ *nonprobate transfers to others*:

(a) amounts included in the augmented estate *under 72-2-222(2)(a)* that pass or have passed to the surviving spouse by testate or intestate succession;

(b) amounts included in the augmented estate under 72-2-222(2)(c);

(c) amounts included in the augmented estate that would have passed to the spouse but were disclaimed; and

(d) amounts included in the augmented estate under 72-2-222(2)(d) up to the applicable percentage thereof. For purposes of this subsection (d), the "applicable percentage" is twice the elective-share percentage set forth in the schedule in 72-2-221(1) appropriate to the length of time the spouse and the decedent were married to each other.

(2) If, after the application of subsection (1), the elective-share amount is not fully satisfied or the surviving spouse is entitled to a supplemental elective-share amount, amounts included in the decedent's probate estate and ~~that portion of~~ *in* the decedent's ~~reclaimable estate~~ *nonprobate transfers to others*, other than amounts ~~irrevocably transferred within 2 years before the decedent's death~~ *included under 72-2-222(2)(b)(iii)(A) or 72-2-222(2)(b)(iii)(B)*, are applied first to satisfy the unsatisfied balance of the elective-share amount or the supplemental elective-share amount. The decedent's probate estate and that portion of the decedent's ~~reclaimable estate~~ *nonprobate transfers to others* are applied so that liability for the unsatisfied balance of the elective-share amount or for the supplemental elective-share amount is equitably apportioned among the recipients of the decedent's probate estate and *of* that portion of the decedent's ~~reclaimable estate~~ *nonprobate transfers to others* in proportion to the value of their interests therein.

(3) If, after the application of subsections (1) and (2), the elective-share or supplemental elective-share amount is not fully satisfied, the remaining portion of the decedent's ~~reclaimable estate~~ *nonprobate transfers to others* is applied so that liability for the unsatisfied balance of the elective-share or supplemental elective-share amount is equitably apportioned among the recipients of that *remaining* portion of the decedent's ~~reclaimable estate~~ *nonprobate transfers to others* in proportion to the value of their interests therein.

~~(4) Only original recipients of the reclaimable estate described in 72-2-222(2)(b) and the donees of the recipients of the reclaimable estate to the extent the donees have the property or its proceeds are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective-share or supplemental elective-share amount. A person liable to contribution may choose to give up the proportional part of the reclaimable estate or to pay the value of the amount for which the person is liable.~~"

Section 12. Section 72-2-331, MCA, is amended to read:

"72-2-331. Entitlement of spouse — premarital will. (1) If a testator's surviving spouse married the testator after the execution of the will, the surviving spouse is entitled to receive, as an intestate share, no less than the value of the share of the estate the spouse would have received if the testator had died intestate as to that portion of the testator's estate, if any, that is neither

devised to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse nor devised *to the descendant of such a child* or passes under 72-2-613 or 72-2-614 to *such a child or to* a descendant of such a child, unless:

(a) it appears from the will or other evidence that the will was made in contemplation of the testator's marriage to the surviving spouse;

(b) the will expresses the intention that it is to be effective notwithstanding any subsequent marriage; or

(c) the testator provided for the spouse by transfer outside the will and the intent that the transfer be in lieu of a testamentary provision is shown by the testator's statements or is reasonably inferred from the amount of the transfer or other evidence.

(2) In satisfying the share provided by this section, devises made by the will to the testator's surviving spouse, if any, are applied first and other devises, other than a devise to a child of the testator who was born before the testator married the surviving spouse and who is not a child of the surviving spouse or a devise or substitute gift under 72-2-613 or 72-2-614 to a descendant of such a child, abate as provided in 72-3-901."

Section 13. Section 72-2-332, MCA, is amended to read:

"**72-2-332. Omitted children.** (1) Except as provided in subsection (2), if a testator fails to provide in the testator's will for any of the testator's children born or adopted after the execution of the will, the omitted after-born or after-adopted child receives a share in the estate as follows:

(a) If the testator had no child living when the testator executed the will, an omitted after-born or after-adopted child receives a share in the estate equal in value to that which the child would have received had the testator died intestate unless the will devised all or substantially all of the estate to the other parent of the omitted child and that other parent survives the testator and is entitled to take under the will.

(b) If the testator had one or more children living when the testator executed the will and the will devised property or an interest in property to one or more of the then-living children, an omitted after-born or after-adopted child is entitled to share in the testator's estate as follows:

(i) The portion of the testator's estate in which the omitted after-born or after-adopted child is entitled to share is limited to devises made to the testator's then-living children under the will.

(ii) The omitted after-born or after-adopted child is entitled to receive the share of the testator's estate, as limited in subsection (1)(b)(i), that the child would have received had the testator included all omitted after-born and after-adopted children with the children to whom devises were made under the will and had given an equal share of the estate to each child.

(iii) To the extent feasible, the interest granted an omitted after-born or after-adopted child under this section must be of the same character, whether

HeinOnline -- 1995 vol. IV 3484 1995

equitable or legal, present or future, as that devised to the testator's then-living children under the will.

(iv) In satisfying a share provided by this subsection (1)(b), devises to the testator's children who were living when the will was executed abate ratably. In abating the devises of the then-living children, the court shall preserve to the maximum extent possible the character of the testamentary plan adopted by the testator.

(2) Subsections (1)(a)~~,~~ *and* (1)(b)~~, and (3)~~ do not apply if:

(a) it appears from the will that the omission was intentional; or

(b) the testator provided for the omitted after-born or after-adopted child by transfer outside the will and the intent that the transfer be in lieu of a testamentary provision is shown by the testator's statements or is reasonably inferred from the amount of the transfer or other evidence.

(3) ~~Except as provided in subsection (2), if~~ *If* at the time of execution of the will the testator fails to provide in the testator's will for a living child solely because the testator believes the child to be dead, the child is entitled to share in the estate as if the child were an omitted after-born or after-adopted child.

(4) In satisfying a share provided by subsection (1)(a), devises made by the will abate as provided in 72-3-901."

Section 14. Section 72-2-613, MCA, is amended to read:

"72-2-613. Antilapse — deceased devisee — class gifts. (1) As used in this section, the following definitions apply:

(a) "Alternative devise" means a devise that is expressly created by the will and that under the terms of the will may take effect instead of another devise on the happening of one or more events, including survival of the testator or failure to survive the testator, whether an event is expressed in condition-precedent, condition-subsequent, or any other form. A residuary clause constitutes an alternative devise with respect to a nonresiduary devise only if the will specifically provides that, upon lapse or failure, the nonresiduary devise or nonresiduary devises in general pass under the residuary clause.

(b) "Class member" includes an individual who fails to survive the testator but who would have taken under a devise in the form of a class gift had the individual survived the testator.

(c) "Devise" includes an alternative devise, a devise in the form of a class gift, and an exercise of a power of appointment.

(d) "Devisee" includes:

(i) a class member if the devise is in the form of a class gift;

(ii) an individual or class member who was deceased at the time the testator executed the testator's will as well as an individual or class member who was then living but who failed to survive the testator; and

HeinOnline -- 1995 vol. IV 3485 1995

(iii) an appointee under a power of appointment exercised by the testator's will.

(e) "Stepchild" means a child of the surviving, deceased, or former spouse of the testator or of the donor of a power of appointment hut not a child of the testator or donor.

(f) "Surviving devisee" or "surviving descendant" means a devisee or a descendant who neither predeceased the testator nor is considered to have predeceased the testator under 72-2-712.

(g) "Testator" includes the donee of a power of appointment if the power is exercised in the testator's will.

(2) If a devisee fails to survive the testator and is a grandparent, a descendant of a grandparent, or a stepchild of either the testator or the donor of a power of appointment exercised hy the testator's will, the following apply:

(a) Except as provided in subsection (2)(d), if the devise is not in the form of a class gift and tbe deceased devisee leaves surviving descendants, a substitute gift is created in the devisee's surviving descendants. They take by representation the property to which the devisee would have been entitled had the devisee survived the testator.

(h) Except as provided in subsection (2)(d), if tbe devise is in the form of a class gift, other than a devise to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described hy language of similar import, a substitute gift is created in the *surviving descendants of any* deceased devisee ~~or devisee's surviving descendants~~. The property to which the devisees would have been entitled had all of them survived the testator passes to the surviving devisees and the surviving descendants of the deceased devisees. Each surviving devisee takes the share to which the devisee would have heen entitled had the deceased devisees survived tbe testator. Each deceased devisee's surviving descendants who are suhstituted for the deceased devisee take by representation the share to which the deceased devisee would have heen entitled had the deceased devisee survived the testator. For purposes of this subsection (b), "deceased devisee" means a class member who failed to survive the testator and left one or more surviving descendants.

(c) For purposes of 72-2-611, words of survivorship, such as in a devise to an individual "if the individual survives me" or in a devise to "my surviving children", are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section.

(d) If the will creates an alternative devise with respect to a devise for which a suhstitute gift is created by suhsection (2)(a) or (2)(h), the substitute gift is superseded by the alternative devise only if an expressly designated devisee of the alternative devise is entitled to take under the will.

(e) Unless the language creating a power of appointment expressly excludes tbe substitution of the descendants of an appointee for tbe appointee, a surviving descendant of a deceased appointee of a power of appointment may be suhstituted for the appointee under this section, whether or not the descendant is an ohject of the power.

HeinOnline -- 1995 vol. IV 3486 1995

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one devise and the devises are alternative devises, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

(a) Except as provided in subsection (3)(b), the devised property passes under the primary substitute gift.

(b) If there is a younger-generation devise, the devised property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary devise" means the devise that would have taken effect had all the deceased devisees of the alternative devises who left surviving descendants survived the testator.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary devise.

(iii) "Younger-generation devise" means a devise that:

(A) is to a descendant of a devisee of the primary devise;

(B) is an alternative devise with respect to the primary devise;

(C) is a devise for which a substitute gift is created; and

(D) would have taken effect had all the deceased devisees who left surviving descendants survived the testator except the deceased devisee or devisees of the primary devise.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation devise."

Section 15. Section 72-2-712, MCA, is amended to read:

"72-2-712. Requirement of survival by one hundred twenty hours. (1) For the purposes of chapters 1 through 5, ~~except for purposes of Title 72, chapter 6, part 3, and~~ except as provided in subsection (4), an individual who is not established by clear and convincing evidence to have survived an event, including the death of another individual, by 120 hours is considered to have predeceased the event.

(2) Except as provided in subsection (4) ~~and except for a security registered in beneficiary form (TOD) under Title 72, chapter 6, part 3~~, for purposes of a provision of a governing instrument that relates to an individual surviving an event, including the death of another individual, an individual who is not established by clear and convincing evidence to have survived the event by 120 hours is considered to have predeceased the event.

(3) (a) Except as provided in subsection (4), if:

(i) it is not established by clear and convincing evidence that one of two co-owners with right of survivorship survived the other co-owner by 120 hours,

HeinOnline -- 1995 vol. IV 3487 1995

one-half of the property passes as if one had survived by 120 hours and one-half as if the other had survived by 120 hours; and

(ii) there are more than two co-owners and it is not established by clear and convincing evidence that at least one of them survived the others by 120 hours, the property passes in the proportion that one bears to the whole number of co-owners.

(b) For the purposes of this subsection (3), "co-owners with right of survivorship" includes joint tenants, tenants by the entireties, and other co-owners of property or accounts held under circumstances that entitle one or more to the whole of the property or account on the death of the other or others.

(4) ~~This section does~~ *Survival by 120 hours is* not apply *required* if:

(a) the governing instrument contains language dealing explicitly with simultaneous deaths or deaths in a common disaster and that language is operable under the facts of the case;

(b) the governing instrument expressly indicates that an individual is not required to survive an event, including the death of another individual, by any specified period or expressly requires the individual to survive the event by a specified period; *However, survival of the event or the specified period must be established by clear and convincing evidence.*

(c) the imposition of a 120-hour requirement of survival would cause a nonvested property interest or a power of appointment to fail to qualify for validity under 72-2-1002(1)(a), (2)(a), or (3)(a) or to become invalid under 72-2-1002(1)(b), (2)(b), or (3)(b); *however, survival must be established by clear and convincing evidence;* or

(d) the application of ~~this section~~ *a 120-hour requirement of survival* to multiple governing instruments would result in an unintended failure or duplication of a disposition. *However, survival must be established by clear and convincing evidence.*

(5) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument who, under this section, is not entitled to the payment or item of property, or for having taken any other action in good faith reliance on the beneficiary's apparent entitlement under the terms of the governing instrument, before the payor or other third party received written notice of a claimed lack of entitlement under this section. A payor or other third party is liable for a payment made or other action taken after the payor or other third party received written notice of a claimed lack of entitlement under this section.

(b) Written notice of a claimed lack of entitlement under subsection (5)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of a claimed lack of entitlement under this section, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with

the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement in accordance with the determination. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(6) (a) A person who purchases property for value and without notice or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted."

Section 16. Section 72-2-716, MCA, is amended to read:

"72-2-716. Life insurance — retirement plan — account with POD designation — transfer-on-death registration — deceased beneficiary. (1) As used in this section, the following definitions apply:

(a) "Alternative beneficiary designation" means a beneficiary designation that is expressly created by the governing instrument and that under the terms of the governing instrument may take effect instead of another beneficiary designation on the happening of one or more events, including survival of the decedent or failure to survive the decedent, whether an event is expressed in condition-precedent, condition-subsequent, or any other form.

(b) "Beneficiary" means the beneficiary of a beneficiary designation *under which the beneficiary must survive the decedent* and includes:

(i) a class member if the beneficiary designation is in the form of a class gift; and

(ii) an individual or class member who was deceased at the time the beneficiary designation was executed as well as an individual or class member who was then living but who failed to survive the decedent, *but excludes a joint tenant of a joint tenancy with the right of survivorship and a party to a joint and survivorship account.*

(c) "Beneficiary designation" includes an alternative beneficiary designation and a beneficiary designation in the form of a class gift.

(d) "Class member" includes an individual who fails to survive the decedent but who would have taken under a beneficiary designation in the form of a class gift had the individual survived the decedent.

(e) "Stepchild" means a child of the decedent's surviving, deceased, or former spouse but not a child of the decedent.

(f) "Surviving beneficiary" or "surviving descendant" means a beneficiary or a descendant who neither predeceased the decedent nor is considered to have predeceased the decedent under 72-2-712.

(2) If a beneficiary fails to survive the decedent and is a grandparent, a descendant of a grandparent, or a stepchild of the decedent, the following provisions apply:

(a) Except as provided in subsection (2)(d), if the beneficiary designation is not in the form of a class gift and the deceased beneficiary leaves surviving descendants, a substitute gift is created in the beneficiary's surviving descendants. They take by representation the property to which the beneficiary would have been entitled had the beneficiary survived the decedent.

(b) Except as provided in subsection (2)(d), if the beneficiary designation is in the form of a class gift, other than a beneficiary designation to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described by language of similar import, a substitute gift is created in the *surviving descendants of any* deceased beneficiary ~~or beneficiary's surviving~~ descendants. The property to which the beneficiaries would have been entitled had all of them survived the decedent passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the decedent. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the decedent. For purposes of this subsection (b), "deceased beneficiary" means a class member who failed to survive the decedent and left one or more surviving descendants.

(c) For the purposes of 72-2-711, words of survivorship, such as in a beneficiary designation to an individual "if the individual survives me" or in a beneficiary designation to "my surviving children", are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section.

(d) If a governing instrument creates an alternative beneficiary designation with respect to a beneficiary designation for which a substitute gift is created by subsection (2)(a) or (2)(b), the substitute gift is superseded by the alternative beneficiary designation only if an expressly designated beneficiary of the alternative beneficiary designation is entitled to take.

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one beneficiary designation and the beneficiary designations are alternative beneficiary designations, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

HeinOnline -- 1995 vol. IV 3490 1995

(a) Except as provided in subsection (3)(b), the property passes under the primary substitute gift.

(b) If there is a younger-generation beneficiary designation, the property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary beneficiary designation" means the beneficiary designation that would have taken effect had all the deceased beneficiaries of the alternative beneficiary designations who left surviving descendants survived the decedent.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary beneficiary designation.

(iii) "Younger-generation beneficiary designation" means a beneficiary designation that:

(A) is to a descendant of a beneficiary of the primary beneficiary designation;

(B) is an alternative beneficiary designation with respect to the primary beneficiary designation;

(C) is a beneficiary designation for which a substitute gift is created; and

(D) would have taken effect had all the deceased beneficiaries who left surviving descendants survived the decedent except the deceased beneficiary or beneficiaries of the primary beneficiary designation.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation beneficiary designation.

(4) (a) A payor is protected from liability in making payments under the terms of the beneficiary designation until the payor has received written notice of a claim to a substitute gift under this section. Payment made before the receipt of written notice of a claim to a substitute gift under this section discharges the payor, but not the recipient, from all claims for the amounts paid. A payor is liable for a payment made after the payor has received written notice of the claim. A recipient is liable for a payment received, whether or not written notice of the claim is given.

(b) The written notice of the claim must be mailed to the payor's main office or home by certified mail, return receipt requested, or served upon the payor in the same manner as a summons in a civil action. Upon receipt of written notice of the claim, a payor may pay any amount owed by it to the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds and, upon its determination under this section, shall order disbursement in accordance with the determination. Payment made to the court discharges the payor from all claims for the amounts paid.

(5) (a) A person who purchases property for value and without notice or who receives a payment or other item of property in partial or full satisfaction of a

legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted."

Section 17. Section 72-2-717, MCA, is amended to read:

"72-2-717. Survivorship with respect to future interests under terms of trust — substitute takers. (1) As used in this section, the following definitions apply:

(a) "Alternative future interest" means an expressly created future interest that may take effect in possession or enjoyment instead of another future interest on the happening of one or more events, including survival of an event or failure to survive an event, whether an event is expressed in condition-precedent, condition-subsequent, or any other form. A residuary clause in a will does not create an alternative future interest with respect to a future interest created in a nonresiduary devise in the will, whether or not the will specifically provides that lapsed or failed devises are to pass under the residuary clause.

(b) "Beneficiary" means the beneficiary of a future interest and includes a class member if the future interest is in the form of a class gift.

(c) "Class member" includes an individual who fails to survive the distribution date but who would have taken under a future interest in the form of a class gift had the individual survived the distribution date.

(d) "Distribution date" with respect to a future interest means the time when the future interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day, but may occur at a time during the course of a day.

(e) "Future interest" includes an alternative future interest and a future interest in the form of a class gift.

(f) "Future interest under the terms of a trust" means a future interest that was created by a transfer creating a trust or to an existing trust or by an exercise of a power of appointment to an existing trust that directs the continuance of an existing trust, designates a beneficiary of an existing trust, or creates a trust.

HeinOnline -- 1995 vol. IV 3492 1995

(g) "Surviving beneficiary" or "surviving descendant" means a beneficiary or a descendant who neither predeceased the distribution date nor is considered to have predeceased the distribution date under 72-2-712.

(2) A future interest under the terms of a trust is contingent on the beneficiary surviving the distribution date. If a beneficiary of a future interest under the terms of a trust fails to survive the distribution date, the following provisions apply:

(a) Except as provided in subsection (2)(d), if the future interest is not in the form of a class gift and the deceased beneficiary leaves surviving descendants, a substitute gift is created in the beneficiary's surviving descendants. They take by representation the property to which the beneficiary would have been entitled had the beneficiary survived the distribution date.

(b) Except as provided in subsection (2)(d), if the future interest is in the form of a class gift, other than a future interest to "issue", "descendants", "heirs of the body", "heirs", "next of kin", "relatives", or "family" or a class described by language of similar import, a substitute gift is created in the *surviving descendants of any* deceased beneficiary ~~or beneficiary's surviving descendants~~. The property to which the beneficiaries would have been entitled had all of them survived the distribution date passes to the surviving beneficiaries and the surviving descendants of the deceased beneficiaries. Each surviving beneficiary takes the share to which the surviving beneficiary would have been entitled had the deceased beneficiaries survived the distribution date. Each deceased beneficiary's surviving descendants who are substituted for the deceased beneficiary take by representation the share to which the deceased beneficiary would have been entitled had the deceased beneficiary survived the distribution date. For purposes of this subsection (2), "deceased beneficiary" means a class member who failed to survive the distribution date and left one or more surviving descendants.

(c) For the purposes of 72-2-711, words of survivorship attached to a future interest are not, in the absence of additional evidence, a sufficient indication of an intent contrary to the application of this section. Words of survivorship include words of survivorship that relate to the distribution date or to an earlier or an unspecified time, whether those words of survivorship are expressed in condition-precedent, condition-subsequent, or any other form.

(d) If a governing instrument creates an alternative future interest with respect to a future interest for which a substitute gift is created by subsection (2)(a) or (2)(b), the substitute gift is superseded by the alternative future interest only if an expressly designated beneficiary of the alternative future interest is entitled to take in possession or enjoyment.

(3) If, under subsection (2), substitute gifts are created and not superseded with respect to more than one future interest and the future interests are alternative future interests, one to the other, the determination of which of the substitute gifts takes effect is resolved as follows:

(a) Except as provided in subsection (3)(b), the property passes under the primary substitute gift.

HeinOnline -- 1995 vol. IV 3493 1995

(b) If there is a younger-generation future interest, the property passes under the younger-generation substitute gift and not under the primary substitute gift.

(c) As used in this subsection (3), the following definitions apply:

(i) "Primary future interest" means the future interest that would have taken effect had all the deceased beneficiaries of the alternative future interests who left surviving descendants survived the distribution date.

(ii) "Primary substitute gift" means the substitute gift created with respect to the primary future interest.

(iii) "Younger-generation future interest" means a future interest that:

(A) is to a descendant of a beneficiary of the primary future interest;

(B) is an alternative future interest with respect to the primary future interest;

(C) is a future interest for which a substitute gift is created; and

(D) would have taken effect had all the deceased beneficiaries who left surviving descendants survived the distribution date except the deceased beneficiary or beneficiaries of the primary future interest.

(iv) "Younger-generation substitute gift" means the substitute gift created with respect to the younger-generation future interest.

(4) If *Except as provided in subsection (5), if,* after the application of subsections (2) and (3), there is no surviving taker, the property passes in the following order:

(a) if the trust was created in a nonresiduary devise in the transferor's will or in a codicil to the transferor's will, the property passes under the residuary clause in the transferor's will. For purposes of this section, the residuary clause is treated as creating a future interest under the terms of a trust.

(b) if no taker is produced by the application of subsection (4)(a), the property passes to the transferor's heirs under 72-2-721.

(5) If, after the application of subsections (2) and (3), there is no surviving taker and if the future interest was created by the exercise of a power of appointment:

(a) the property passes under the donor's gift-in-default clause, if any, which clause is treated as creating a future interest under the terms of a trust; and

(b) if no taker is produced by the application of subsection (5)(a), the property passes as provided in subsection (4). For purposes of subsection (4), "transferor" means the donor if the power was a nongeneral power and means the donee if the power was a general power."

Section 18. Section 72-2-719, MCA, is amended to read:

"72-2-719. Representation — per capita at each generation — per stirpes. (1) As used in this section, the following definitions apply:

(a) "Deceased child" or "deceased descendant" means a child or a descendant who either predeceased the distribution date or is considered to have predeceased the distribution date under 72-2-712.

(b) "Distribution date", with respect to an interest, means the time when the interest is to take effect in possession or enjoyment. The distribution date need not occur at the beginning or end of a calendar day but may occur at a time during the course of a day.

(c) "Surviving ancestor", "surviving child", or "surviving descendant" means an ancestor, a child, or a descendant who neither predeceased the distribution date nor is considered to have predeceased the distribution date under 72-2-712.

(2) (a) If a governing instrument calls for property to be distributed "per capita at each generation", the property is divided into as many equal shares as there are:

(i) surviving descendants in the generation nearest to the designated ancestor that contains one or more surviving descendants; and

(ii) deceased descendants in the same generation who left surviving descendants, if any.

(b) Each surviving descendant in the nearest generation is allocated one share. The remaining shares, if any, are combined and then divided in the same manner among the surviving descendants of the deceased descendants as if the surviving descendants who were allocated a share and their surviving descendants had predeceased the distribution date.

(3) (a) If ~~an applicable statute or~~ a governing instrument calls for property to be distributed ~~"by representation" or~~ "per stirpes", the property is divided into as many equal shares as there are:

(i) surviving children of the designated ancestor; and

(ii) deceased children who left surviving descendants.

(b) Each surviving child, *if any,* is allocated one share. The share of each deceased child with surviving descendants is divided in the same manner, with subdivision repeating at each succeeding generation until the property is fully allocated among surviving descendants.

(4) (a) If an applicable statute or a governing instrument calls for property to be distributed "by representation", the property is divided into as many equal shares as there are:

(i) surviving descendants in the generation nearest to the designated ancestor that contains one or more surviving descendants; and

(ii) deceased descendants in the same generation who left surviving descendants, if any.

(b) Each surviving descendant in the nearest generation is allocated one share. The share of each deceased descendant in the same generation as the surviving descendant is divided in the same manner, with the subdivision

HeinOnline -- 1995 vol. IV 3495 1995

repeating at each succeeding generation until the property is fully allocated among surviving descendants.

~~(4)~~*(5)* For the purposes of subsections (2) ~~and (3)~~ *through (4)*, an individual who is deceased and left no surviving descendant is disregarded and an individual who leaves a surviving ancestor who is a descendant of the designated ancestor is not entitled to a share."

Section 19. Section 72-2-721, MCA, is amended to read:

"72-2-721. ~~Future interests~~ *Interests* in "heirs" and like. If an applicable statute or a governing instrument calls for a *present or* future distribution to or creates a *present or* future interest in a designated individual's "heirs", "heirs at law", "next of kin", "relatives", or "family" or language of similar import, the property passes to those persons, including the state ~~under 72-2-115~~, and in such shares as would succeed to the designated individual's intestate estate under the intestate succession law of the designated individual's domicile in effect at the time the disposition is to take effect in possession or enjoyment as if the designated individual died at that time. If the designated individual's surviving spouse is living but is remarried at the time the disposition is to take effect in possession or enjoyment, the surviving spouse is not an heir of the designated individual."

Section 20. Section 72-2-811, MCA, is amended to read:

"72-2-811. Disclaimer of property interests. (1) (a) A person or the representative of a person to whom an interest in or with respect to property or an interest in the property devolves by whatever means may disclaim it in whole or in part by delivering or filing a written disclaimer under this section.

(b) The right to disclaim exists notwithstanding:

(i) any limitation on the interest of the disclaimant in the nature of a spendthrift provision or similar restriction; or

(ii) any restriction or limitation on the right to disclaim contained in the governing instrument.

(c) For purposes of this subsection (1), the "representative of a person" includes a personal representative of a decedent; a conservator of a disabled person; a guardian of a minor or incapacitated person; a guardian ad litem of a minor, an incapacitated person, an unborn person, an unascertained person, or a person whose identity or address is unknown; and an agent acting on behalf of the person within the authority of a power of attorney. The representative of a person may rely on a general family benefit accruing to the living members of the represented person's family as a basis for making a disclaimer.

(2) The following rules govern the time when a disclaimer must be filed or delivered:

(a) If the property or interest has devolved to the disclaimant under a testamentary instrument or by the laws of intestacy, the disclaimer must be filed, if of a present interest, not later than 9 months after the death of the deceased owner or deceased donee of a power of appointment and, if of a future interest, not later than 9 months after the event determining that the taker of

the property or interest is finally ascertained and the taker's interest is indefeasibly vested. The disclaimer must be filed in the court of the county in which proceedings for the administration of the estate of the deceased owner or deceased donee of the power have been commenced. A copy of the disclaimer must be delivered in person or mailed by certified mail, return receipt requested, to any personal representative or other fiduciary of the decedent or donee of the power.

(b) If a property or interest has devolved to the disclaimant under a nontestamentary instrument or contract, the disclaimer must be delivered or filed, if of a present interest, not later than 9 months after the effective date of the nontestamentary instrument or contract and, if of a future interest, not later than 9 months after the event determining that the taker of the property or interest is finally ascertained and the taker's interest is indefeasibly vested. If the person entitled to disclaim does not know of the existence of the interest, the disclaimer must be delivered or filed not later than 9 months after the person learns of the existence of the interest. The effective date of a revocable instrument or contract is the date on which the maker no longer has power to revoke it or to transfer to the maker or another the entire legal and equitable ownership of the interest. The disclaimer or a copy of the disclaimer must be delivered in person or mailed by certified mail, return receipt requested, to the person who has legal title to or possession of the interest disclaimed.

(c) A surviving joint tenant may disclaim as a separate interest any property or interest in property devolving to the joint tenant by right of survivorship. A surviving joint tenant may disclaim the entire interest in any property or interest in the property that is the subject of a joint tenancy devolving to the joint tenant if the joint tenancy was created by act of a deceased joint tenant, the survivor did not join in creating the joint tenancy, and the survivor has not accepted a benefit under it.

(d) If real property or an interest in the property is disclaimed, a copy of the disclaimer may be recorded in the office of the clerk and recorder of the county in which the property or interest disclaimed is located.

(3) The disclaimer must:

(a) describe the property or interest disclaimed;

(b) declare the disclaimer and extent of the disclaimer; and

(c) be signed by the disclaimant.

(4) The following are the effects of a disclaimer:

(a) If property or an interest in property devolves to a disclaimant under a testamentary instrument, under a power of appointment exercised by a testamentary instrument, or under the laws of intestacy and the decedent has not provided for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed interest devolves as if the disclaimant had predeceased the decedent, but if by law or under the testamentary instrument the descendants of the disclaimant would take ~~the disclaimant's~~ share *in the disclaimed interest* by representation *or otherwise* were the disclaimant to predecease the decedent, *then* the disclaimed interest passes by representation, *or passes as directed by the governing instrument,* to

the descendants of the disclaimant who survive the decedent. A future interest that takes effect in possession or enjoyment after the termination of the estate or interest disclaimed takes effect as if the disclaimant had predeceased the decedent. A disclaimer relates back for all purposes to the date of the death of the decedent.

(b) If property or an interest in property devolves to a disclaimant under a nontestamentary instrument or contract and the instrument or contract does not provide for another disposition of that interest, should it be disclaimed, or of disclaimed or failed interests in general, the disclaimed interest devolves as if the disclaimant had predeceased the effective date of the instrument or contract, hut if by law or under the nontestamentary instrument or contract the descendants of the disclaimant would ~~take the disclaimant's~~ share *in the disclaimed interest* by representation *or otherwise* were the disclaimant to predecease the effective date of the instrument, *then* the disclaimed interest passes by representation, *or passes as directed by the governing instrument,* to the descendants of the disclaimant who survive the effective date of the instrument. A disclaimer relates back for all purposes to that date. A future interest that takes effect in possession or enjoyment at or after the termination of the disclaimed interest takes effect as if the disclaimant had died before the effective date of the instrument or contract that transferred the disclaimed interest.

(c) The disclaimer or the written waiver of the right to disclaim is binding upon the disclaimant or person waiving and on all persons claiming through or under either of them.

(5) The right to disclaim property or an interest in the property is barred by:

(a) an assignment, conveyance, encumbrance, pledge, or transfer of the property or interest or a contract therefor;

(b) a written waiver of the right to disclaim;

(c) an acceptance of the property or interest or benefit under it; or

(d) a sale of the property or interest under judicial sale made before the disclaimer is made.

(6) This section does not abridge the right of a person to waive, release, disclaim, or renounce property or an interest in property under any other statute.

(7) An interest in property that exists on October 1, 1993, as to which, if a present interest, the time for filing a disclaimer under this section has not expired or, if a future interest, the interest has not become indefeasibly vested or the taker finally ascertained may be disclaimed within 9 months after October 1, 1993."

Section 21. Section 72-2-813, MCA, is amended to read:

"**72-2-813. Effect of homicide on intestate succession, wills, trusts, joint assets, life insurance, and beneficiary designations.** (1) For purposes of this section, the following definitions apply:

(a) "Disposition or appointment of property" includes a transfer of an item of property or any other benefit to a beneficiary designated in a governing instrument.

(b) "Governing instrument" means a governing instrument executed by the decedent.

(c) "Revocable", with respect to a disposition, appointment, provision, or nomination, means one under which the decedent, at the time of or immediately before death, was alone empowered, by law or under the governing instrument, to cancel the designation in favor of the killer, whether or not the decedent was then empowered to designate the decedent in place of the decedent's killer and whether or not the decedent then had capacity to exercise the power.

(2) An individual who feloniously and intentionally kills the decedent forfeits all benefits under this chapter with respect to the decedent's estate, including an intestate share, an elective share, an omitted spouse's or child's share, a homestead allowance, exempt property, and a family allowance. If the decedent died intestate, the decedent's intestate estate passes as if the killer disclaimed the killer's intestate share.

(3) The felonious and intentional killing of the decedent:

(a) revokes any revocable:

(i) disposition or appointment of property made by the decedent to the killer in a governing instrument;

(ii) provision in a governing instrument conferring a general or nongeneral power of appointment on the killer; and

(iii) nomination of the killer in a governing instrument, nominating or appointing the killer to serve in any fiduciary or representative capacity, including a personal representative, executor, trustee, or agent; and

(b) severs the interests of the decedent and killer in property held by them at the time of the killing as joint tenants with the right of survivorship and transforms the interests of the decedent and killer into tenancies in common.

(4) A severance under subsection (3)(b) does not affect any third-party interest in property acquired for value and in good faith reliance on an apparent title by survivorship in the killer unless a writing declaring the severance has been noted, registered, filed, or recorded in records appropriate to the kind and location of the property, which records are relied upon, in the ordinary course of transactions involving such property, as evidence of ownership.

(5) Provisions of a governing instrument ~~that are not revoked by~~ this ~~section~~ are given effect as if the killer disclaimed all ~~revoked~~ provisions *revoked by this section* or, in the case of a revoked nomination in a fiduciary or representative capacity, as if the killer predeceased the decedent.

(6) A wrongful acquisition of property or interest by a killer not covered by this section must be treated in accordance with the principle that a killer cannot profit from the killer's wrong.

HeinOnline -- 1995 vol. IV 3499 1995

(7) After all right to appeal has been exhausted, a judgment of conviction establishing criminal accountability for the felonious and intentional killing of the decedent conclusively establishes the convicted individual as the decedent's killer for purposes of this section. In the absence of a conviction, the court, upon the petition of an interested person, shall determine whether, under the preponderance of evidence standard, the individual would be found criminally accountable for the felonious and intentional killing of the decedent. If the court determines that under that standard the individual would be found criminally accountable for the felonious and intentional killing of the decedent, the determination conclusively establishes that individual as the decedent's killer for purposes of this section.

(8) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by an intentional and felonious killing, or for having taken any other action in good faith reliance on the validity of the governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice of a claimed forfeiture or revocation under this section. *A payor or other third party does not have a duty or obligation to make any determination as to whether the decedent was a victim of a homicide or to seek any evidence with respect to a homicide even if the circumstances of the decedent's death are suspicious or questionable as to the beneficiary's participation in a homicide.* A payor or other third party is *only* liable for ~~a payment made or other action~~ *actions* taken *2 or more business days* after *the actual receipt by* the payor or other third party ~~received~~ *of* written notice ~~of a claimed forfeiture or revocation under this section~~. *The payor or other third party may be liable for actions taken pursuant to the governing instrument only if the form of the service is that described in subsection (8)(b).*

(b) *The written notice must indicate the name of the decedent, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that a claim of forfeiture or revocation is being made under this section.* Written notice of a claimed forfeiture or revocation under subsection (8)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. *Notice to a sales representative of the payor or other third party does not constitute notice to the payor or other third party.* Upon receipt of written notice of a claimed forfeiture or revocation under this section, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. *In addition to the actions available under this section, the payor or other third party may take any action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment to the court of amounts owed or transferred to or deposited with the court or any item of property.* The court shall hold the funds or item of property and, upon its determination under this

section, shall order disbursement in accordance with the determination. *A filing fee, if any, may be charged upon disbursement either to the recipient or against the funds or property on deposit with the court, in the discretion of the court.* Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(9) (a) A ~~person~~ *bona fide purchaser* who purchases property ~~for value and without notice~~ or who receives a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a person who, not for value, receives a payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law, *other than the federal Employee Retirement Income Security Act of 1974, as amended,* with respect to a payment, an item of property, or any other benefit covered by this section, a person who, not for value, receives the payment, item of property, or other benefit to which the person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted.

(10) For the purposes of this section, a felonious and intentional killing includes a deliberate homicide as defined in 45-5-102 and a mitigated deliberate homicide as defined in 45-5-103."

Section 22. Section 72-2-814, MCA, is amended to read:

"72-2-814. Revocation of probate and nonprobate transfers by divorce — no revocation by other changes of circumstances. (1) As used in this section, the following definitions apply:

(a) "Disposition or appointment of property" includes a transfer of an item of property or any other benefit to a beneficiary designated in a governing instrument.

(b) "Divorce or annulment" means any divorce, annulment, or dissolution or declaration of invalidity of a marriage that would exclude the spouse as a surviving spouse within the meaning of 72-2-812. A decree of separation that does not terminate the status of husband and wife is not a divorce for purposes of this section.

(c) "Divorced individual" includes an individual whose marriage has been annulled.

(d) "Governing instrument" means a governing instrument executed by the divorced individual before the divorce or annulment of the individual's marriage to the individual's former spouse.

HeinOnline -- 1995 vol. IV 3501 1995

(e) "Relative of the divorced individual's former spouse" means an individual who is related to the divorced individual's former spouse by blood, adoption, or affinity and who, after the divorce or annulment, is not related to the divorced individual by blood, adoption, or affinity.

(f) "Revocable", with respect to a disposition, appointment, provision, or nomination, means one under which the divorced individual, at the time of the divorce or annulment, was alone empowered, by law or under the governing instrument, to cancel the designation in favor of the individual's former spouse or former spouse's relative, whether or not the divorced individual was then empowered to designate the divorced individual in place of the individual's former spouse or in place of the former spouse's relative and whether or not the divorced individual then had the capacity to exercise the power.

(2) Except as provided by the express terms of a governing instrument, a court order, or a contract relating to the division of the marital estate made between the divorced individuals before or after the marriage, divorce, or annulment, the divorce or annulment of a marriage:

(a) revokes any revocable:

(i) disposition or appointment of property made by a divorced individual to the individual's former spouse in a governing instrument and any disposition or appointment created by law or in a governing instrument to a relative of the divorced individual's former spouse;

(ii) provision in a governing instrument conferring a general or nongeneral power of appointment on the divorced individual's former spouse or on a relative of the divorced individual's former spouse; and

(iii) nomination in a governing instrument that nominates a divorced individual's former spouse or a relative of the divorced individual's former spouse to serve in any fiduciary or representative capacity, including a personal representative, executor, trustee, conservator, agent, or guardian; and

(b) severs the interests of the former spouses in property held by them at the time of the divorce or annulment as joint tenants with the right of survivorship and transforms the interests of the former spouses into tenancies in common.

(3) A severance under subsection (2)(b) does not affect any third-party interest in property acquired for value and in good faith reliance on an apparent title by survivorship in the survivor of the former spouses unless a writing declaring the severance has been noted, registered, filed, or recorded in records appropriate to the kind and location of the property, which records are relied upon, in the ordinary course of transactions involving such property, as evidence of ownership.

(4) Provisions of a governing instrument ~~that are not revoked by this section~~ are given effect as if the former spouse and relatives of the former spouse disclaimed ~~the revoked~~ *all* provisions *revoked by this section* or, in the case of a revoked nomination in a fiduciary or representative capacity, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

(5) Provisions revoked solely by this section are revived by the divorced individual's remarriage to the former spouse or by a nullification of the divorce or annulment.

(6) No change of circumstances other than as described in this section and in 72-2-813 effects a revocation.

(7) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by a divorce, annulment, or remarriage, or for having taken any other action in good faith reliance on the validity of the governing instrument, before the payor or other third party received written notice of the divorce, annulment, or remarriage. *A payor or other third party does not have a duty or obligation to inquire as to the continued marital relationship between the decedent and a beneficiary or to seek any evidence with respect to a marital relationship.* A payor or other third party is *only* liable for ~~a payment made or other action~~ *actions* taken *2 or more business days* after *the actual receipt by* the payor or other third party ~~received~~ *of* written notice ~~of a claimed forfeiture or revocation under this section~~. *The payor or other third party may be liable for actions taken pursuant to the governing instrument only if the form of service is that described in subsection (7)(b).*

(b) *The written notice must indicate the name of the decedent, the name of the person asserting an interest, the nature of the payment or item of property or other benefit, and a statement that a dissolution, annulment, or remarriage of the decedent and the designated beneficiary occurred.* Written notice of the divorce, annulment, or remarriage under subsection (7)(a) must be mailed to the payor's or other third party's main office or home by certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice of the divorce, annulment, or remarriage, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of probate proceedings relating to decedents' estates located in the county of the decedent's residence. *In addition to the actions available under this section, the payor or other third party may take any action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. The court may not charge a filing fee to the payor or other third party for the payment to the court of amounts owed or transferred to or deposited with the court or any item of property.* The court shall hold the funds or item of property and, upon its determination under this section, shall order disbursement or transfer in accordance with the determination. *A filing fee, if any, may, in the discretion of the court, be charged upon disbursement either to the recipient or against the funds or property on deposit with the court.* Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(8) (a) A person *bona fide purchaser* who purchases property from a former spouse, relative of a former spouse, or any other person ~~for value and without~~

~~notice~~ or who receives from a former spouse, relative of a former spouse, or any other person a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. However, a former spouse, relative of a former spouse, or other person who, not for value, received a payment, item of property, or other benefit to which that person is not entitled under this section is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of tbe payment or the value of the item of property or benefit, to the person who is entitled to it under this section.

(b) If this section or any part of this section is preempted by federal law, *other than the federal Employee Retirement Income Security Act of 1974, as amended,* with respect to a payment, an item of property, or any other benefit covered by this section, a former spouse, relative of the former spouse, or any other person who, not for value, received a payment, item of property, or other benefit to which that person is not entitled under this section is obligated to return that payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of the item of property or benefit, to the person who would have been entitled to it were this section or part of this section not preempted."

Section 23. Section 72-2-1017, MCA, is amended to read:

"72-2-1017. Honorary trusts — trusts for pets. (1) A *Subject to subsection (3), a* trust ~~for a noncharitable corporation or unincorporated society or for a lawful noncharitable purpose~~ may be performed by the trustee for 21 years but no longer, ~~whether or not there is a beneficiary who can seek the trust's enforcement or termination~~ and whether or not the terms of the trust contemplate a longer duration *if:*

(a) a trust is for a specific lawful noncharitable purpose or for lawful noncharitable purposes to be selected by the trustee; and

(b) there is no definite or definitely ascertainable beneficiary designated.

(2) Subject to the provisions of *subsection (3) and* this subsection, a trust for the care of a designated domestic or pet animal ~~and the animal's offspring~~ is valid. ~~Except as expressly provided otherwise in the trust instrument, the following provisions apply:~~

~~(b)~~ The trust terminates ~~at the earlier of 21 years after the trust was created~~ or when no living animal is covered by the trust. *A governing instrument must be liberally construed to bring the transfer within this subsection, to presume against the merely precatory or honorary nature of the disposition, and to carry out the general intent of the transferor. Extrinsic evidence is admissible in determining the transferor's intent.*

(3) In addition to the provisions of subsection (1) or (2), a trust covered by either of those subsections is subject to the following provisions:

(a) Except as expressly provided otherwise in the trust instrument, no portion of the principal or income may be converted to the use of the trustee or to any use other than for the trust's purposes or for the benefit of a covered animal.

~~(e)~~*(b)* Upon termination, the trustee shall transfer the unexpended trust property in the following order:

~~(d)~~*(c)* For the purposes of 72-2-717, the residuary clause is treated as creating a future interest under the terms of a trust.

~~(e)~~*(d)* The intended use of the principal or income may be enforced by an individual designated for that purpose in the trust instrument or, if none, by an individual appointed by a court upon application to it by an individual.

~~(f)~~*(e)* Except as ordered by the court or required by tbe trust instrument, no filing, report, registration, periodic accounting, separate maintenance of funds, appointment, or fee is required by reason of the existence of the fiduciary relationship of the trustee.

~~(g) A governing instrument must be liberally construed to bring the transfer within the applicability of this section, to presume against the merely precatory or honorary nature of the disposition, and to carry out the general intent of the transferor. Extrinsic evidence is admissible in determining the transferor's intent.~~

~~(h)~~*(f)* A court may reduce the amount of the property transferred if it determines that that amount substantially exceeds the amount required for the intended use. The amount of the reduction, if any, passes as unexpended trust property under subsection ~~(2)(e)~~ *(3)(b)*.

~~(i)~~*(g)* If no trustee is designated or no designated trustee is willing or able to serve, a court shall name a trustee. (a) if a previous proceeding was dismissed because of doubt about the fact of the decedent's death, appropriate probate, appointment, or testacy proceedings may be maintained at any time thereafter upon a finding that the decedent's death occurred prior to the initiation of the previous proceeding and the applicant or petitioner has not delayed unduly in initiating the subsequent proceeding;

CHAPTER NO. 593

[HB 2]

AN ACT APPROPRIATING MONEY TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 1997; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [This act] may be cited as "The General Appropriations Act of 1995".

Section 2. First level expenditures. The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying this bill, showing first level expenditures and funding for the 1997 biennium, are adopted as legislative intent.

Section 3. Severability. If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

Section 4. Legislative audit costs. Amounts appropriated to pay audit costs may be transferred between fiscal years. Agencies shall reserve enough cash in each fund and shall, to the maximum extent allowable under federal regulations, charge audit costs to federal funds.

Section 5. Technical allocation costs. (1) For agencies with internal cost allocation plans that are funded with proprietary revenue, the budget

HeinOnline -- 1995 vol. IV 3513 1995

director shall adjust agency appropriations by amounts that are necessary to increase the budgets for indirect costs that are attributable to pay increases in an agency's indirect cost pool appropriated in the state pay plan bill. Funding for this appropriation consists of general fund money and other funds in an amount proportionate to the funding allocated for budgeting indirect cost assessments in [this act].

(2) For the agency line item appropriations for legislative audit, there is appropriated an increase equal to the amount appropriated from the legislative auditor's special revenue fund for state pay plan funding. The budget director shall allocate this appropriation on the same basis that current line items for legislative audit in agency budgets are allocated in [this act].

Section 6. Appropriation control. An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 1999 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

Section 7. Program definition. As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinally numbered with an arabic numeral.

Section 8. Personal services funding — 1999 biennium. (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 1999 biennium submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of other expenditures. The funding of first level personal services by accounting entity for each fiscal year must be shown for each control variable in the budget request for the 1999 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

(2) The provisions of subsection (1) do not apply to the Montana university system.

~~[**Section 9. Personal services — workers' compensation costs.** Appropriations for personal services in [this act] for each executive branch agency (including those headed by an elected official) in each year of the biennium are reduced by the difference between amounts appropriated, by fund type, for workers' compensation costs and actual costs based upon rates established by the state mutual compensation fund, as determined by the budget director. The budget director shall submit all documentation of calculations used to determine the difference in workers' compensation costs in each year to the legislative fiscal analyst within 10 days of final calculation. The calculation may not include a reduction that is based on an experience modification factor.]~~

If the total net revenue from the fuel tax exceeds the revenue estimate established in House Joint Resolution No. 9, the department shall increase the urban and secondary appropriations included in item 2 by the amount the revenue estimate is exceeded, up to $15 million for the biennium. The increase must be divided on a 40% urban/60% secondary basis.

[Item 2e is for survey, preliminary design, and staking work, to be performed by or at the direction of Fergus County, on the Claggett hill (old stage road) project. The legislature intends that this work be completed no later than October 31, 1995.]

The department may adjust appropriations in the construction and transportation planning programs between state special and federal special revenue fund types, provided that the total state special revenue authority for these programs is not increased by more than 10% of the appropriations established by the legislature. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning, and all fund transfers of over $1 million in any 30-day period must be communicated to the legislative finance committee in a written report.

The department is authorized to obtain contributed capital from the highway special revenue account for the motor pool proprietary account for the purpose of managing the motor pool account fund balance in accordance with the federal government's interpretation of OMB Circular A-87. The department shall make such accounting entries in amounts minimally sufficient to avoid federal assessments.

Liquor division proprietary funds necessary to maintain adequate inventories of liquor and wine and to operate the state liquor merchandising operation are appropriated to the department in amounts not to exceed $57,164,000 in fiscal year 1996 and $58,267,000 in fiscal year 1997. During the 1997 biennium, the division shall attempt to return at least 10% [19%] of net sales to the general fund. Net sales are gross sales less discounts[, commissions,] and all taxes collected. The division shall limit biennial operational expenses of the liquor merchandising system to not more than 15% [8.25%] of the net sales. For purposes of this expense limitation, operational expenses include all merchandising expenses, including depreciation, plus department overhead allocable to the merchandising system, but do not include product costs and freight charges. If House Bill No. 574 is not passed and approved, the bracketed language in this paragrapb is void and the former text is restored.

During the 1997 biennium, the department is encouraged to research and to implement, if possible, new electronic technologies, such as increased use of electronic filing for all tax returns, computer imaging, integration of statewide appraisal systems with statewide geographic information systems, connection to the information superhighway, and any other emerging systems, for the purpose of developing more effective and efficient ways of processing tax data.

The department is appropriated revenue deposited to the property valuation improvement fund in the 1997 biennium in amounts not to exceed $250,000 in fiscal year 1996 and $250,000 in fiscal year 1997.

The department is authorized to borrow up to $50,000 from the general fund in the 1997 biennium for the property valuation improvement fund. The department shall repay the loan by the end of the 1997 biennium with interest equal to rates earned by the short-term investment pool.

Items 4b and 4c are contingent on passage and approval of House Bill No. 293.

Funding to support self-administration of flexible spending accounts is contingent on the department's determination that self-administration is more cost-effective than contracting with the current provider.

The information services division shall actively pursue federal funding for the SummitNet project. If federal funds become available in the 1997 biennium, the department is authorized to seek a budget amendment to allow expenditure of those funds and shall reduce its proprietary fund appropriation accordingly.

The department shall provide semiannual reports to the office of budget and program planning and the office of the legislative fiscal analyst on progress towards achievement of the central mail program performance targets, as outlined in the legislative appropriations report for the 1997 biennium, with explanations for any significant variances.

The department of administration shall develop and submit cost recovery plans for payroll services, information services division services, mail messenger services, publications and graphics services, insurance premiums, general services rent, and the state funds cost allocation plan to the office of budget and program planning and the legislative fiscal analyst by June 1, 1996, for development of the 1999 biennium present law base. The office of budget and program planning shall, in consultation with the legislative fiscal analyst, develop guidelines for the form and content of agency cost recovery plans by May 1, 1996. The (agency) shall develop its cost recovery plan and provide supporting documentation as specified in these guidelines. Agency cost recovery plans must include projected revenue and expenses by line of service and the projected fiscal yearend working capital balances for each applicable accounting entity, unless exempted in office of budget and program planning guidelines.

Item 7d contains biennial appropriations that the department and the office of budget and program planning may allocate to agencies (except the Montana university system), subject to the process described below, for personal services if the agencies did not experience normal turnover in an amount necessary to provide full funding for personal services. In allocating the personal services contingency funds, priority must be given to small agencies. Amounts may be adjusted among fund types, excluding the general fund, which may not be adjusted. An agency requesting an allocation of these funds shall document in its request to the budget director that projected personal services expenditures will exceed program appropriations for personal services and the reasons for the deficit and shall certify that no other budget authority in the agency is available. The office of budget and program planning shall provide an annual report to the legislative finance committee documenting all allocations of these personal services contingency funds.

Item 7e is contingent on passage and approval of Senate Bill No. 136.

The amendments to text in lines 8, 9, 13, 14, and 15 on page A-13 (reference copy) are contingent on passage and approval of House Bill No. 576.

Funds appropriated for item 1c must be used for telephone equipment charges and long distance charges associated with operating KIOSK and computerized information centers. The legislature intends the department to coordinate with other state agencies, counties, cities, and towns to the greatest extent possible to fully utilize the capacity and capabilities of the KIOSK and computerized information centers that will be installed throughout the state. The department shall report on the usage and effectiveness of the KIOSK and computerized information centers to the 55th legislature. Because these funds are approved on a one-time-only basis, the department shall request and justify similar funding in a new proposal for the 1999 biennium if it intends to continue operating the KIOSK and computerized information centers past the 1997 biennium.

Funds appropriated in item 1d may be used only for certified apprenticeship instruction and for related training programs.

If House Bill No. 68 is not passed and approved, state special revenue in item 4 is increased by $223,749 in fiscal year 1996 and by $224,644 in fiscal year 1997.

Funds in items 4d and 5c are contingent on passage and approval of Senate Bill No. 354. Senate Bill No. 354 provides for fees to fund the administrative and enforcement activities required of the department. If revenue from the fees is initially insufficient to fund items 4d and 5c, then the department is authorized to use a short-term loan from the employment security trust account. The short-term loan must be repaid by September 30, 1996.

This transfer must be made no later than October 1, 1996.

If Senate Bill No. 345 is passed and approved, items 1 through 13 and accompanying text are void and the provisions of [section 17] apply.

The legislature intends that expenditures for all provider rate increases approved by the legislature be limited to the dollar amounts appropriated rather than the percentage increase on which the original estimates may have been based. The department will be in compliance with this provision if:

(1) it estimates total cost for each medicaid service category in June prior to the beginning of each fiscal year of the 1997 biennium; and

(2) the percentage increase or base adjustments approved by the department are limited to the dollar amount appropriated for each provider rate increase.

The AFDC payment level for the 1997 biennium must be established at no less than 40.5% of the federal poverty index.

The department shall require that JOBS participants who leave the program because of employment be tracked up to 1 year after their termination with the JOBS program as a condition of letting JOBS contracts. Exemptions from this requirement include JOBS participants who are no longer Montana residents or JOBS participants who cannot be reached despite good faith efforts. The department shall report to the 55th legislature regarding the employment and earning status of former JOBS participants served during the 1997 biennium.

Contingent on passage and approval of Senate Bill No. 209, the department shall notify the department of family services that children in a household are at risk when that household receives a sanction that includes reduction of the adult portion of the AFDC grant.

Funds in item 1a must be used for a teen parent program. The department may use general fund money in item 1a for a teen parent program for teen parents who are not AFDC eligible and for teen parents who are AFDC eligible but younger than 15 years of age.

The department is authorized to retain 7.5% of the federal community services block grant and pass through the remaining 92.5% to the human resource development councils (HRDCs). If during fiscal year 1996 or fiscal year 1997 the block grant falls below the federal fiscal year 1990 grant level, the department shall retain only 5% of the grant amount and pass through the remaining 95% to the HRDCs.

The state share of AFDC-related support collections and all AFDC and non-AFDC federal incentive payments and program-collected fees must be deposited in the state special revenue account from which the state share of the administrative and operational costs of the child support enforcement program must be paid. The department shall transfer to the general fund from the child support enforcement account any cash balance in excess of $350,000.

The department is appropriated funds for a pilot project in Deer Lodge County. The pilot project may include work, job training, subsistence payments, and preventive health programs for low-income people. The use of appropriated funds in item 5a is contingent on Deer Lodge County levying 12 mills for its poor fund for public assistance, protective services, and other benefits for low-income people.

The department shall implement 53-6-101(10) if medicaid expenditures exceed appropriations in [this act] in either year of the biennium.

The department shall perform a statistically valid survey of dentists to determine usual and customary charges for children's dental services during fiscal year 1996. The department sball compute the 1999 biennium cost of establishing medicaid reimbursement for children's dental services at 80% of usual and customary charges based on the survey results. The executive budget must publish by fiscal year the 1999 biennium cost to fund medicaid reimbursement for children's dental services at 80% of survey rates.

The legislature intends that $70,653,143 of the amount in fiscal year 1996 and $77,127,105 of the amount in fiscal year 1997 in item 6 are appropriated for hospital medicaid benefits.

Because of de-earmarking by Senate Bill No. 83, item 6 has been reduced by $6,611,179 in state special revenue in fiscal year 1996 and by $6,665,040 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 6 are reduced by $6,611,179 in fiscal year 1996 and by $6,665,040 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Funds in item 6b must be used to contract for orthodontia consultation and pediatric dental consultation for medicaid dental claims, medicaid policy development, and representation of the department in fair hearings.

The department may use funds in items 6d and 6e to increase rates paid for medicaid services purchased from hospitals and nursing homes. If hospital or medicaid providers sue the department to obtain additional increases in medicaid rates, the department may use the funds to defend the state against the lawsuit. In the event the defense is unsuccessful, the department may reallocate funds from other appropriations to fund nursing home and bospital rate increases.

Funds in item 6f may be used only for rate increases for children's dental services. Funds in item 6f may not be transferred to other uses in the department or to another department.

If Senate Bill No. 236 is passed and approved and if the department collects estate recoveries and other savings because of Senate Bill No. 236 in excess of $600,000 in fiscal year 1996 or $600,000 in fiscal year 1997, up to $1 million of general fund money and matching federal funds of those excess savings are appropriated each year for independent living and community-based medicaid services.

Item 8 includes efficiencies and savings of 25 FTE, $412,500 in general fund money, and $412,500 in federal special revenue in fiscal year 1997 based on passage and approval of Senate Bill No. 345, which reorganizes human services and public health agencies. The executive branch can allocate these reductions among programs in the department of public health and human services. If Senate Bill No. 345 is not passed and approved, the appropriation in item 8 is increased by 25 FTE, $412,500 in general fund money, and $412,500 in federal special revenue in fiscal year 1997.

If Senate Bill No. 345 is passed and approved, the department shall solicit proposals to establish a local structure to administer and coordinate human services programs. To the extent feasible and permitted by federal law, the proposal must include administration of all of the programs transferred to the department of public health and human services. The department shall accept one or more proposals as a demonstration project, with an anticipated beginning date of July 1, 1996. Funding for the demonstration project must be taken from appropriations authorized in [this act]. If Senate Bill No. 345 is passed and approved, the department shall create an advisory committee to assist in the preparation of a report to the 55th legislature on the feasibility of expanding the demonstration proposal to establish local administration and coordination of human services programs. The report must contain a preliminary evaluation of the demonstration project described above.

Funds for item 8b are to fund welfare fraud investigation. The department of justice may hire FTE rather than contract for services if the department certifies to the office of budget and program planning that FTE are more cost-effective than contracted services.

The funds for item 8c are contingent on passage and approval of House Bill No. 511.

If the department considers contracting for operation of the TEAMS or SEARCHS computer applications on a privately owned and operated mainframe or midrange computer or if the department plans to purchase a midrange computer for the operation of these systems, the department shall submit to the office of budget and program planning and to the legislative finance committee a comparison of the cost of operating the system on the state mainframe computer managed by the department of administration or on a midrange computer owned by the department. The department of administration shall estimate rate changes that would occur because of removal of TEAMS or SEARCHS from the state mainframe. If the office of budget and program planning determines that statewide cost savings are greater than the private contract cost savings or savings because of the purchase of a departmental midrange computer, the department shall operate TEAMS or SEARCHS on the state mainframe computer if continued operation of TEAMS or SEARCHS on the state mainframe does not conflict with federal regulations.

Provider rate increases funded in item 12c must be allocated between general operating inflationary increases and wage increases for the lowest wage, direct-care line workers of developmental disabilities providers. No less than $375,429 of general fund money and $215,954 of federal special revenue in fiscal year 1996 and $758,100 of general fund money and $433,751 of federal special revenue in fiscal year 1997 must be granted with no specific expense allocation, and the remainder of the rate increase must be allocated to salaries for the lowest-wage, direct-care line workers.

The department may pursue funding of any existing eligible state general-funded services under the federal ICF/MR program if the federal government fails to approve adequate medicaid waiver funding under the home- and community-based waiver program.

It is the intent of the legislature that in fiscal year 1996 and fiscal year 1997, any unexpended portion of the department's general fund appropriation, up to $500,000 for the biennium, may be awarded by the department for the purposes of providing primary and preventive health care benefits to children who are uninsured and not eligible for medicaid benefits. To qualify, the family income may be no greater than 185% of the federal poverty level. The department may contract with public or private entities for the administration and provision of these services. These funds may be allocated only to those programs that have established a statewide network of medical providers who have agreed to accept reimbursement at a lower rate than would normally be charged for their services.

The amendments made to the general fund in items 1, 1a, and 2 are contingent on passage and approval of Senate Bill No. 345. If Senate Bill No. 345 Is passed and approved, items 1 through 4 and accompanying text are void and the provisions of [section 17] apply.

The legislature intends that expenditures for all provider rate increases approved by the legislature be limited to the dollar amounts appropriated rather than the percentage increase on which the original estimates may have been based. The department will be in compliance with this provision if the percentage increase or base adjustments approved by the department are limited to the dollar amount appropriated for each provider rate increase.

The department shall prepare a unified budget for the interagency coordinating council on prevention of child abuse and neglect. The unified budget must identify services funded, expenditures by service in fiscal year 1996, and preliminary amounts budgeted for the 1999 biennium by service and fund type from the department of family services, office of public instruction, board of crime control, department of health and environmental sciences, department of labor and industry, and department of social and rehabilitation services. A preliminary budget must be presented to the joint oversight committee on children and families, the legislative finance committee, and the office of budget and program planning by September 1, 1996. The unified budget must be published in the governor's budget request to the 55th legislature.

The department may add FTE instead of contracting for services if it certifies to the office of budget and program planning that FTE are more cost-effective than contracting. FTE added through this language may not be included in the 1999 biennium base budget.

The department shall notify the parents, legal guardians, or caretakers of the children of male and female prisoners in the state of Montana of the state services available to children and families. Services provided by the departments of family services, social and rehabilitation services, health and environmental sciences, and corrections and human services must be listed and explained. Notification may be waived if the children of prisoners do not reside in Montana.

Funds in item 1b may not be included in the fiscal year 1996 hase budget.

Funds in item 2a may be used only for new social worker positions with duties related to child or elder abuse and neglect. The department shall establish an accounting center and a budget center to track expenditures for and the number of abuse and neglect workers separate from other department FTE. The department shall report abuse and neglect FTE and related expenditures separate from other budget functions in its budget request to the 55th legislature.

Funds in item 2b are contingent on passage and approval of Senate Bill No. 55.

The legislature has no evidence that the Montana youth alternatives program funded in item 3 is more effective in treating juvenile offenders than the Mountain View school program.

Funds in item 3a must be spent on secure care for female offenders and treatment programs for sexual offenders. The department may not transfer funds in item 3a to other uses or to other programs or departments. The department shall provide to the 55th legislature the following information about expenditures funded frem item 3a: the number of children served, the average cost per child, services provided, the treatment outcomes, and the current placement of children served.

Funds in item 3b may not be used for any purpose other than maintenance and repair of Pine Hills school. The department must obtain the approval of the engineering and architecture division of the department of administration before proceeding with repairs funded frem item 3b.

Funds in item 3c may be used only for a vocational agricultural program at Pine Hills school.

The department shall present a report to the 55th legislature confirming the outcome of the partnership project. The report must include the number of families and children served and the types of services funded and must verify the impact on the growth in the foster care caseload, if any. The report must explicitly identify fiscal year 1996 expenditures by fund type, service, and county location, compared to the estimated expenditures by fund type and service for the 1999 biennium.

Because of de-earmarking by Senate Bill No. 83, item 4 has been reduced by $35,406 in state special revenue in fiscal year 1996 and by $34,409 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 4 are reduced by $35,406 in fiscal year 1996 and by $34,409 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Funds in item 4a may not be included in the base budget for the 1999 biennium.

Item 4c is to develop family support services for children at risk of abuse or neglect and for children who have been referred for abuse or neglect and to develop community-based services for children placed in or who are at risk of being placed in juvenile corrections facilities. The development of additional services is contingent on recovery of federal funds through department refinancing initiatives and the collection of contributions from parents of children. Services must be developed within appropriation limitations in [this act], and the department may not expand partnership services so that foster care general fund requirements are greater than appropriations in [this act].

Funds in item 4e may be used only to fund child care benefit costs for families who are at risk of becoming eligible for AFDC. Funds in item 4e may not be used for any other purpose, transferred to any other use in the department, or transferred to another department.

The amendments made to general fund, state special revenue, federal revenue, and proprietary amounts in items 1, 2, and 2a are contingent on passage and approval of Senate Bill No. 345.

If Senate Bill No. 345 is passed and approved:

(1) items 6, 7, 8, and 9 are void and subsequent items are renumbered;

(3) item references in the text are adjusted accordingly; and

(4) the provisions of [section 17] apply.

If both Senate Bill No. 234 and Senate Bill No. 345 are passed and approved, items 1 through 11 and accompanying language are void.

Funds approved in item 3a may be used only to contract with the Montana bureau of mines and geology for radon in water testing and GIS mapping.

Included in the environmental remediation division funding is $446,016 in fiscal year 1996 and $454,576 in fiscal year 1997 of federal funds and $94,583 of state special revenue funds each fiscal year for leaking underground storage tank activities. Sufficient authority is available for $100,000 in consultant and professional services each fiscal year of the 1997 biennium. The department is appropriated up to $847,737 in fiscal year 1996 and $846,866 in fiscal year 1997 of additional federal revenue for leaking underground storage tank consultant and professional services if the revenue becomes available.

Included in the water quality division funding is $721,963 in fiscal year 1996 and $724,835 in fiscal year 1997 of federal nonpoint source pollution prevention funds (NPS funds). The department is appropriated up to $3 million of additional NPS funds during the 1997 biennium for the purpose of contracting with conservation districts if the funds become available.

Included in the water quality division funding is sufficient authority to contract $664,755 each fiscal year with nonprofit entities for water quality management activities. At least 60% of this annual amount must be contracted to conservation districts. No more than 10% of this annual amount may be spent on studies.

The funds in item 6a are contingent on passage and approval of Senate Bill No. 416.

General fund money in item 6b may be used only to contract for assistance to local health care providers in obtaining medicaid reimbursement and to assist communities in implementing local health care services.

Included in the air quality division funding is authority to add no more than 5.0 FTE in fiscal year 1996 and fiscal year 1997 to be funded with state special revenue funds. At least 3.0 FTE of the additional 5.0 FTE will perform permitting activities each year of the biennium.

The funds in item 6c are appropriated with the requirement that the development and operation of the tumor registry must be coordinated with all other medical data bases operated by the state so that the sharing of information is facilitated and the duplication of effort is reduced.

Item 7b is contingent on passage and approval of Senate Bill No. 292.

Contingent on passage and approval of a bill to statutorily eliminate the junk vehicle program, item 11 is reduced by $1,073,688 in state special revenue in fiscal year 1996 and by $1,088,584 in state special revenue in fiscal year 1997. Contingent on passage and approval of [this act], all fund balances remaining in the junk vehicle disposal state special revenue account as of July 1, 1995, minus any outstanding obligations, must be deposited in the general fund.

General Fund	State Special Revenue	Federal Special Revenue	Propri-etary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Propri-etary	Other	Total

During the 1997 biennium, the department shall:

(1) by July 1, 1996, develop and implement a consolidated contract for all health care grants;

(2) by October 1, 1995, revise and update the maternal and child health (MCH) rules to reflect the current block grant legislation with the amendments to the Federal Omnibus Budget Reconciliation Act of 1989. The rules must address the local match requirement. The department shall also establish a core set of MCH services. The department shall ensure that MCH block grant funds are not used for noncore services unless each core service is ensured or unless the entity receiving the grant has demonstrated through a formal needs assessment process that the core service not being provided is not needed. The rules must address medicaid billing and reimbursement and must contain a provision that all MCH block grant money be spent on MCH services and that it not be used to supplant local funds.

(3) explore all opportunities for maximizing medicaid revenue, including requiring local health units to bill medicaid for reimbursable services and using available general fund and state special revenue appropriations to match medicaid funds for state-level activities. If necessary, the department of social and rehabilitation services shall assist the department and local health units in maximizing medicaid revenue. By October 1, 1995, department rules must require that MCH block grant funds be provided only if an effective method of maximizing medicaid revenue has been established by the receiving entity; however, this requirement does not apply if an entity has determined and demonstrated that billing medicaid is not cost-effective.

(4) use priority setting in the disbursement of MCH block grant funds. By October 1, 1995, rules and formulas for distribution of funds to local entities must be revised to give the opportunity to help those counties, regions, or communities with the least resources, largest proportions of underserved families, and most serious maternal and child health problems, as identified by objective health indicators and community needs assessments. The MIAMI project and other public health programs must be operated in a similar manner.

(5) by October 1, 1995, require local health agencies to assume more responsibility for outreach and education for services to clients of such related state programs as passport; family support programs; and early periodic screening, diagnosis, and treatment (EPSDT);

(6) by October 1, 1995, ensure that the majority of local health care agencies bill medicaid for the provision of immunizations and well child visits/EPSDT; and

(7) on July 1, 1995, and every 6 months thereafter, file status reports with the members of the human services subcommittee on appropriations and with the legislative fiscal analyst regarding the six requirements provided above. At a minimum, the reports must address:

(a) progress in implementing these requirements;

(b) the amount of additional medicaid money the department has been able to access and an explanation of how and where that money is being used; and

(c) an explanation of the progress that the department expects to achieve during the next 6-month and 12-month periods.

The appropriations for the legislative contract authority are subject to the following provisions:

(1) Legislative contract authority applies only to federal and private funds.

(2) The department may transfer appropriation authority between the state special revenue fund and the federal special revenue fund. Transfers may not change the total appropriated to the department for legislative contract authority.

(3) Legislative contract authority expenditures must be reported on state accounting records. The records must be separate from present law operations. In preparing the 1999 biennium budget for legislative consideration, the office of budget and program planning may not include the expenditures from this item in the present law base.

(4) A report must be submitted by the department to the legislative fiscal analyst following the end of each fiscal year of the biennium. The report must include a listing of projects, with the related amount of expenditures for each project.

Items 2b and 4e are contingent on passage and approval of House Bill No. 195.

Item 3f is contingent on passage and approval of House Bill No. 349.

Because of de-earmarking by Senate Bill No. 83, item 4 has been reduced by $86,760 in state special revenue in fiscal year 1996 and by $86,760 in state special revenue in fiscal year 1997 and general fund amounts have been increased by $111,090 in fiscal year 1996 and by $111,215 in fiscal year 1997. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 4 are reduced by $111,090 in fiscal year 1996 and by $111,215 in fiscal year 1997 and the state special revenue amounts are increased by $86,760 in fiscal year 1996 and by $86,760 in fiscal year 1997.

Items 4f, 6f, and 7d are contingent on passage and approval of Senate Bill No. 321.

If Senate Bill No. 85 is passed and approved in a form that includes an exemption for ground maintenance workers from prevailing wage rates, the appropriation in item 6g is eliminated.

Because of de-earmarking by Senate Bill No. 83, item 7 has been reduced by $2,880 in state special revenue in fiscal year 1996 and by $2,880 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 7 are reduced by $2,880 in fiscal year 1996 and by $2,880 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Item 8a may be spent as a grant to the department of livestock for predator control only if the federal animal damage control discontinues its predator control program in Montana.

Federal fire reimbursement funds are those funds received for expenses incurred from loaning department personnel to federal agencies to assist in fire suppression activities. Only those federal funds received as reimbursement of expenses credited against the department's state forestry operational budget are considered federal fire reimbursement funds. All other federal funds received must be deposited into the general fund. The department shall report federal fire reimbursement expenditures on state accounting records, and the records must be separate from current level operations.

Because of elimination of the recreational access statutory appropriation by Senate Bill No. 83, item 3 has been increased by 1 FTE and $60,614 in state special revenue in fiscal year 1996 and by $60,838 in state special revenue in fiscal year 1997. If Senate Bill No. 83 is not passed and approved in a form that eliminates the statutory appropriation, then the state special revenue amounts in item 3 are reduced by $60,614 in fiscal year 1996 and by $60,838 in fiscal year 1997.

Item 4 includes reductions of 9.08 FTE and $85,258 in general fund money and $215,134 in state special revenue money in fiscal year 1997 to implement the FTE and personal services savings due to the reorganization of the natural resource agencies, contingent on passage and approval of Senate Bill No. 234. The executive branch shall allocate these reductions among programs in the newly created departments of environmental quality and natural resources and conservation. If Senate Bill No. 234 is not passed and approved, $85,258 in general fund money and $215,134 in state special revenue money for 9.08 FTE are appropriated to item 4 in fiscal year 1997.

Item 4c is contingent on passage and approval of House Bill No. 201.

It is the legislature's intent that the department grant $75,000 of statutorily appropriated lodging facilities use tax revenue to the Montana historical society each year to fund tours of the original governor's mansion and the state capitol and to fund restoration of the original governor's mansion.

If House Bill No. 68 is not passed and approved, state special revenue in item 4 is decreased by $97,013 in fiscal year 1996 and by $96,717 in fiscal year 1997.

The appropriation in item 4b is to be used only for unexpected legal expenses in the weights and measures, building codes, and professional and occupational licensing programs.

The amendments made to text in lines 20 and 21 on page C-15 (reference copy) are contingent on passage and approval of House Bill No. 280. If House Bill No. 280 is passed and approved:

(1) items 3 and 3a are void and subsequent subsections are renumbered;

(2) item references in the text are adjusted accordingly; and

(3) the provisions of [section 18(3)] apply.

Item 5b is contingent on passage and approval of Senate Bill No. 311.

Item 7c is contingent on the Bull Mountain mine project becoming productive. It is the intent of the legislature that the coal board grant the funds for impacts associated with the Bull Mountain mine project contingent upon meeting coal board standards for grant approval.

If House Bill No. 68 is not passed and approved, state special revenue in item 10 is decreased by $151,685 in fiscal year 1996 and by $152,549 in fiscal year 1997.

Because Senate Bill No. 4 has been passed and approved:

(1) items 11 and 11a are void and subsequent subsections are renumbered;

(2) item references in the text are adjusted accordingly; and

(3) the provisions of [section 18(4)] apply.

Because of de-earmarking by Senate Bill No. 83, item 17 has been reduced by $7,000 in state special revenue in fiscal year 1996 and by $7,000 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 17 are reduced by $7,000 in fiscal year 1996 and by $7,000 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Item 17b is contingent on passage and approval of Senate Bill No. 242.

Item 18d includes $20,000 of general fund in fiscal 1996 that must be used to provide funds for economic adjustments for Cascade County as a result of the plan to reduce the mission of Malmstrom air force base (AFB).

The legislature intends that the appropriation for legislative contract authority provide adequate spending authority to enable faster and more cost-effective startup of services otherwise initiated by budget amendment. Prior to authorizing use of the appropriation, the office of budget and program planning shall require the necessary and usual contract justification. A legislative contract authority appropriation must be accounted for and reported separately from all other appropriations. In the event that the amount of the department's additional federal contracts exceeds its legislative contract authority, additional spending authority must be established in accordance with the provisions of the budget amendment law in Title 17, chapter 7, part 4.

Because of de-earmarking by Senate Bill No. 83, item 1 has been reduced by $54,407 in state special revenue in fiscal year 1996 and by $54,598 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 1 are reduced by $54,407 in fiscal year 1996 and by $54,598 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

The legislature intends that the appropriation for legislative contract authority provide adequate spending authority to enable faster and more cost-effective startup of services otherwise initiated by budget amendment. Prior to authorizing use of the appropriation, the office of budget and program planning shall require the necessary and usual contract justification. A legislative contract authority appropriation must be accounted for and reported separately from all other appropriations. In the event that the amount of the department's additional federal contracts exceeds its legislative contract authority, additional spending authority must be established in accordance with the provisions of the budget amendment law in Title 17, chapter 7, part 4.

The legislature recognizes that costs associated with litigation in which the legal services division is required to provide representation to the state of Montana may exceed the appropriation provided. In that event, the department will need to request a supplemental appropriation from the 1997 legislature to adequately represent the state.

If House Bill No. 311 is not passed and approved, general fund money in item 1 must be decreased by $26,500 in fiscal year 1996.

If the total amount of federal crime bill funds in item 5 is not received by the department, the federal special revenue appropriation in item 5 must be reduced to the amount received and the state special revenue appropriation must be increased by the same amount as the federal special revenue appropriation is decreased.

Item 5c is contingent on passage and approval of House Bill No. 345.

If House Bill No. 68 is not passed and approved, state special revenue in item 6 is increased by $24,949 in fiscal year 1996 and by $24,622 in fiscal year 1997.

The department is authorized to transfer the retirement contributions provided in sections 19-6-404 and 61-5-121(1)(a) in fiscal years 1996 and 1997 from the highway patrol retirement clearing account in the state special revenue fund to the Montana highway patrol officers' retirement pension trust fund. An appropriation must be established each year in the amount required to be transferred up to the amount of $650,000.

The department is authorized to request a budget amendment for the rural statewide intelligence network if federal grant funds become available during the 1997 biennium.

If the total amount of federal special revenue in item 8 is not received by the department, the federal special revenue appropriation in item 8 must be decreased and the general fund appropriation must be increased by the same amount as the federal special revenue appropriation is decreased.

Because of elimination of the statutory appropriation by Senate Bill No. 83, item 12 has been increased by $50,000 in general fund money in fiscal year 1996 and by $50,000 in general fund money in fiscal year 1997. If Senate Bill No. 83 is not passed and approved in a form that eliminates the statutory appropriation, then the general fund amounts in item 12 are reduced by $50,000 in fiscal year 1996 and by $50,000 in fiscal year 1997.

If federal funds become available, the department is authorized to seek a budget amendment for youth or guardcare programs in the 1997 biennium.

The appropriations for legislative contract authority are subject to the following provisions:

(1) Prior to authorizing use of the appropriations, the office of budget and program planning shall require the usual and necessary contract justification.

(2) The legislative contract authority appropriations must be accounted for and reported separately from all other appropriations.

(3) In the event that the amount of the department's additional federal contracts exceeds its legislative contract authority, additional spending authority must be requested through the budget amendment process.

(4) In preparing the 1999 biennium budget, the office of budget and program planning may not include legislative contract authority expenditures in the present law base.

The appropriation provided for the air national guard program is contingent upon funds being used to attempt to achieve program performance targets as outlined in the legislative appropriations report for the 1997 biennium. The department shall provide semiannual reports to the office of budget and program planning and the office of the legislative fiscal analyst on progress toward achievement of these performance targets with explanations for any significant variances.

All revenue received in the state traffic education account under the provisions of 20-7-504 and 61-5-121 is appropriated as provided in Title 20, chapter 7, part 5. This appropriation may not exceed $1 million per year.

The legislative audit committee, in accordance with its constitutional authority to supervise legislative postaudits, shall ensure the independence of the audit of the office of the superintendent of public instruction conducted pursuant to Title 5, chapter 13, during the 1997 biennium. It is the intent of the legislature that the biennial financial compliance audit for the 2 fiscal years ending June 30, 1996, be contracted. To the extent that the legislative audit committee contracts with a private firm to conduct a portion of the audit or the entire audit, including the federal single audit, the total costs of all audit work during the biennium must be paid first from the line item appropriation to the office of the superintendent of public instruction for audit costs.

The office of public instruction may distribute the amounts required from the appropriation for "in-stste treatment" to public schools for the purpose of providing education costs in day-treatment services.

Because of de-earmarking by Senate Bill No. 83, item 1 has been reduced by $200,000 in state special revenue in fiscal year 1996 and by $200,000 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 1 are reduced by $200,000 in fiscal year 1996 and by $200,000 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

If House Bill No. 561 is not passed and approved, the state special revenue in item 1 is reduced by $30,000 in fiscal year 1996 and $65,000 in fiscal year 1997.

The office of public instruction may use up to 1% of the appropriation provided in item 2a to provide the matching funds necessary for medicaid reimbursements paid for medicaid-eligible services provided by public school districts.

The office of public instruction may transfer any unused balance in the appropriation in item 2b to the special education appropriation in item 2a.

Because of de-earmarking by Senate Bill No. 83, item 2c has been reduced by $3,908,166 in state special revenue in fiscal year 1996 and by $3,908,166 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 2c are reduced by $3,908,166 in fiscal year 1996 and by $3,908,166 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Because of de-earmarking by Senate Bill No. 83, item 2i has been reduced by $500,000 in state special revenue in fiscal year 1996 and by $500,000 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 2i are reduced by $500,000 in fiscal year 1996 and by $500,000 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Item 2s has been increased by $1,752,000 in general fund money in fiscal year 1997. If House Bill No. 479 is not passed and approved, general fund money in item 2s is reduced by $1,752,000 in fiscal year 1997.

Because of de-earmarking and elimination of the statutory appropriation by Senate Bill No. 83, item 2s has been increased by $290,180,000 in general fund money in fiscal year 1996 and by $290,180,000 in general fund money in fiscal year 1997. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue and eliminates the statutory appropriation, then the general fund amount in item 2s is reduced by $290,180,000 in general fund money in fiscal year 1996 and by $290,180,000 in general fund money in fiscal year 1997.

Because of de-earmarking and elimination of the statutory appropriation by Senate Bill No. 83, item 2u has been increased by $147,992 in general fund money in fiscal year 1996 and by $153,912 in general fund money in fiscal year 1997. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue and eliminates the statutory appropriation, then the general fund amounts in item 2u are reduced by $149,992 in fiscal year 1996 and by $153,912 in fiscal year 1997.

The superintendent of public instruction shall adopt policies that:

(1) prohibit any hidden or private conferences, message data bases, or file areas unless they are used exclusively for confidential personnel or student privacy matters;

(2) require that any Montana resident be granted access privileges upon request, as well as read-only access to all file areas and message data bases, except as provided in subsection (1). These access privileges do not prohibit denying write-access to any area of the bulletin boards.

(3) prohibit the use of the systems for political or lobbying purposes. These prohibitions do not apply to internet conferences that may be carried on the BBS network. Violation of this provision is to result in a denial of all access privileges for a period of at least 1 year.

Included in state special revenue appropriations in item 1 is $990,000 in fiscal year 1996 from revenue generated under the provisions of 20-16-202, which requires each county in which a college of technology is located to levy an annual tax of 1.5 mills on all taxable property within the county. Revenue received by the university system under the provisions of 20-16-202 that exceeds $990,000 in fiscal year 1996 is appropriated to the board of regents and requires a reversion of a like amount to the general fund. If revenue received under the provisions of 20-16-202 is less than $990,000 in fiscal year 1996, the commissioner of higher education may request a supplemental appropriation under the procedures contained in 17-7-301 for distribution to the university system. The supplemental request for the biennium may total no more than the difference between actual revenue and the appropriation.

Included in state special revenue appropriations in item 1 is $14,089,000 in fiscal year 1996 and $13,840,000 in fiscal year 1997 from revenue generated under the provisions of 20-25-423. Revenue received hy the university system under the provisions of 20-25-423 that exceeds $14,089,000 in fiscal year 1996 and $13,840,000 in fiscal year 1997 is appropriated to the board of regents and requires a reversion of a like amount to the general fund. $13,840,000 in fiscal year 1997, the commissioner of higher education may request a supplemental appropriation under the procedures contsined in 17-7-301 for distribution to the university system. The supplemental request for the biennium may total no more than the difference between actual revenue and the appropriation.

Item 1 includes $114,000 in each year of the hiennium that must be transferred to the energy conservation program account and used to retire the general obligation bonds sold to fund energy improvement through the state building energy conservation program. The costs of this transfer in each year of the biennium are: university of Montana-Missoula, $73,500; Montana state university-northern, $36,900; and Montana state university-Billings, $3,600.

Total audit costs are estimated to be $733,121 for the university system for the biennium. Each unit shall pay a percentage of these costs from funds other than those appropriated in item 1.

If Senate Bill No. 412 is not passed and approved, in item 1 general fund money is increased by $592,000 and state special revenue is decreased by a like amount in fiscal year 1996.

It is the intent of the legislature that the Montana university system student FTE at the six units and colleges of technology be comprised of at least 78% qualified resident students. Not more than 22% of student FTE may be qualified nonresident students.

The Montana university system is urged to make every possible effort to review all graduate level programs in the Montana university system and to eliminate unnecessary duplication in those programs, when possible, by September 1, 1996. The board of regents shall report to the 1997 legislature on the accomplishment of this request.

Any indirect cost reimbursements received by the office of the commissioner of higher education in excess of $22,204 in each year of the biennium as a result of an increase in the federal talent search grant requires a reversion of a like amount to the general fund.

University system units are defined in 17-7-102(16). For all university system units, except the office of the commissioner of higher education, all funds (other than plant funds appropriated in [long-range planning bill] relating to long-range building, and current unrestricted operating funds) are appropriated contingent on approval of the comprehensive program budget by the board of regents by October 1 of each year. For all university system units except the community colleges, the agricultural experiment station, the forest and conservation experiment station, the cooperative extension service, the bureau of mines and geology, and the fire services training school, all funds, other than funds appropriated in House Bill No. 5 for long-range building programs, are appropriated as a lump sum for the biennium, contingent upon approval of the comprehensive program budget by the board of regents by October 1 of each year. The board of regents shall allocate the appropriations to the individual units according to board policy. The budget must contain detsiled revenue and expenditures and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Requests for transfer and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst prior to approval hy the board of regents. All movement of funds between the current unrestricted subfund and the designated subfund accounts must be clearly identified in the state budgeting and accounting system.

All university system units, except the office of the commissioner of higher education, shall account for expenditures consistently within programs and funds across all units and shall use the national center for higher education management systems program classifications structure, along with the college and university business administration (CUBA) system, as a minimum standard for achieving consistency.

The Montana university system, except the office of the commissioner of higher education and the community colleges, shall provide electronically to the office of budget and program planning and to the legislative fiscal analyst: (1) on January 1 and at fiscal yearend, the actual personal services data, which must tie to the actual expenditures as recorded on SBAS; and (2) by November 1 and at fiscal yearend, the budgeted personal services data, which must tie to the operating plan for expenditure of funds appropriated in [this act] and in the pay plan as approved by the regents. The personal services data described in subsections (1) and (2) must include but is not limited to the following for each position number: program number, responsibility center, budgeted and actual salary and benefits, fund type, and FTE position title and position type.

The general fund appropriation for the community colleges is the state share of the total unrestricted budgets for the community colleges in fiscal year 1996 and fiscal year 1997. The total unrestricted budgets for the community colleges must be approved by the board of regents.

Total audit costs are estimated to be $64,000 for the community colleges for the biennium. The general fund appropriation for each community college provided 49% of the total audit cost. The remaining 51% of these costs must be paid from funds other than those appropriated in item 2. Audit costs for the biennium may not exceed $20,000 each for Dawson and Miles community colleges and $24,000 for Flathead Valley community college.

Item 3 is contingent on the failure of Senate Bill No. 396 to be passed and approved.

The legislature intends that expenditures for all provider rate increases approved by the legislature be limited to the dollar amounts appropriated rather than the percentage increase on which the original estimates may have been based. The department will be in compliance with this provision if:

(1) it estimates total cost for each medicaid service category in June prior to the beginning of each fiscal year of the 1997 biennium; and

(2) the percentage increase or base adjustments approved by the department are limited to the dollar amount appropriated for each provider rate increase.

The AFDC payment level for the 1997 biennium must be established at no less than 40.5% of the federal poverty index.

The department shall require that JOBS participants who leave the program because of employment be tracked up to 1 year after their termination with the JOBS program as a condition of letting JOBS contracts. Exemptions from this requirement include JOBS participants who are no longer Montana residents or JOBS participants who cannot be reached despite good faith efforts. The department shall report to the 55th legislature regarding the employment and earning status of former JOBS participants served during the 1997 biennium.

Contingent on passage and approval of Senate Bill No. 209, the family assistance program shall notify the regional administration that children in a household are at risk when that household receives a sanction that includes reduction of the adult portion of the AFDC grant.

Funds in item 1a must be used for a teen parent program. The department may use general fund money in item 1a for a teen parent program for teen parents who are not AFDC eligible and for teen parents who are AFDC eligible but younger than 15 years of age.

The department is authorized to retain 7.5% of the federal community services block grant and pass through the remaining 92.5% to the human resource development councils (HRDCs). If during fiscal year 1996 or fiscal year 1997 the block grant falls below the federal fiscal year 1990 grant level, the department shall retain only 5% of the grant amount and pass through the remaining 95% to the HRDCs.

The state share of AFDC-related support collections and all AFDC and non-AFDC federal incentive payments and program-collected fees must be deposited in the state special revenue account from which the state share of the administrative and operational costs of the child support enforcement program must be paid. The department shall transfer to the general fund from the child support enforcement account any cash balance in excess of $350,000.

The department is appropriated funds for a pilot project in Deer Lodge County. The pilot project may include work, job training, subsistence payments, and preventive health programs for low-income people. The use of appropriated funds in item 5a is contingent on Deer Lodge County levying 12 mills for its poor fund for public assistance, protective services, and other benefits for low-income people.

The department shall implement 53-6-101(10) if medicaid expenditures exceed appropriations in [this act] in either year of the biennium.

The department shall perform a statistically valid survey of dentists to determine usual and customary charges for children's dental services during fiscal year 1996. The department shall compute the 1999 biennium cost of establishing medicaid reimbursement for children's dental services at 80% of usual and customary charges based on the survey results. The executive budget must publish by fiscal year the 1999 biennium cost to fund medicaid reimbursement for children's dental services at 80% of survey rates.

The legislature intends that $70,653,143 of the amount in fiscal year 1996 and $77,127,105 of the amount in fiscal year 1997 in item 6 are appropriated for hospital medicaid benefits.

Because of de-earmarking by Senate Bill No. 83, item 6 has been reduced by $6,611,179 in state special revenue in fiscal year 1996 and by $6,665,040 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 6 are reduced by $6,611,179 in fiscal year 1996 and by $6,665,040 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Funds in item 6b must be used to contract for orthodontia consultation and pediatric dental consultation for medicaid dental claims, medicaid policy development, and representation of the department in fair hearings.

The department may use funds in items 6d and 6e to increase rates paid for medicaid services purchased from hospitals and nursing homes. If hospital or medicaid providers sue the department to obtain additional increases in medicaid rates, the department may use the funds to defend the state against the lawsuit. In the event the defense is unsuccessful, the department may reallocate funds from other appropriations to fund nursing home and hospital rate increases.

Funds in item 6f may be used only for rate increases for children's dental services. Funds in item 6f may not be transferred to other uses in the department or to another department.

If Senate Bill No. 236 is passed and approved and if the department collects estate recoveries and other savings because of Senate Bill No. 236 in excess of $600,000 in fiscal year 1996 or $600,000 in fiscal year 1997, up to $1 million of general fund money and matching federal funds of those excess savings are appropriated each year for independent living and community-based medicaid services.

Item 8 includes efficiencies and savings of 25 FTE, $412,500 in general fund money, and $412,500 in federal special revenue in fiscal year 1997 based on passage and approval of Senate Bill No. 345, which reorganizes human services and public health agencies. The executive branch can allocate these reductions among programs in the department of public health and human services. If Senate Bill No. 345 is not passed and appreved, the appropriation in item 8 is increased by 25 FTE, $412,500 in general fund money, and $412,500 in federal special revenue in fiscal year 1997.

If Senate Bill No. 345 is passed and approved, the department shall solicit proposals to establish a local structure to administer and coordinate human services programs. To the extent feasible and permitted by federal law, the proposal must include administration of all of the programs transferred to the department of public health and human services. The department

shall accept one or more proposals as a demonstration project, with an anticipated beginning date of July 1, 1996. Funding for the demonstration project must be taken from appropriations authorized in [this act]. If Senate Bill No. 345 is passed and approved, the department shall create an advisory committee to assist in the preparation of a report to the 55th legislature on the feasibility of expanding the demonstration proposal to establish local administration and coordination of human services programs. The report must contain a preliminary evaluation of the demonstration project described above.

Funds for item 8b are to fund welfare fraud investigation. The department of justice may hire FTE rather than contract for services if the department certifies to the office of budget and program planning that FTE are more cost-effective than contracted services.

The funds for item 8c are contingent on the passage and approval of House Bill No. 511.

If the department considers contracting for operation of the TEAMS or SEARCHS computer applications on a privately owned and operated mainframe or midrange computer or if the department plans to purchase a midrange computer for the operation of these systems, the department shall submit to the office of budget and program planning and to the legislative finance committee a comparison of the cost of operating the system on the state mainframe computer managed by the department of administration or on a midrange computer owned by the department. The department of administration shall estimate rate changes that would occur because of removal of TEAMS or SEARCHS from the state mainframe. If the office of budget and program planning determines that statewide cost savings are greater than the private contract cost savings or savings because of the purchase of a departmental midrange computer, the department shall operate TEAMS or SEARCHS on the state mainframe computer if continued operation of TEAMS or SEARCHS on the state mainframe does not conflict with federal regulations.

Provider rate increases funded in item 12c must be allocated between general operating inflationary increases and wage increases for the lowest wage, direct-care line workers of developmental disabilities providers. No less than $375,429 of general fund money and $215,954 of federal special revenue in fiscal year 1996 and $758,100 of general fund money and $433,751 of federal special revenue in fiscal year 1997 must be granted with no specific expense allocation, and the remainder of the rate increase must be allocated to salaries for the lowest-wage, direct-care line workers.

The department may pursue funding of any existing eligible state general-funded services under the federal ICF/MR program if the federal government fails to approve adequate medicaid waiver funding under the home- and community-based waiver program.

It is the intent of the legislature that in fiscal year 1996 and fiscal year 1997, any unexpended portion of the department's general fund appropriation, up to $500,000 for the biennium, may be awarded by the department for the purposes of providing primary and preventive health care benefits to children who are uninsured and not eligible for medicaid benefits. To qualify, the family income may be no greater than 185% of the federal poverty level. The department may contract with public or private entities for the administration and provision of these services. These funds may be allocated only to those programs that have established a statewide network of medical providers who have agreed to accept reimbursement at a lower rate than would normally be charged for their services.

The department shall prepare a unified budget for the interagency coordinating council on prevention of child abuse and neglect. The unified budget must identify services funded, expenditures by service in fiscal year 1996, and preliminary amounts budgeted for the 1999 biennium by service and fund type from the department, office of public instruction, board of crime control, and department of laber and industry. A preliminary budget must be presented to the joint oversight committee on children and families, the legislative finance committee, and the office of budget and program planning by September 1, 1996. The unified budget must be published in the governor's budget request to the 55th legislature.

The department may add FTE instead of contracting for services if it certifies to the office of budget and program planning that FTE are more cost-effective than contracting. FTE added through this language may not be included in the 1999 biennium base budget.

The department shall notify the parents, legal guardians, or caretakers of the children of male and female prisoners in the state of Montana of the state services available to children and families. Services provided by the department and department of corrections and human services must be listed and explained. Notification may be waived if the children of prisoners do not reside in Montana.

Funds in item 14b may not be included in the fiscal year 1996 base budget.

Funds in item 15a may be used only for new social worker positions with duties related to child or elder abuse and neglect. The department shall establish an accounting center and a budget center to track expenditures for and the number of abuse and neglect workers separate from other department FTE. The department shall report abuse and neglect FTE and related expenditures separate from other budget functions in its budget request to the 55th legislature.

Funds in item 15b are contingent on passage and approval of Senate Bill No. 55.

The department shall present a report to the 55th legislature confirming the outcome of the partnership project. The report must include the number of families and children served and the types of services funded and must verify the impact on the growth in the foster care caseload, if any. The report must explicitly identify fiscal year 1996 expenditures by fund type, service, and county location, compared to the estimated expenditures by fund type and service for the 1999 biennium.

Because of de-earmarking by Senate Bill No. 83, item 16 has been reduced by $35,406 in state special revenue in fiscal year 1996 and by $34,409 in state special revenue in fiscal year 1997 and general fund amounts have been increased by the same amounts. If Senate Bill No. 83 is not passed and approved in a form that de-earmarks the state special revenue, then the general fund amounts in item 16 are reduced by $35,406 in fiscal year 1996 and by $34,409 in fiscal year 1997 and the state special revenue amounts are increased by the same amounts.

Funds in item 16a may not be included in the base budget for the 1999 biennium.

Item 16c is to develop family support services for children at risk of abuse or neglect and for children who have been referred for abuse or neglect and to develop community-based services for children placed in or who are at risk of being placed in juvenile corrections facilities. The development of additional services is contingent on recovery of federal funds through department refinancing initiatives and the collection of contributions from parents of children. Services must be developed within appropriation limitations in [this act], and the department may not expand partnership services so that foster care general fund requirementa are greater than appropriations in [this act].

Funds in item 16e may be used only to fund child care benefit costs for families who are at risk of becoming eligible for AFDC. Funds in item 16e may not be used for any other purpose, transferred to any other use in the department, or transferred to another department.

Funds in item 18a are contingent on passage and approval of Senate Bill No. 223.

If the Eastmont human services center does not remain in operation at current capacity, item 20 is decreased by $22,865 in general fund money in fiscal year 1996 and $22,944 in general fund money in fiscal year 1997 to fund 1.0 FTE in the Eastmont vocational program.

The department is directed to develop and purchase mental health services for children and adolescents that minimize the necessity of residential placements and that control the expenditures for residential care.

All services under the managing resources Montana (MRM) program must be purchased based on an RFP process that provides for effective services at the lowest possible cost. The department shall develop measures of program effectiveness and require contractors selected under the RFP process to provide the information necessary to determine the effectiveness of services. The department may not contract with any service provider that has been found, through a court of law, to have, through fraud or falsification of documents, attempted to receive public funds to which the provider was not entitled.

Funds in item 23a are contingent on passage and approval of Senate Bill No. 416.

General fund money in item 23b may be used only te contract for assistance to local health care providers in obtaining medicaid reimbursement and to assist communities in implementing local health care services.

Funds in item 23c are appropriated with the requirement that the development and operation of the tumor registry must be coordinated with all other medical data bases operated by the state so that the sharing of information is facilitated and the duplication of effort is reduced.

Item 24b is contingent on passage and approval of Senate Bill No. 292.

During the 1997 biennium, the department shall:

(1) by July 1, 1996, develop and implement a consolidated contract for all health care grants;

(2) by October 1, 1995, revise and update the maternal and child health (MCH) rules to reflect the current block grant legislation with the amendments to the Federal Omnibus Budget Reconciliation Act of 1989. The rules must address the local match requirement. The department shall also establish a core set of MCH services. The department shall ensure that MCH block grant funds are not used for noncore services unless each core service is ensured or unless the entity receiving the grant has demonstrated through a formal needs assessment process that the core service not being provided is not needed. The rules must address medicaid billing and reimbursement and must contain a provision that all MCH block grant money be spent on MCH services and that it not be used to supplant local funds.

(3) explore all opportunities for maximizing medicaid revenue, including requiring local health units to bill medicaid for reimbursable services and using available general fund and state special revenue appropriations to match medicaid funds for state-level activities. If necessary, the department shall assist local health units in maximizing medicaid revenue. By October 1, 1995, department rules must require that MCH block grant funds be provided only if an effective methed of maximizing medicaid revenue has been established by the receiving entity; however, this requirement does not apply if an entity has determined and demonstrated that billing medicaid is not cost-effective.

(4) use priority setting in the disbursement of MCH block grant funds. By October 1, 1995, rules and formulas for distribution of funds to local entities must be revised to give the opportunity to help those counties, regions, or communities with the least resources, largest proportions of underserved families, and most serious maternal and child health problems, as identified by objective health indicators and community needs assessments. The MIAMI project and other public health programs must be oporated in a similar manner.

(5) by October 1, 1995, require local health agencies to assume more responsibility for outreach and education for services to clients of such related state programs as passport; family support programs; and early periodic screening, diagnosis, and treatment (EPSDT);

(6) by October 1, 1995, ensure that the majority of local health care agencies bill medicaid for the provision of immunizations and well child visits/EPSDT; and

(7) on July 1, 1995, and every 6 months thereafter, file status reports with the members of the human services subcommittee on appropriations and with the legislative fiscal analyst regarding the six requirements provided above. At a minimum, the reports must address:

(a) progress in implementing these requirements;

(b) the amount of additional medicaid money the department has been able to access and an explanation of how and where that money is being used; and

(c) an explanation of the progress that the department expects to achieve during the next 6-month and 12-month periods.

Section 18. Appropriations related to miscellaneous reorganizations. Contingent on passage and approval of:

(1) Senate Bill No. 361, the following money is appropriated for the respective fiscal years:

10-40. Adjournment — recess — meeting place. A house may not, without the consent of the other, adjourn or recess for more than 3 days or to any place other than that in which the two houses are sitting (Montana Constitution, Art. V, Sec. 10(5)).

10-60. Conflict of interest. A member who has a personal or private interest in any measure or bill proposed or pending before the Legislature shall disclose the fact to the house to which the member helongs.

10-70. Telephone calls. (1) Long distance telephone calls made by a member while the Legislature is in session or the member is in travel status are considered official legislative business. These include, but are not limited to, calls made to constituencies, places of business, and family members.

(2) Session staff, including aides and interns, may use telephones for long distance calls only if specifically authorized to do so by their legislative sponsor or supervisor. Sponsoring members and supervisors are accountable for use of state telephones by their staff, including aides and interns, and may not authorize others to use state phones.

A violation of this policy must be reported to the party leader in the appropriate house if the offended party is a legislator or to the presiding officer if the offended party is the party leader. The presiding officer may refer the matter to the rules committee of the applicable house, and the offender is subject to discipline or censure, as appropriate. If the offended party is an employee, the violation must be reported to the employee's supervisor or, if the offender is the supervisor, the report should be made to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate. If the offended party is a supervisor, the violation must be reported to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate. (1) Every vote of each member on each substantive question in the Legislature, in any committee, or in Committee of the Whole must be recorded and made public. CHAPTER 30

Committees

30-10. Committee chair. Except as provided in Joint Rule 30-50, the chair of the Senate committee is the chair of all joint committees.

30-20. Voting in joint committees. (1) Except for Rules Committees and conference committees, a member of a joint committee votes individually and not by the house to which the committee member belongs.

(2) Because the Rules Committees and conference committees are joint meetings of separate committees, in those committees the committees from each house vote separately. A majority of each committee must agree before any action may be taken, unless otherwise specified hy individual house rules.

30-30. Conference committees. (1) If either house requests a conference and appoints a committee for the purpose of discussing an amendment on which the two houses cannot agree, the other house shall appoint a committee for the same purpose. The time and place of all conference committee meetings must be agreed upon by their chairs and announced from the rostrum. This announcement is in order at any time. Failure to make this announcement does not affect the validity of the legislation being considered.

(2) A conference committee, having conferred, shall report to the respective houses the result of its conference. A conference committee shall confine itself to consideration of the disputed amendment. The committee may recommend:

(a) acceptance or rejection of each disputed amendment in its entirety; or

(b) further amendment of the disputed amendment.

(3) If either house requests a free conference committee and the other house concurs, appointments must be made in the same manner as above. A free conference committee may discuss a bill in its entirety and is not confined to a particular amendment.

30-40. Conference committee — enrolling. A conference committee report shall give clerical instructions for a corrected reference bill and for enrolling by referring to the reference bill version.

30-50. Committee consideration of appropriation bills. (1) All bills providing for an appropriation of puhlic money may first be considered by a joint committee composed of the members of the Senate Committee on Finance and Claims and the House Committee on Appropriations, and then by each separately.

HeinOnline -- 1995 vol. IV 3593 1995

(3) The committee chair of the Senate Committee on Finance and Claims or of the House Committee on Appropriations may be a voting member in the joint subcommittees if:

(b) the chair represents the house with fewer members on the subcommittees; and

(c) the chair is present for the vote.

30-60. Estimation of revenue. ~~(1)~~ The Revenue Oversight Committee shall introduce a House joint resolution for the purpose of estimating revenue that may be available for appropriation by the Legislature.

~~(2) Meetings of the Revenue Oversight Committee for purposes of estimating revenue must be held upon the call of the chair. The Revenue Oversight Committee shall issue periodic reports to each of the houses, indicating the committee's current revenue projections.~~

30-70. Oversight of joint legislative agencies and committees. The President of the Senate, the Speaker of the House, and the minority leaders of the Senate and the House comprise a legislative management committee which shall meet from time to time at the request of one of its members to review and oversee the activities of joint agencies and committees of the legislative branch established by law or resolution. The committee may consider, without limitation, matters concerning jurisdictional disputes between joint agencies and committees, agency salary schedules and employment policies, and any other matter bearing upon the efficient operation of the legislative branch. The committee may make such recommendations as it chooses to the appropriate authority or the Legislature.

CHAPTER 40

Legislation

40-10. Amendment to state constitution. A bill must be used to propose an amendment to The Constitution of the State of Montana. The bill is not subject to the veto of the Governor (Montana Constitution, Art. VI, Sec. 10(1)).

40-20. Appropriation bills. (1) All appropriation bills must originate in the House of Representatives.

(2) Appropriation bills for the operation of the Legislature must be introduced by the chair of the House Committee on Appropriations.

HeinOnline -- 1995 vol. IV 3594 1995

(3) A statute providing for the taxation or imposition of a fee on motor vehicles takes effect on the first day of January following its passage and approval, unless a different time is prescribed therein.

~~(3)~~*(4)* A joint resolution takes effect on its passage, unless a different time is prescribed therein (sections 1-2-201 and 1-2-202, MCA).

40-40. Bill requests and introduction — limits and procedures. (1) Prior to a regular session, a person entitled to serve in that session, hereafter referred to as a "member", is entitled to request bill drafting services from the Legislative Council, subject to the following limits:

(a) Prior to 5 p.m. on December 5 preceding a regular session of the Legislature, a member may request an unlimited number of bills and resolutions to be prepared by the Legislative Council for introduction in the regular session.

(b) After 5 p.m. on December 5, a member may request no more than seven bills or resolutions to be prepared by the Legislative Council. At least ~~two~~ *five* of the seven bills or resolutions must be requested before the regular session convenes.

(c) After December 5, a member, in the member's discretion, may grant to any other member any of the remaining bill or resolution requests the granting member has not used.

(d) These limitations on bill and resolution requests do not apply to:

(i) Code Commissioner bills;

(ii) a bill or resolution requested by a standing committee; and

(iii) a bill or resolution requested by a member at the request of a newly elected state official if so designated.

(2) The staff of the Legislative Council shall work on bill draft requests in the order received. After a member has requested the drafting of five bills, the sixth bill request and all subsequent bill requests of that member must receive a lower drafting priority than all other bills of members not in excess of five per member. A bill requested pursuant to subsection (5) must receive a lower drafting priority than all bills requested by members, unless the requesting member assigns that request to the member's five-request priority. The staff of the Legislative Council shall assign a higher priority to any bill draft request when jointly directed by:

(a) the President of the Senate, the minority leader of the Senate, the Speaker of the House, and the minority leader of the House; or

(b) the House and the Senate.

~~(2)~~*(3)* Bills and resolutions must be reviewed by the staff of the Legislative Council prior to introduction for proper format, style, and legal form. The staff of the Legislative Council shall store bills on the automated bill drafting equipment and shall print and deliver them in duplicate to the requesting members. The original bill cover must be signed to indicate review by the Legislative Council. A bill may not be introduced unless it is so signed.

HeinOnline -- 1995 vol. IV 3595 1995

~~(3)~~*(4)* During a session, a bill may be introduced by endorsing it with the name of a member and presenting it in duplicate to the Chief Clerk of the House of Representatives or the Secretary of the Senate. Bills or joint resolutions may be sponsored jointly by Senate and House members. A jointly sponsored bill must be introduced in the house in which the member whose name appears first on the bill is a member. The chief joint sponsor's name must appear immediately to the right of the first sponsor's name. In each session of the Legislature, bills, joint resolutions, and simple resolutions must be numbered consecutively in separate series in the order of their receipt.

~~(4)~~*(5)* Any bill proposed by a legislative committee or introduced by request of an administrative or executive agency or department must be so indicated by placing after the names of the sponsors the phrase "By Request of the..... After December 23, an agency or committee bill must be requested by an individual member.*

~~(5)~~*(6)* Bills may he preintroduced, numbered, and reproduced prior to a legislative session by the staff of the Legislative Council. Actual signatures of persons entitled to serve as members in the ensuing session may appear on the face of the preintroduced bill, or signatures may be obtained on a consent form from the Legislative Council and the sponsor's name printed on the bill. Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on the hill. These names will be forwarded to the Legislative Council to be included on the face of the bill following standing committee approval.

~~(6)~~*(7)* All preintroduced bills must be made available to the public.

40-50. Schedules for drafting requests and bill introduction. The following schedules must be followed for submission of drafting requests and introduction of bills and resolutions.

HeinOnline -- 1995 vol. IV 3597 1995

40-65. Appropriation required for bills requesting interim studies. *A bill including a request for an interim study may not be transmitted to the Governor unless the bill contains an appropriation sufficient to conduct the study. A fiscal note may be requested for a bill requesting an interim study if the appropriation does not appear to be sufficient.*

40-70. Bills with same purpose — vetoes. (1) A bill may not be introduced or received in a house after that house, during that session, has finally rejected a bill designed to accomplish the same purpose, except with the approval of the Rules Committee of the house in which the bill is offered for introduction or reception.

(2) Failure to override a veto does not constitute final rejection.

40-80. Reproduction of full statute required. A statute may not be amended or its provisions extended by reference to its title only, but the statute section that is amended or extended must be reproduced or published at length.

40-90. Bills — original purpose. A law may not be passed except by bill. A bill may not be so altered or amended on its passage through either house as to change its original purpose (Montana Constitution, Art. V, Sec. 11(1)).

40-100. Fiscal notes. (1) As provided in Title 5, chapter 4, part 2, MCA, all bills reported out of a committee of the Legislature having an effect on the revenues, expenditures, or fiscal liability of the state, except appropriation measures carrying specific dollar amounts, must include a fiscal note incorporating an estimate of the fiscal effect. The Legislative Council staff shall indicate at the top of each bill prepared for introduction that a fiscal note may be necessary under this rule. Fiscal notes must be requested by the presiding officer of either house, who, at the time of introduction, shall determine the need for the note, based on the Legislative Council staff recommendation.

(2) Unless the requesting member directs otherwise, the Legislative Council shall deliver three copies of any bill for which it has been determined a fiscal note may be necessary to the state Budget Director immediately after the bill has been prepared for introduction and delivered to the requesting member. The Budget Director may proceed with the preparation of a fiscal note in anticipation of a subsequent formal request.

(3) The Budget Director, in cooperation with the agency or agencies affected by the bill, is responsible for the preparation of the fiscal note. The Budget Director shall return the fiscal note within 6 days unless further time is granted by the presiding officer or committee making the request, based upon a written statement from the Budget Director that additional time is necessary to properly prepare the note.

(4) A completed fiscal note must be submitted by the Budget Director to the presiding officer who requested it. The presiding officer shall refer it to the committee considering the bill. All fiscal notes must be reproduced and placed on the members' desks.

(5) A fiscal note must, if possible, show in dollar amounts:

(a) the estimated increase or decrease in revenues or expenditures;

HeinOnline -- 1995 vol. IV 3598 1995

(b) costs that may be absorbed without additional funds; and

(c) long-range financial implications.

(6) The fiscal note may not include any comment or opinion relative to merits of the bill. However, technical or mechanical defects in the bill may be noted.

(7) A fiscal note also may be requested on a bill and on an amendment by:

(a) a committee considering the bill;

(b) a majority of the members of the house in which the bill is to be considered, at the time of second reading; or

(c) the chief sponsor, through the presiding officer.

(8) The Budget Director shall make available on request to any member of the Legislature all background information used in developing a fiscal note.

40-110. Sponsor's fiscal note. (1) If a sponsor elects to request the preparation of a sponsor's fiscal note pursuant to section 5-4-204, MCA, the sponsor shall make the election as provided and return the completed sponsor's fiscal note to the presiding officer within 4 days of the election.

(2) The presiding officer may grant additional time to the sponsor for preparation of the sponsor's fiscal note.

(3) Upon receipt of the completed sponsor's fiscal note, the presiding officer shall refer it to the committee hearing the bill. If the bill is printed, the note must be identified as a sponsor's fiscal note, reproduced, and placed on the members' desks.

(4) The Legislative Council shall provide forms for preparation of sponsors' fiscal notes and shall print the completed sponsors' fiscal notes on a different color paper than the fiscal notes prepared by the Budget Director.

40-120. Substitute bills. (1) A committee may recommend that every clause in a bill be changed and that entirely new material be substituted so long as the new material is relevant to the title and subject of the original bill. The substitute bill is considered an amendment and not a new bill.

(2) The proper form of reporting a substitute bill by a committee is to propose amendments to strike out all of the material following the enacting clause, to substitute the new material, and to recommend any necessary changes in the title of the bill.

(3) If a committee report is adopted that recommends a substitute for a bill originating in the other house, the substitute bill must be printed and reproduced.

40-130. Reading of bills. Prior to passage a bill must be read three times in the house in which it is under consideration. It may he read either by title or by summary of title.

40-140. Second reading — bill reproduction. (1) If the majority of a house adopts a recommendation for the passage of a bill originating in that house after the bill has been returned from a committee with amendments, the

HeinOnline -- 1995 vol. IV 3599 1995

bill must be reproduced on yellow paper with all amendments incorporated into the copies.

(2) If a bill has been returned from a committee without amendments, only the first sheet must be reproduced on yellow paper, and the remainder of the text may be incorporated by reference to the preceding version of the entire bill.

40-150. Engrossing. (1) When a bill has been reported favorably by Committee of the Whole of the house in which it originated and the report has been adopted, the bill must be engrossed. Committee of the Whole amendments must be included in the engrossed bill. The bill must be placed on the calendar for third reading on the succeeding legislative day.

(2) Copies of the engrossed bill to be distributed to members are reproduced on blue paper. If a bill is unamended by the Committee of the Whole and contains no clerical errors, it may be engrossed without reprinting. Only the first sheet must be reproduced on blue paper, with the remainder of the text incorporated by reference to the preceding version of the entire bill.

(3) If a bill is amended by a standing committee or Committee of the Whole in the second house, the amendments must be included in a salmon-colored reference bill and distributed in the second house for third reading consideration. The amendments also must be reproduced and attached to the reference bill. If the bill passes on third reading, copies of the reference bill and second house amendments must be distributed in the original house.

40-160. Enrolling. (1) When a bill has passed both houses, it must be enrolled. An original and two duplicate printed copies of the bill must be enrolled, free from all errors, with a margin of two inches at the top and one inch on each side. In sections amending existing statutes, new matter must be underlined and deleted matter must be shown as stricken. ~~The history of the bill also must be enrolled and placed with the bill in a white manuscript cover, upon which is written the number of the bill and the title. The Legislative Council staff shall file a copy of the history with the law library.~~

(2) When the enrolling is completed, the bill must be examined by the sponsor.

(3) The correctly enrolled bill must be delivered to the presiding officer of the house in which the bill originated. The presiding officer shall sign the original and two copies of each bill not later than the next legislative day after it has been reported correctly enrolled, unless the bill is delivered on the last legislative day, in which case the presiding officer shall sign it that day. The fact of signing must be announced by the presiding officer and entered upon the journal no later than the next legislative day. At any time after the report of a bill correctly enrolled and before the signing, if a member signifies a desire to examine the bill, the member must be permitted to do so. The bill then must be transmitted to the other house where the same procedure must be followed.

(4) A bill that has passed both houses of the Legislature by the 90th day may be:

(a) enrolled;

(b) clerically corrected by the presiding officers, if necessary;

HeinOnline -- 1995 vol. IV 3600 1995

(c) signed by the presiding officers; and

(d) delivered to the Governor or, in the case of a bill proposing a referendum, to the Secretary of State, not later than 5 working days after the 90th legislative day.

(5) All journal entries authorized under this rule must be entered on the journal for the 90th day.

(6) The original and two copies signed by the presiding officer of each house must be presented to the Governor or the Secretary of State, as applicable, in return for a receipt. A report then must be made to the house of the day of the presentation, which must be entered on the journal.

(7) The original must be filed with the Secretary of State. Signed copies witb chapter numbers assigned pursuant to section 5-11-204, MCA, must be filed with the Clerk of the Supreme Court and the Legislative Council.

40-170. Amendment by second house. (1) Amendments to a bill by the second house may not be further amended by the house in which the bill originated, but must be either accepted or rejected. If the amendments are rejected, a conference committee may be requested by the house in which the bill originated. If the amendments are accepted and the bill is of a type requiring more than a majority vote for passage, the bill again must be placed on third reading in the house of origin.

(2) The vote on third reading after concurrence in amendments is the vote of the house of origin that must be used to determine if the required number of votes has been cast.

40-180. Final action on a bill. *(1)* When a bill being heard by the second house has received its third reading or has been rejected, the second house must transmit it as soon as possible to the original house with notice of the second house's action.

(2) A bill that reduces revenue and that contains a contingent voidness provision may not be transmitted to the Governor unless there is an identified corresponding reduction in an appropriation contained in the general appropriations act.

40-190. Transmittal of bills between houses. (1) Each house shall transmit to the other with any bill all relevant papers.

(2) When a House bill is transmitted to the Senate, the Secretary of the Senate shall give a dated receipt for the bill to the Chief Clerk of the House. When a Senate bill is transmitted to the House of Representatives, tbe Chief Clerk of the House shall give a dated receipt to the Secretary of the Senate.

40-200. Transmittal deadlines. (1) (a) A bill or amendment transmitted after the deadline established in this subsection (1) may be considered by the receiving house only upon approval of two-thirds of its members present and voting. If the receiving house does not so vote, the bill or amendment must be held pending in the bouse to which it was transmitted.

HeinOnline -- 1995 vol. IV 3601 1995

CHAPTER 70

Statement of Legislative Intent

70-10. Definition. (1) For the purpose of compliance with the Legislative History Act (Title 5, chapter 4, part 4, MCA), a statement of legislative intent regarding a bill must express the common understanding of those components of the Legislature voting on the bill.

(2) This statement differs from a purpose clause, which is used in general to describe the broad overall objectives of a bill. A statement of intent is used to guide the details of interpretation by those charged with implementation of the bill and is phrased in terms of contingencies, examples, or other matter inappropriate for expression as statutory language.

70-20. Limitation. A statement of intent may not accompany any bill that does not statutorily require one unless a committee (standing committee, Committee of the Whole or conference committee) agrees by a two-thirds vote to attach the statement.

70-30. Statement of intent to accompany bill — when — how. A statement of intent must accompany a bill as follows:

(1) A statement of intent is required for a bill delegating new rulemaking or licensing authority.

(2) A statement of intent must be included with the introduced bill for a bill requiring one. If a bill is found to require a statement of intent at any time in the legislative process, a statement of intent may be added under the procedure for amending a bill.

(3) A statement of intent must be included as a part of the bill between the title and the enacting clause under the heading "Statement of Intent".

70-40. Modification. Any committee considering a bill may recommend amendment of a previous statement of intent or recommend inclusion of a statement of intent. The statement of intent must be reflected in the history of the bill.

70-50. Conference committee on statement of intent only. (1) If the second house concurs in a bill without amendments but amends or supersedes a previous statement of intent, the bill may not be enrolled until both houses have agreed on a statement of intent. If the statement of intent is attached to a bill that does not statutorily require one, the conference committee can delete the statement in its entirety.

(2) A new statement of intent written by the second house must be processed in the same manner as a second house amendment.

(3) A regular conference committee may be appointed solely to resolve differences of intent if the second house's statement of intent is not so accepted.

SENATE JOINT RESOLUTION NO. 2

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA SUPPORTING THE ESTABLISHMENT AND OPERATION OF A NATIONAL FOREST SERVICE MUSEUM TO BE LOCATED AT MISSOULA, MONTANA.

WHEREAS, the vital role of our nation's forests was officially recognized in 1891 when the first federal forest reserves were set aside by Congress and the forerunner of the national forest system was established; and

WHEREAS, the people of Montana have long enjoyed both tangible and intangible benefits from the presence and management activities of the USDA Forest Service, which is distinct from most federal and other governmental agencies in the strength and diversity of its history and traditions; and

WHEREAS, as we celebrate nearly a century of USDA Forest Service operations, it is proposed that a National Forest Service Museum be established and operated in Missoula, Montana; and

WHEREAS, the primary purpose of this proposed national museum will be to present the work of the great pioneers of American forestry by collecting and exhibiting historical papers, photographs, artifacts, and other items that represent the entire rich national heritage of the USDA Forest Service in the context of a "living museum", with facilities for educational displays portraying the management and growth of forest resources across the United States; and

WHEREAS, it is anticipated that the museum will provide the national forum for exhibits and programs of many other forestry-related museums and Forest Service interpretive facilities throughout the United States; and

WHEREAS, the Forest Service Northern Region has designated the museum as an authorized federal repository for federal property, including archives, artifacts, and other historical items; and

WHEREAS, endorsement of and support for the museum, including providing information, architectural review, and comparable activities, have been pledged by the Chief of the Forest Service; and

WHEREAS, the museum will be established and operated by a private, nonprofit corporation that is already established under Montana law and governed by an independent board of directors and that will cooperate closely with the USDA Forest Service and other entities, such as the Smithsonian Institution, and provide a nonpolluting, substantial economic development opportunity within Montana; and

WHEREAS, Missoula is at the heart of the Forest Service Northern Region encompassing 15 national forests, 4 national grasslands, and 28 million acres of forest, including 5 million acres of classified wilderness, has been the center for forest industry for over a century, and is the site of the University of Montana School of Forestry and the center of forestry activities of the Montana Department of State Lands; and

WHEREAS, the Forest Service Northern Region hosts 13 million visitor days annually, including more than 1.6 million people who annually pass through

HeinOnline -- 1995 vol. IV 3606 1995

Missoula en route between Glacier and Yellowstone National Parks, providing a substantial base for visitation to a museum established in Missoula; and

WHEREAS, a 36-acre site located on federal land northwest of the Missoula International Airport has been obtained through a special use permit from the Forest Service; and

WHEREAS, the U.S. Internal Revenue Service has granted the museum tax-exempt status under 26 U.S.C. 501(c)(3) as a private, nonprofit corporation, and large-scale fundraising has begun, with contributions solicited from local, state, and federal governmental sources, from private and corporate foundations, and from individual citizens throughout the United States; and

WHEREAS, amid current but not unprecedented controversy surrounding the forest management activities of the USDA Forest Service, there is broad public recognition of the need for continuing dialogue among all segments of the public and public agencies, including the USDA Forest Service; and

WHEREAS, because of the proposed museum's independent, privately operated status and historical focus, it offers an appealing opportunity for continuing dialogue and collaboration among many diverse interests; and

WHEREAS, the Montana Congressional Delegation and three successive Montana Governors have supported the establishment and operation of the proposed museum.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Senate and House of Representatives of the State of Montana commend the concept of the establishment and operation of a private nonprofit National Forest Service Museum in Missoula, Montana.

BE IT FURTHER RESOLVED, that through this resolution, the Senate and House of Representatives of the State of Montana encourage strong and continuing cooperation between the proposed museum and existing Montana institutions, including the Montana Historical Society, the Museum of the Rockies, and any other state governmental agencies that could provide advice.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Montana Congressional Delegation, the Governor of the State of Montana, the Board of Directors of the private, nonprofit museum corporation, the Regional Forester of the Forest Service Northern Region, and the Directors of the Montana Historical Society and the Museum of the Rockies.

WHEREAS, many federal mandates are directly in violation of the 10th amendment; and

WHEREAS, the United States Supreme Court has ruled in New York v. United States, 112 S. Ct. 2408 (1992), that Congress may not simply commandeer the legislative and regulatory processes of the states; and

HeinOnline -- 1995 vol. IV 3611 1995

WHEREAS, Montana has many examples of American Indian women who, like Sacajawea, have demonstrated strength and courage, and have emerged as leaders in their culture, guardians of their heritage, and productive members of society; and

SENATE JOINT RESOLUTION NO. 10

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING CONGRESS TO DIVIDE THE NINTH JUDICIAL CIRCUIT OF THE UNITED STATES COURT OF APPEALS INTO TWO CIRCUITS; AND URGING THE PRESIDENT OF THE UNITED STATES TO PLACE A MONTANA JUDGE ON THE FEDERAL CIRCUIT COURT FOR MONTANA.

WHEREAS, under Article III, section 1, of the United States Constitution, the Congress of the United States has plenary power to ordain and establish the federal courts below the Supreme Court level; and

WHEREAS, in 1988, the 100th Congress created the Federal Courts Study Committee as an ad hoc committee within the Judicial Conference of the United States to examine the problems facing the federal courts and to develop a long-term plan for the Judiciary; and

WHEREAS, the Study Committee found that the federal appellate courts are faced with a crisis of volume that will continue into the future and that the structure of these courts will require some fundamental changes; and

WHEREAS, the Study Committee did not endorse any one solution but served only to draw attention to the serious problems of the courts of appeals; and

WHEREAS, the Study Committee recommended that fundamental structural alternatives deserve the careful attention of Congress and of the courts, bar associations, and scholars over the next 5 years; and

HeinOnline -- 1995 vol. IV 3612 1995

WHEREAS, the problems of the circuit court system and the alternatives for revising the system represent a policy choice that requires Congress to weigh costs and benefits and to seek the solution that best serves the judicial needs of the nation; and

WHEREAS, there are 13 judicial circuits of the United States courts of appeals; and

WHEREAS, Montana is in the Ninth Circuit, which consists of Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Washington, Guam, and the Northern Mariana Islands; and

WHEREAS, in 1990, it was estimated that the Ninth Circuit: covers nine states and two territories, totaling approximately 14 million square miles; serves a population of almost 44 million people, 15 million more than the next largest circuit court and about 20 million more than all other courts of appeals; has 28 judges, 12 more than the next largest circuit court and 16 more than the average circuit court; and has a caseload of more than 6,000 appeals, 2,000 larger than the next largest court of appeals and nearly one-sixth of the total appeals in all the 12 regional courts of appeals; and

WHEREAS, projections are that at the current rate of growth, the Ninth Circuit's 1980 docket of cases will double before the year 2000; and

WHEREAS, statistics reveal that, because of the number of judges in the Ninth Circuit, there are numerous opportunities for conflicting holdings—one legal scholar has estimated that on a 28-judge court there are over 3,000 combinations of panels that may decide an issue, without counting senior judges, district judges, and judges sitting by designation; and

WHEREAS, legal scholars have suggested that because the United States Supreme Court reviews less than 1% of appellate decisions, the concept of regional stare decisis, or adherence to decided cases, results, in effect, in each court of appeals becoming a junior supreme court with final decision power over all issues of federal law in each circuit (unless and until reviewed by the Supreme Court); and

WHEREAS, the Ninth Circuit has been described as an experiment in judicial administration and a laboratory in which to test whether the values of a large circuit can be preserved; and

WHEREAS, some legal scholars have opposed its division on the grounds that to divide the Ninth Circuit would be to lose the benefit of an experiment in judicial administration that has not yet run its course; and

WHEREAS, the problems of the Ninth Circuit are immediate and growing and maintaining the court in its present state is a disservice to the citizens of Montana and other Ninth Circuit states and territories; and

WHEREAS, it is generally understood that an essential element of a federal appellate system must include guaranteeing regionalized and decentralized review when regional concerns are strongest; and

WHEREAS, because of the problems of the Ninth Circuit related to its dimensions of geography, population, judgeships, docket, and costs, it is

HeinOnline -- 1995 vol. IV 3613 1995

desirable for the Northwest states to be placed in a separate circuit, consisting mainly of contiguous states with common interests; and

WHEREAS, the existing circuit boundary lines have been called arbitrary products of history; and

WHEREAS, Congress has at least twice divided circuits: in 1929, to separate the new Tenth Circuit from the Eighth Circuit, and in 1981, to separate the new Eleventh Circuit from the Fifth Circuit; and

WHEREAS, Congress, in 1989, considered and is expected, in 1995, to again consider a bill to divide the Ninth Judicial Circuit of the United States Court of Appeals into two circuits—a new Ninth Circuit, composed of Arizona, California, and Nevada, and a new Twelfth Circuit, composed of Alaska, Hawaii, Idaho, Montana, Oregon, Washington, Guam, and the Northern Mariana Islands; and

WHEREAS, it is the proper function of Congress to determine circuit boundaries and it is desirable that Montana be included in a regional circuit that will allow relief for its citizens from the problems occasioned by its inclusion in the present Ninth Circuit.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature of the State of Montana urge Congress to turn its thoughtful attention to the passage of legislation that will split the existing Ninth Judicial Circuit of the United States Court of Appeals into two circuits and that will include Montana in a circuit composed in large part of other Northwest states with similar regional interests.

BE IT FURTHER RESOLVED, that the President of the United States be urged to place a Montana judge on the federal circuit court for Montana.

BE IT FURTHER RESOLVED, that Congress grant this relief and pass this legislation immediately, regardless of considerations of long-term changes to the appellate system in general.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Secretary of the United States Senate, the Clerk of the United States House of Representatives, the President of the United States, and the members of Montana's Congressional Delegation.

WHEREAS, Article X, section 1, of the Montana Constitution guarantees equality of educational opportunity to each person in the state; and

WHEREAS, Article X, section 1, further recognizes the distinct and unique cultural heritage of American Indians and expresses the state's commitment to preserving that cultural integrity; and

WHEREAS, sections 20-4-211 through 20-4-214, MCA, encourage school districts to provide the means by which school personnel can gain an understanding of and appreciation for American Indians; and

WHEREAS, American Indian history, culture, and contemporary issues are not required topics of study in Montana's public schools; and

WHEREAS, there is a disproportionate number of American Indian high school students who drop out of school or who have insufficient credits to graduate within 4 years from Montana's public schools; and

WHEREAS, Montana has seven tribal colleges located on its seven Indian reservations with curricula that include tribal studies.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING CONGRESS TO SET REASONABLE TIME LIMITS ON AND LIMIT SUCCESSIVE PETITIONS FOR FEDERAL WRITS OF HABEAS CORPUS.

WHEREAS, the number of prisoners under sentence of death rose from 139 in 1977, following the United States Supreme Court's reinstitution of the death sentence, to 2,575 on January 1, 1993; and

WHEREAS, the average time elapsed from the time a death sentence is imposed until execution has risen from 51 months to 114 months during the same time period; and

WHEREAS, successive petitions for review and repeated applications for writs of habeas corpus in death penalty cases deny justice by delaying justice; and

WHEREAS, successive petitions for review and repeated applications for writs of habeas corpus in death penalty cases burden the judicial system and impose unnecessary costs on taxpayers; and

WHEREAS, reasonable restrictions on and time limits on petitions for review and on applications for writs of habeas corpus in death penalty cases would provide justice for the families of victims.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That Congress be urged to:

(1) set reasonable time limits on the filing of initial and successive petitions for writs of habeas corpus brought pursuant to 28 U.S.C. 2254; and

WHEREAS, Senate Bill No. 285 of the 53rd Legislature created the Montana Health Care Authority, required the Authority to submit a report containing recommendations for a single payor and a multiple payor universal health care access plan to the 1995 Legislature, and requires the 1995 Legislature to vote on both the single payor and multiple payor plans; and

WHEREAS, the Montana Health Care Authority has fulfilled its statutory duties by preparing a final report containing recommendations for single payor and multiple payor universal health care access plans, held public hearings on the plans and on the report, and transmitted the plans and report to the Governor and to the Legislature; and

WHEREAS, this resolution signifies that the Legislature has received the final report from the Montana Health Care Authority and does not reflect approval or disapproval of the contents of the report regarding the recommendations for a single payor and a multiple payor universal health care access plan; and

WHEREAS, the Employee Retirement Income Security Act of 1974 has not been amended to allow states to enact comprehensive health care reform laws covering public or private self-insured public health care plans; and

WHEREAS, the goal of affordable access to health care coverage and services to all Montanans is a laudable goal; and

WHEREAS, the Montana Health Care Authority has developed a list of alternatives to the single payor and multiple payor plans that provide several approaches to health care reform in Montana; and

WHEREAS, the members and staff of the Montana Health Care Authority have devoted significant time to studying the issue of health care, and the people of Montana appreciate their hard work and dedication.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the single payor and multiple payor health care access plans prepared by the Montana Health Care Authority pursuant to section 50-4-301,

(2) That the plans referenced in subsection (1), portions of those plans, or other features of health care reform prepared by the Montana Health Care Authority be considered in separate legislation to attain market-based sequential health care reform.

(3) That the Legislature reaffirm the goal of affordable access to health care coverage and services for all Montanans and that the State of Montana continue within the limits of legislative appropriations to work toward the achievement of this goal and toward achievement of the other health care reform goals expressed in Senate Bill No. 285, including increased access, cost containment, and health care infrastructure improvements.

BE IT FURTHER RESOLVED, that the Secretary of State deliver a copy of this resolution to the Executive Director and presiding officer of the Board of the Montana Health Care Authority.

SENATE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING FLEXIBILITY AND TIMELINESS BY THE U.S. ENVIRONMENTAL PROTECTION AGENCY, PARTICULARLY THE REGION 8 OFFICE, IN THE CONSIDERATION OF REGULATIONS AND PENDING OR FUTURE APPLICATIONS FOR PRIMACY FOR CERTAIN ENVIRONMENTAL PROGRAMS AFFECTING AIR QUALITY, UNDERGROUND STORAGE TANKS, WASTE OIL, AND THE MANAGEMENT OF HAZARDOUS AND OTHER WASTES PRODUCED IN MONTANA.

WHEREAS, it is the goal of this Legislature to promote improved working relationships between government and business interests with regard to environmental regulations; and

WHEREAS, there is a need to improve the performance of the state and federal governments in striking a more sensible balance in preserving Montana's environment, protecting public health and safety, and maintaining and serving local and state economies that must be capable of accommodating the needs of the citizens of this state; and

WHEREAS, the federal government has been adding new and common industrial wastes to the list of federally regulated wastes and has been tightening its regulations in dictating the ways in which regulated wastes must be treated and disposed; and

WHEREAS, because of increased regulation and economic growth the quantity of waste generated in Montana and regulated as hazardous under federal environmental law has increased at a substantial rate over the past several years; and

HeinOnline -- 1995 vol. IV 3618 1995

WHEREAS, local and state budgets now available and projected for future funding of enforcement of state environmental regulations could be adequate to protect public health and safety, particularly with regard to treatment and disposal of hazardous wastes or handling of toxic substances during the manufacturing process, in particular if tbe federal government were to allow fees paid by the regulated industries under Chapter 341, Laws of 1993, to be used as state matching funds for federal program grants; and

WHEREAS, Montana does not have within its borders a permitted facility for the commercial treatment or disposal of regulated hazardous wastes and this lack of a permitted in-state treatment and disposal facility or facilities has caused a steadily increasing percentage of Montana's regulated wastes to be shipped long distances to out-of-state facilities; and

WHEREAS, the costs of environmental regulation to businesses operating within Montana, particularly with regard to businesses required to comply with government regulations related to toxic and hazardous substances, are relatively higher than they are for businesses outside of Montana because of this lack of permitted in-state facilities to treat and dispose of hazardous substances in a cost-effective manner; and

WHEREAS, these relative cost increases are placing Montana's existing businesses at a competitive disadvantage to comparable businesses located outside Montana and these additional costs further serve as an impediment to out-of-state businesses or entrepreneurs that might otherwise consider locating in Montana; and

WHEREAS, the U.S. Congress is likely to reduce the budget of the U.S. Environmental Protection Agency (EPA) and restrain EPA's ability either to issue new regulations or to monitor and enforce existing environmental regulations, which is of great concern to Montana because there are many Montana state primacy applications currently pending with the EPA Region 8 Office, including applications for state primacy to regulate air quality, the underground storage tank program, waste oil, and underground injection wells for oil and gas, boilers and industrial furnaces, toxicity characteristic rules, and other modifications to the state's program for regulating hazardous and nonhazardous wastes, some of which have been pending EPA approval for as long as 5 years.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the Montana Congressional Delegation be encouraged to play a more active and concerted role in working witb tbe President of the United States, the EPA, and other federal environmental regulators to expedite granting primacy to the state of Montana for environmental regulatory decisionmaking and enforcement.

(2) That the Legislature requests that President Clinton, EPA Administrator Browner, and EPA Region 8 Administrator Yellowtail move more expeditiously in responding positively to the various requests and applications under consideration within EPA for primacy and greater flexibility in meeting the environmental regulatory burdens placed on and assumed by the state.

HeinOnline -- 1995 vol. IV 3619 1995

(3) That Governor Racicot be encouraged to accelerate activities in working with Montana state agencies and governors and agencies in neighboring states in a collective effort to encourage and promote greater flexibility by EPA and the federal government in dealing with the environmental regulatory needs of the state of Montana relating to the management of hazardous and other wastes produced in Montana.

(4) That copies of this resolution be sent to the Montana Congressional Delegation, the President of the United States, the Administrator of the EPA, the Administrator of the Region 8 Office of the EPA, and the Governor.

SENATE JOINT RESOLUTION NO. 16

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING CONGRESS TO ENACT MEANINGFUL REFORMS TO LIMIT DEATH PENALTY APPEALS.

WHEREAS, at yearend 1993, 34 states and the federal prison system held 2,716 prisoners under sentence of death; and

WHEREAS, in capital cases it has been estimated that the average length of time from commission of the crime to execution of the sentence was 8 years, 2 months; and

WHEREAS, justice delayed is justice denied; and

WHEREAS, the delay and small number of executions associated with capital cases indicate that the present system of collateral review operates to frustrate the capital punishment laws of the states; and

WHEREAS, capital litigation is often chaotic, with periodic inactivity and last-minute frenzied activity and rescheduling of execution dates; and

WHEREAS, this chaotic nature of capital litigation diminishes public confidence in the criminal justice system; and

WHEREAS, reform of the appellate review process in capital cases would reduce the cost of death penalty cases by reducing the number and length of appeals proceedings; and

WHEREAS, reforms to the appellate review process, such as allowing federal habeas corpus petitions to be filed for only a 6-month period following final decision by a state court and restricting the filing of second or successive federal habeas corpus petitions, would provide an orderly postconviction process with the opportunity for fair and effective review.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the Senate and the House of Representatives of the United States be encouraged to enact meaningful reforms to limit successive appeals in death penalty cases.

HeinOnline -- 1995 vol. IV 3620 1995

(2) That such reforms include allowing federal habeas corpus petitions to be filed for only a 6-month period following the date on which the conviction becomes final and imposing restrictions on the filing of second or successive federal habeas corpus petitions.

(3) That a copy of this resolution be sent to the presiding officers of the United States Senate and House of Representatives and to the members of the Montana Congressional Delegation.

SENATE JOINT RESOLUTION NO. 17

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE BUREAU OF RECLAMATION, THE UNITED STATES FISH AND WILDLIFE SERVICE, AND THE BUREAU OF LAND MANAGEMENT TO CURTAIL PLANS FOR THE LONESOME LAKE PROJECT NEAR BIG SANDY.

WHEREAS, the Bureau of Reclamation, the U.S. Fish and Wildlife Service, and the Bureau of Land Management have issued an environmental assessment that proposes alternative management plans at Lonesome Lake, a 17,898-acre complex of dry basin, shortgrass pasture, and cropland near Big Sandy, Montana; and

WHEREAS, intermingled with the withdrawn lands are 960 acres of state land and 1,999 acres of private land; and

WHEREAS, there would be an overall net reduction of approximately $536,777 in local economic activity; and

WHEREAS, the gravel seams in the area are used to gravel county roads; and

WHEREAS, there are no known endangered plants, mammals, or birds that inhabit the area; and

WHEREAS, extensive areas of club moss/blue grama limit nesting cover for upland game birds; and

WHEREAS, one of the goals of the joint venture is to maintain a breeding population of 6.8 million ducks of all types, with 13.6 million ducks in the fall flight by the year 2000; and

WHEREAS, there is only a 30% chance of any water running into Lonesome Lake basin; and

WHEREAS, lack of riparian area limits the nesting cover for waterfowl; and

WHEREAS, Ducks Unlimited has completed a feasibility study on development of dikes and other surface water management techniques to increase Lonesome Lake's waterfowl production potential and concluded that it was not hydrologically feasible or economically justifiable to build dikes to increase the depth and duration of surface water at Lonesome Lake; and

HeinOnline -- 1995 vol. IV 3621 1995

WHEREAS, public lands at Lonesome Lake are used for agricultural production through grazing and farming leases, and there is concern about the future administration of Lonesome Lake; and

WHEREAS, the environmental assessment offers three alternatives for Lonesome Lake: maintaining current management practices with no changes; enhancing the shortgrass prairie and associated wildlife species, along with providing opportunities for agriculture, cultural interpretation, and recreation; and managing the area with special emphasis on the wetland and native prairie resources for migratory birds.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Bureau of Reclamation, the U.S. Fish and Wildlife Service, and the Bureau of Land Management give strong consideration to the alternative that gives primary jurisdiction to the Bureau of Land Management and that maintains current management practices.

BE IT FURTHER RESOLVED, that the Bureau of Land Management encourage lessees to spike up club moss stands and seed a tall grass for upland game bird habitat.

BE IT FURTHER RESOLVED, that farm ground be farmed with no change.

WHEREAS, Montana law provides for the establishment of state-chartered investment companies that are not subject to federal regulation; and

WHEREAS, Montana law also provides that state regulators keep the required financial reports of those companies confidential; and

WHEREAS, international currency flows are increasing in frequency and volume, and the capacity of Swiss and other foreign financial institutions to accept confidential deposits is not increasing; and

WHEREAS, political instability in Mexico and Canada, as well as other countries, increases the likelihood that citizens of foreign countries will seek a secure haven for their financial capital; and

(2) Bills and resolutions may be preintroduced, assigned to committee, and printed prior to the legislative session. The Legislative Council shall be responsible for assuring the preintroduction intent from each Senator and presenting such legislation to the Secretary of the Senate.

(3) Upon referral to committee, the Secretary of the Senate shall publicly post a listing of the bill or resolution by a summary of its title, together with a notation of the committee to which it has been assigned.

S40-30. Additional sponsors. (1) Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on the bill or resolution. Forms for adding sponsors will be supplied on request by the Secretary of the Senate.

(2) Upon passage of the motion, the names of the additional sponsors will be printed in the journal and the form containing the signatures of the additional sponsors will be forwarded to the Legislative Council with the original bill for the inclusion of the names in subsequent printings of the bill or resolution.

(2) No bill or resolution shall have more than one reading on the same day except the last legislative day.

(3) No amendment may be offered on third reading.

S40-50. Rules for questions requiring other than a majority vote. (1) When a question requires more than a majority vote for final passage, a majority vote is sufficient to decide any question relating to the question prior to third reading.

(2) Any vote in the Senate on a bill proposing an amendment to the Montana Constitution under circumstances in which there exists the mathematical possibility of obtaining the necessary two-thirds vote of the Legislature will cause the bill to progress as though it had received the majority vote.

HeinOnline -- 1995 vol. IV 3638 1995

(3) If a bill has been amended in the House of Representatives and the amendments are accepted by the Senate, the bill shall again be placed on third reading in the Senate to determine if the required number of votes has been cast.

S40-60. Scheduling for second reading. (1) All bills and resolutions, except those recommended for the consent calendar, which have been reported by a committee, accepted by the Senate and reproduced shall be scheduled for consideration by Committee of the Whole.

(3) Legislation shall be arranged on the agenda in numerical order unless bills are grouped as companion bills or are placed in order otherwise by the Senate or Committee of the Whole.

S40-70. Consent calendar procedure. (1) Legislation reported by committee for placement on the consent calendar shall be sent to be processed and reproduced as a third reading version and specifically marked as a "consent calendar" item.

(2) Legislation shall be immediately posted (as soon as it is received as a third reading version) on the consent calendar and must remain there for 1 legislative day before consideration under Order of Business No. 11, special orders of the day. At that time, the President of the Senate will announce consideration of the consent calendar and allow "reasonable time" for questions and answers upon request. No debate will be allowed.

(3) Any three Senators may submit written objections to the Secretary of the Senate, and the legislation must then be removed from the consent calendar and added to the regular second reading agenda.

(4) Consent calendar legislation must be added to the end of the third reading agenda and clearly identified as "consent calendar" and voted on individually.

(5) Consent calendar legislation passed on third reading will then be transmitted to the House of Representatives.

CHAPTER 5

Floor Action

S50-10. Attendance. Unless excused, Senators shall be present at every sitting of the Senate and shall vote on questions put before the Senate.

S50-20. Orders of business. After prayer, roll call, and report on the journal, the order of business of the Senate is as follows:

(1) communications and petitions;

(2) reports of standing committees;

(3) reports of select committees;

(4) messages from the Governor;

HeinOnline -- 1995 vol. IV 3639 1995

(5) messages from the House of Representatives;

(6) motions;

(7) first reading and commitment of bills;

(8) second reading of bills (Committee of the Whole);

(9) third reading of bills and consent calendar bills;

(10) unfinished business;

(11) special orders of the day; and

(12) announcement of committee meetings.

To revert to or pass to a new order of business requires only a majority vote. Unless otherwise specified in the motion to recess, the Senate shall revert to Order of Business No. 1 when reconvening after a recess.

S50-30. Limitations on debate. No Senator may speak more than twice on any one motion or question without unanimous consent of the Senate, unless the Senator has introduced or proposed the motion or question under debate, in which case the Senator may speak twice and also close the debate. However, a Senator who has spoken may not speak again on the same motion or question to the exclusion of a Senator who has not spoken.

S50-40. Procedure upon offering a motion. (1) When a motion is offered it shall be restated by the presiding officer. If requested by the presiding officer or a Senator, it shall be reduced to writing, presented at the rostrum, and read aloud by the Secretary.

(2) A motion may be withdrawn by the Senator offering it at any time before it is amended or voted upon.

S50-50. Precedence of motions. (1) When a question is under debate only the following privileged and subsidiary motions shall be made:

(a) to adjourn;

(b) for a call of the Senate;

(c) to recess;

(d) question of privilege;

(e) to lay on the table;

(f) for the previous question;

(g) to postpone to a certain day;

(h) to refer or commit;

(i) to amend; and

(j) to postpone indefinitely.

HeinOnline -- 1995 vol. IV 3640 1995

(2) The motions listed in subsection (1) of this section have precedence in the order listed.

(3) A question may be indefinitely postponed by a majority roll call of all Senators present and voting. When a bill or resolution is postponed indefinitely, it is finally rejected and may not be acted upon again during the biennium except upon a motion of reconsideration.

(4) No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment or substitute.

S50-60. Nondebatable motions. The following motions are not debatable:

(1) to adjourn;

(2) for a call of the Senate;

(3) to recess;

(4) for parliamentary inquiry;

(5) for suspension of the rules;

(6) to lay on the table;

(7) for the previous question;

(8) to limit, extend the limits of, or to close debate;

(9) to amend an undebatable motion;

(10) to divide a question;

(11) to pass business in Committee of the Whole;

(12) to take from the table;

(13) a decision of the presiding officer, unless appealed or unless the presiding officer submits the question to the Senate for advice or decision; and

(14) all incidental motions, such as motions relating to voting or other questions of a general procedural nature.

S50-70. Amending motions. No more than one amendment and no more than one substitute motion may be made to a motion. This rule permits the main motion and two modifying motions.

S50-80. Previous question. (1) Except as provided in subsection (2) of this rule, the effect of calling for the previous question, if adopted, is to close debate immediately, to prevent the offering of amendments or other subsidiary motions, and to bring to vote promptly the immediately pending main question and the adhering subsidiary motions, whether on appeal or otherwise.

(2) When the previous question is ordered on any debatable question on which there has been no debate, the question may be debated for one-half hour, one-half of such time to be given to the proponents and one-half to the opponents.

HeinOnline -- 1995 vol. IV 3641 1995

(3) A call of the Senate is not in order after the previous question is ordered unless it appears upon an actual count by the presiding officer that a quorum is not present.

S50-90. Reconsideration. (1) Any Senator may, on the day the vote was taken or on the next day the Senate is in session, move to reconsider the question.

(2) A motion to reconsider may not be withdrawn after such next legislative day without the unanimous consent of the Senate, and thereafter any Senator may call it up for consideration; however, a motion to reconsider made after the 54th day of the session shall be disposed of when made.

(3) A motion to recall a bill from the House of Representatives constitutes notice to reconsider and shall be acted on as a motion to reconsider. A motion to reconsider or to recall a hill from the House of Representatives may be made only under Order of Business No. 6 and, under that order of business, takes precedence over all motions except motions to recess or adjourn.

(4) When a motion to reconsider is laid on the table, a two-thirds majority is required to take it from the table. When a motion to reconsider fails, the question is finally and conclusively settled.

(5) If a motion to reconsider third reading action is carried, there shall be no further action until the succeeding legislative day.

S50-100. Dividing a question. A Senator may move to divide a question if it includes two or more propositions so distinct in substance that if one thing is taken away a substantive question will remain.

S50-110. Conference committee reports. When a conference committee report is filed with the Secretary of the Senate, the same shall be read under Order of Business No. 3, select committees, and placed on the calendar the succeeding legislative day for consideration on second reading. If recommended favorably by the Committee of the Whole, it may be considered on third reading the same legislative day.

S50-120. Second reading. (1) The Senate may resolve itself into a Committee of the Whole for consideration of business on second reading, by approval of a motion for that purpose.

(2) After a Committee of the Whole has been formed, the President shall appoint a chair to preside.

(3) All legislation considered in Committee of the Whole shall be read by a summary of its title. Proposed amendments shall be considered; then the bill shall be considered in its entirety.

(4) Prior to adoption of the Committee of the Whole report, a Senator may move to segregate legislation. If the motion prevails, the legislation remains on second reading.

(5) When a Committee of the Whole report on legislation is rejected, the legislation shall remain on second reading.

HeinOnline -- 1995 vol. IV 3642 1995

S50-130. Committee of the Whole amendments. (1) All Committee of the Whole amendments shall be prepared, stipulating the date and time of preparation and staff approval, and delivered to the Secretary of the Senate for reading before the amendment is voted on.

(2) Each amendment, rejected or adopted, shall be printed in the journal, along with the name of the sponsor and the vote on each.

S50-140. Motions in Committee of the Whole. (1) All proper motions on second reading are debatable.

(2) The only motions in order during Committee of the Whole are to:

(a) amend;

(b) recommend passage or nonpassage;

(c) recommend concurrence or nonconcurrence;

(d) indefinitely postpone;

(e) pass consideration;

(f) rise;

(g) rise and report; or

(h) rise and report progress and ask leave to sit again.

S50-150. Committee of the Whole — generally. (1) The committee may not appoint subcommittees.

(2) The committee may not punish its members for misconduct, but may report disorder to the Senate.

S50-160. Voting on second reading. On Order of Business No. 8, in addition to other methods, a recorded vote may be made in the following manner: the chair may call for a voice vote to accept or reject a question. If the vote is other than unanimous, the chair may ask that the lesser number on the question indicate their vote by standing. The Secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as such. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

S50-170. Third reading procedure. (1) All legislation passing second reading shall be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.

(2) On Order of Business No. 9 the Secretary shall read the title and the President shall state the question as follows: "Senate bill number (or other appropriate identification)..... having been read three several times, the question is, shall the bill (or other appropriate identification) pass the Senate?"

(3) If an electronic voting system is used, the President shall state "Those in favor vote yes and those opposed vote no" and the Secretary will sound the signal and open the board for voting. After a reasonable pause the presiding officer

HeinOnline -- 1995 vol. IV 3643 1995

asks "Has every member voted?" (reasonable pause), "Does any member wish to change his or her vote?" (reasonable pause), "The Secretary will record the vote."

S50-180. Senate voting. (1) A roll call vote shall be taken on the request of two Senators, if the request occurs before the vote is taken.

(2) On a roll call vote the names of the Senators shall be called alphabetically, unless an electronic voting system is used. A Senator may not vote or change a vote after the decision is announced from the chair. A Senator may not explain a vote until after the decision is announced from the chair.

S50-190. Pairs. (1) Two Senators may pair on a question that will be determined by a majority vote. On a question requiring a two-thirds vote for adoption, three Senators may pair, with two Senators for the question and one Senator against. Pairing is permitted only when one of the paired Senators is excused when the vote is taken.

(2) An agreement to pair must be in writing and dated and signed by the Senators agreeing to be bound, and must specify the duration of the pair. When an agreement to pair is filed with the Secretary of the Senate, it shall bind the Senators signing until the expiration of time for which it was signed, unless the paired Senators sooner appear and ask that the agreement be canceled.

(3) Pairs in Committee of the Whole are prohibited.

S50-200. Call of the Senate. (1) In the absence of a quorum, a majority of Senators present may compel the attendance of absent Senators by ordering a call of the Senate.

(2) If a quorum is present, five Senators may order a call of the Senate.

(3) On a call of the Senate, a Senator who refuses to attend may be arrested by the Sergeant-at-Arms or any other person, as the majority of such Senators present shall direct. When the attendance of an absent Senator is secured and the Senate refuses to excuse the Senator's absence, the Senator shall not be paid any expense payments while absent and is liable for the expenses incurred in procuring the Senator's attendance.

(4) During a call of the Senate, all business shall be suspended. After a call has been ordered, no motion is in order except a motion to adjourn or remove the call. The call may be removed by a two-thirds vote.

CHAPTER 6

Rules

S60-10. Senate rules. (1) A motion to amend or adopt a rule of the Senate shall be referred to the Rules Committee without debate. A rule of the Senate may be amended or adopted only with the concurrence of a majority of the Senate and after 1 day's notice.

(2) A rule may be suspended temporarily by a two-thirds vote.

S60-20. Mason's Manual of Legislative Procedure. Mason's Manual of Legislative Procedure (1989) governs the proceedings of the Senate in all cases not covered by these rules.

HeinOnline -- 1995 vol. IV 3644 1995

S60-30. Quorum. A majority of the Senate shall constitute a quorum to do business, but a smaller number may adjourn from day to day and compel the attendance of absent Senators, in such manner and under such penalties as the Senate may prescribe (Montana Constitution, Art. V, Sec. 10(2)).

CHAPTER 7

Nominations from tbe Governor

S70-10. Nominations. (1) The Governor shall nominate and, by and with the consent of the Senate, appoint all officers whose offices are established by the Montana Constitution or which may be created by law and for whom appointment or election is not otherwise provided.

(2) If during a recess of the Senate a vacancy occurs in any such office, the Governor shall appoint some fit person to discharge the duties thereof until the next meeting of the Senate, when the Governor shall nominate a person to fill such office.

S70-20. Introduction and first reading of nominations. (1) Nominations received from the Governor are:

(a) received by the President;

(b) delivered to the Secretary of the Senate;

(c) read under Order of Business No. 4, messages from the Governor; and

(d) referred to committee.

(2) The above procedure constitutes introduction and first reading of the nominations.

(3) The Secretary shall distribute a copy of the list of nominations to each Senator.

S70-30. Committee process. (1) (a) The committee shall research each nominee and may request biographical information from the Governor for each nominee if none has been provided.

(b) The committee chair shall submit a bill draft request for a simple resolution to include the nominees specified by the committee chair. These bill draft requests will not count against any bill draft request limit imposed on members. When the resolution has been prepared and introduced, the committee shall hold a hearing on the resolution after appropriate public notice has been made.

(2) Following the hearings, the committee shall issue preliminary standing committee reports to be distributed to each Senator, stating the committee's recommendations concerning the nominees.

(3) (a) If a Senator wishes to have an individual nominee, or group of nominees, considered by the Senate separately from the group of nominees recommended by the committee, the Senator may request of the chair of the committee that the nominee or nominees be considered by a separate resolution.

HeinOnline -- 1995 vol. IV 3645 1995

(b) A Senator must request separate consideration of a nominee within 3 days of receipt of the preliminary standing committee report. The committee chair shall honor this request.

(4) After waiting 3 days from the day of distribution of the preliminary standing committee report, the committee chair shall issue a final standing committee report and deliver the report to the Secretary of the Senate.

(a) If a nominee is to be separated from the resolution, the final standing committee report shall include an amendment deleting that nominee.

(b) When a nominee has been separated at the request of a Senator, the committee chair shall submit a bill draft request for a simple resolution to include only the nominee so separated. When the resolution has been prepared and introduced, the committee shall take executive action on the resolution. When a hearing on the separated nomination was held prior to the committee's preliminary standing committee report, no additional hearing need he held before the committee takes action on the separate resolution. After the committee's executive action, the committee chair shall issue a standing committee report.

(5) If a resolution contains only one nominee, the committee shall dispense with the preliminary standing committee report and shall issue a final standing committee report to be distributed to each Senator stating the committee's recommendation concerning the nominee.

(6) The Secretary will read the reports under Order of Business No. 2, reports of standing committees.

(7) Thereafter, the resolution must be placed on Order of Business No. 11 the next legislative day for consideration by the Senate. Motions to approve or disapprove of the resolution are in order and may be debated.

WHEREAS, the population of elderly citizens of the United States is growing steadily, and this growth is reflected in the increased number of aged veterans of military service; and

WHEREAS, the State of Montana sent more of its citizens per capita into military service during World War I, World War II, the Korean Conflict, and the Vietnam War than any other state; and

WHEREAS, the need for care for elderly citizens, including veterans, is an ever more urgent concern that is particularly manifested in the increasing need for nursing home beds among veterans because of their advancing age; and

WHEREAS, the 26 nursing home beds in the Veterans' Center at Miles City are the only federal veterans' nursing home beds available in Montana to answer the needs of the 101,544 veterans who live in Montana; and

WHEREAS, there are no other federal veterans' nursing home bed facilities within 500 miles of the Veterans' Center at Fort Harrison, Montana; and

WHEREAS, this deplorable lack of federal nursing home beds has been disregarded by federal officials for the past 35 years, and the situation is acute and costly; and

WHEREAS, responsible federal officials of the Department of Veterans Affairs have ignored the need for additional nursing home beds and have delayed the commencement of construction at the Veterans' Center at Fort Harrison, Montana, of nursing home facilities, which construction was first scheduled to begin in 1979 and has since been postponed approximately seven times, with the latest target date for construction now set for 1999, a date still dependent on ongoing analysis; and

WHEREAS, a recommendation should be made to Montana's Congressional Delegation and to the Department of Veterans Affairs concerning the location of any future federal nursing home facility; and

WHEREAS, the Department of Veterans Affairs also provides nursing home services through a community nursing home program in which veterans are entitled to nursing home services in local private nursing homes through contracts with the Veterans Administration; and

WHEREAS, the community nursing home program normally provides permanent nursing care for veterans with service-connected disabilities and 6 months of care for veterans with nonservice-connected disabilities; and

WHEREAS, because of budget constraints, the Department of Veterans Affairs now provides only 1 month of care for veterans with nonservice-connected disabilities.

HeinOnline -- 1995 vol. IV 3661 1995

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That Montana's Congressional Delegation be urged to press for immediate construction of adequate nursing home facilities adjacent to the Veterans' Center at Fort Harrison, Montana, in order that Montana's battle-scarred and disabled veterans will not be forced to sell their homes and exhaust their savings to pay out-of-pocket costs for care that they are entitled to receive from the government that they served.

BE IT FURTHER RESOLVED, that the Governor be urged to appoint a nonpartisan committee of five individuals to study the issue of the future location of any Department of Veterans Affairs nursing home facility and to make a recommendation to Montana's Congressional Delegation and to the Department of Veterans Affairs concerning the location of any future facility.

BE IT FURTHER RESOLVED, that the Montana Congressional Delegation be urged to press for full funding of contract nursing home services for Montana veterans entitled to contract nursing home services.

BE IT FURTHER RESOLVED, that the Montana Congressional Delegation urge the expansion of the community nursing home program to allow Montana veterans to be served in their local communities and as a cost-effective alternative to the immediate construction of additional federal veterans' nursing homes.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the President of the United States, the Secretary of the Department of Veterans Affairs, each member of Montana's Congressional Delegation, the presiding officers of the Committees on Veterans Affairs of the United States Senate and House of Representatives, and the Governor of the State of Montana.

WHEREAS, section 2-4-314, MCA, requires each Executive Branch agency subject to the Montana Administrative Procedure Act to at least biennially review its administrative rules to determine whether existing rules should be modified or repealed; and

HeinOnline -- 1995 vol. IV 3662 1995

WHEREAS, on the whole, agencies are not complying with section 2-4-314, MCA; and

WHEREAS, the number of administrative rules is constantly increasing, thereby adding to the people's burden of complying with state law; and

WHEREAS, unnecessary rules place a needless burden upon the people's freedom and upon personal and economic activity.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature request the Governor to ask each Executive Branch agency that has adopted administrative rules, whether or not the Montana Administrative Procedure Act applies to the agency, to review the agency's rules and delete unnecessary provisions by January 1, 1996, with a view to decreasing the number and pages of the agency's rules by a minimum of 5%, with a goal of 10%.

HOUSE JOINT RESOLUTION NO. 9

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ESTABLISHING AN OFFICIAL ESTIMATE OF THE STATE'S ANTICIPATED REVENUE FOR EACH YEAR OF THE 1996-97 BIENNIUM FOR THE PURPOSE OF ACHIEVING A BALANCED BUDGET AS MANDATED BY ARTICLE VIII, SECTION 9, OF THE MONTANA CONSTITUTION; ACCEPTING THE JUNE 30, 1994, GENERAL FUND AND STATE EQUALIZATION AID ACCOUNT BALANCES THAT WERE ESTABLISHED BASED ON GENERALLY ACCEPTED ACCOUNTING PRINCIPLES; REQUESTING THE GOVERNOR'S OFFICE OF BUDGET AND PROGRAM PLANNING TO USE THE REVENUE ESTIMATES CONTAINED IN THIS RESOLUTION AS OFFICIAL REVENUE ESTIMATES FOR FISCAL YEARS 1995-96 AND 1996-97; AND ESTABLISHING AN ESTIMATE OF THE NONGENERAL FUND REVENUE FOR THE STATE EQUALIZATION AID ACCOUNT.

WHEREAS, Article VI, section 9, of the Montana Constitution requires the Governor to submit to the Legislature a budget for the ensuing fiscal period, containing in detail for all operating funds the proposed expenditures and estimated revenue of the state; and

WHEREAS, Article VIII, section 9, of the Montana Constitution prohibits the Legislature from appropriating funds in excess of the anticipated revenue of the state; and

WHEREAS, section 5-18-107(5), MCA, requires the Revenue Oversight Committee to estimate the amount of revenue projected to be available for legislative appropriation and to introduce legislation setting forth the Committee's current revenue estimate for the biennium; and

WHEREAS, section 5-12-302(6), MCA, requires the Office of Legislative Fiscal Analyst to assist the Revenue Oversight Committee in its revenue estimating duties; and

WHEREAS, the Montana Legislature revised the taxation of railroad car companies during the July 1992 Special Session; and

WHEREAS, several railroad car companies challenged the constitutionality of the new tax; and

WHEREAS, because the outcome of the challenge to the railroad car company tax is uncertain, the Revenue Oversight Committee did not include,

HeinOnline -- 1995 vol. IV 3669 1995

as a precautionary position, any anticipated revenue from the tax in the revenue estimates; and

WHEREAS, because of the complexity of economic variables involved in revenue forecasting and the diversity of sources from which state revenue is obtained, it has become increasingly difficult to project revenue in order to prepare a balanced budget for the ensuing biennium; and

WHEREAS, the revenue estimates contained in this resolution provide the basis for a comprehensive analysis of the state's financial condition; and

WHEREAS, it is in the best interests of the state that revenue forecasts be discussed and arrived at in public hearings at which all the people may attend and participate.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the state general fund revenue for fiscal years 1995, 1996, and 1997 be estimated to be $642,221,000, $664,839,000, and $690,523,000, respectively, and that the state equalization aid revenue for fiscal years 1995, 1996, and 1997 be estimated to be $292,292,000, $295,741,000, and $302,361,000, respectively.

BE IT FURTHER RESOLVED, that the Legislature accept for budget purposes the unreserved fund balance of $32,592,000 for the general fund and $17,109,000 for the state equalization aid account, prepared according to generally accepted accounting principles as published in the audited state financial statements as of June 30, 1994.

BE IT FURTHER RESOLVED, that the Governor's Office of Budget and Program Planning use the revenue estimates (and the underlying assumptions) contained in this resolution as the official revenue estimates for fiscal years 1995-96 and 1996-97.

GENERAL FUND AND STATE EQUALIZATION AID ACCOUNT REVENUE

The projections for total general fund and state equalization aid account revenue during the 1996-97 biennium are based on an assumption of a continuation of Montana law as it existed on January 1, 1995.

The revenue estimates contained in the following tables are based on the assumptions stated previously in this resolution and those listed in the following tables.

WHEREAS, the people of Montana have long enjoyed both tangible and intangible benefits from the presence and management activities of the United States Forest Service, which is distinct from most federal and other governmental agencies in the strength and diversity of land management and traditions; and

WHEREAS, the United States Forest Service has recently proposed a restructuring that would close its Missoula Regional Office and relocate the office's decisionmaking authority and personnel to Denver; and

WHEREAS, Missoula is at the heart of the Forest Service Northern Region, which encompasses 15 national forests, 4 national grasslands, and 28 million acres of forest, including 5 million acres of classified wilderness; has been the center for the forest industry for over a century; and is the site of the University of Montana School of Forestry and the center of forestry activities of the Montana Department of State Lands; and

WHEREAS, forestry research programs at the University of Montana and elsewhere in the Northern Rocky Mountains would likely suffer from the proposed restructuring; and

WHEREAS, the effects of the Forest Service proposal would include the loss of Montana-based decisionmaking authority over Montana national forests to a geographically remote, ecologically unrelated urban area as well as the loss of high-level, professional, skilled Forest Service employees, to the economic detriment of western Montana; and

WHEREAS, the Forest Service has produced no cost-benefit justification for its proposed restructuring or evidence of how restructuring would serve taxpayers and the public interest; and

WHEREAS, the proposed consolidation of Forest Service activity in the Denver urban area appears to violate the letter and spirit of the federal Forest and Rangeland Renewable Resources Planning Act of 1974, specifically 16 U.S.C. 1609, which requires that the Forest Service give priority to locating regional offices in rural areas and towns near the national forests in order to provide the optimum level of convenient, useful services to the public; and

WHEREAS, amid current controversy surrounding forest management activities, there is a broad public recognition of the need for continuing dialogue

HeinOnline -- 1995 vol. IV 3686 1995

between all segments of the public and public agencies, including the Forest Service.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Northern Region Forest Service Regional Office be retained in Missoula, Montana, and that the office continue to oversee the management of the national forests and grasslands of the Northern Region.

BE IT FURTHER RESOLVED, that the Montana Legislature urge the Montana Congressional Delegation's continued strong opposition to any proposed Forest Service restructuring likely to close or reduce the decisionmaking authority and capability of the Missoula Regional Office.

BE IT FURTHER RESOLVED, that the United States Department of Agriculture and the United States Forest Service be encouraged to discontinue implementing the proposed restructuring plan and concentrate their efforts on more direct ways of reducing costs and staffing within the current Forest Service structure.

BE IT FURTHER RESOLVED, that public participation be encouraged in all Forest Service restructuring decisions to ensure that any restructuring protects Montana and national public and taxpayer interests by requiring:

(1) an accurate, comprehensive cost-benefits analysis to justify restructuring;

(2) adherence to all laws applicable to the management of national forest resources; and

(3) that Forest Service personnel reductions or relocations resulting from restructuring, if any, be done in a manner that leaves the maximum number of decisionmaking personnel in each Forest Service office in or near the national forests that those offices oversee.

BE IT FURTHER RESOLVED, that the Legislature support meaningful federal agency restructuring that will result in continued stewardship of the land, better service to the public, actual taxpayer savings, and less, rather than more, federal agency consolidation.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Montana Congressional Delegation, the United States Secretary of Agriculture, the Chief of the United States Forest Service, and the Regional Forester of the Northern Region.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE UNITED STATES CONGRESS TO PROVIDE CONSTITUTIONAL STATUS TO THE ITEM VETO.

HeinOnline -- 1995 vol. IV 3687 1995

WHEREAS, the United States Congress is considering legislation that would give the President of the United States "enhanced rescission" authority to designate individual parts of appropriation hills for cutbacks; and

H30-30. Officers as members. The Speaker, majority leader, and minority leader are ex officio, nonvoting members of all House committees. They are not required to be considered in the quorum, but they may count toward establishing a quorum.

HeinOnline -- 1995 vol. IV 3693 1995

H30-40. Committee action. (1) When legislation is referred to a committee, it may recommend approval or disapproval, with or without amendment.

(2) The committee may recommend that a bill on which it has made a favorable recommendation by unanimous vote be placed on the consent calendar.

(3) The committee may not report a bill to the House without recommendation.

(4) If a bill is withdrawn from a committee and brought to the House floor without a committee recommendation, the bill must include amendments formally adopted by committee action as reflected in committee minutes for debate on second reading.

H30-50. Reconsideration in committee. A committee, including the Committee of the Whole, may at any time prior to submitting a report to the Chief Clerk reconsider its previous action on legislation.

H30-60. Legislation requested by a committee. At least two-thirds of all the representatives of a standing committee must have voted in favor of the question to allow the committee to request the drafting or introduction of legislation. Votes requesting drafting and introduction of committee legislation may be taken jointly or separately.

H30-70. Rules committee makeup. The Speaker will determine the total number of members and the party division, but each party will appoint its own members.

CHAPTER 4

Legislation

H40-10. Introduction deadlines. (1) Except as provided in subsection (2), if a representative accepts drafted legislation from the Legislative Council after the deadline for introduction, the representative may not introduce that legislation after 48 hours from the time the bill was accepted from the Legislative Council.

(2) No bill or resolution may be introduced any later than 5 p.m. 5 legislative days prior to the appropriate transmittal deadline.

H40-20. House resolutions. (1) A House resolution is used to adopt or amend House rules, make recommendations on the districting and apportionment plan (Montana Constitution, Art. V, Sec. 14), express the sentiment of the House, or assist House operations.

(2) As to drafting, introduction, and referral, a House resolution is treated as a bill. Final passage of a House resolution is determined by the Committee of the Whole report. A House resolution does not progress to third reading.

(3) The Chief Clerk shall transmit a copy of each passed House resolution to the Senate and the Secretary of State.

HeinOnline -- 1995 vol. IV 3694 1995

H40-30. Cosponsors. (1) Prior to submitting legislation to the Chief Clerk for introduction, the chief sponsor may add representatives and senators as cosponsors by having them sign the copies.

(2) After legislation is submitted for introduction but before the legislation returns from the first House committee, the chief sponsor may add or remove cosponsors by filing a cosponsor form with the Chief Clerk. This filing must be noted by the Chief Clerk for the record on Order of Business No. 11.

H40-40. Introduction — receipt. (1) During a session, proposed House legislation may be introduced in the House by submitting it in duplicate, endorsed with the signature of a representative as chief sponsor, to the Chief Clerk for introduction. In each session of the Legislature, the proposed legislation must be numbered consecutively by type in the order of receipt. Submission and numbering of properly endorsed legislation constitutes introduction.

(2) Preintroduction of legislation prior to a session under provisions of the joint rules constitutes introduction in the House.

(3) Acknowledgment by the Chief Clerk of receipt of legislation or other matters transmitted from the Senate for consideration by the House constitutes introduction of the Senate legislation in the House or receipt by the House for purposes of applying time limits contained in the House rules. Senate legislation may be referred to a committee prior to being read across the rostrum as provided in H40-50.

(4) Acknowledgment by the Chief Clerk of receipt of messages from the Senate or other elected officials constitutes receipt by the House for purposes of any applicable time limit. Senate legislation or messages received from the Senate or elected officials are subject to all other rules.

H40-50. First reading. Legislation properly introduced or received in the House must be announced across the rostrum and public notice provided. This announcement constitutes first reading, and no debate or motion is in order except that a representative may question adherence to rules. Acknowledgment by the Chief Clerk of receipt of legislation transmitted from the Senate commences the time limit for consideration of the legislation. Senate legislation received by the House may be referred to a committee prior to being read across the rostrum.

H40-60. One reading per day. Except on the final legislative day, legislation may receive no more than one reading per legislative day. On the final legislative day, legislation may receive more than one reading.

H40-70. Referral. (1) The Speaker shall refer to a House committee all properly introduced House legislation and transmitted Senate legislation.

(2) Legislation may not receive final passage and approval unless it has been referred to a House committee.

H40-80. Rereferral. (1) Except as provided in subsection (2), legislation that is in the possession of the House and that has not been finally disposed of may be rereferred to a House committee by House motion approved by not less than three-fifths of the members present and voting.

HeinOnline -- 1995 vol. IV 3695 1995

(2) Legislation that is in the possession of the House and that has been reported from a committee with a do pass or be concurred in recommendation may be rereferred to a House committee by a majority vote.

H40-90. Legislation withdrawn from committee. Legislation may be withdrawn from a House committee by House motion approved by not less than three-fifths of the members present and voting.

H40-100. Standing committee reports. (1) A House standing committee recommendation of "do pass" or "be concurred in" must be announced across the rostrum and, if there is no objection to form, is considered adopted.

(2) A recommendation of "do not pass" or "be not concurred in" must be announced across the rostrum and, on the following legislative day, may be debated and adopted or rejected on Order of Business No. 2. A motion to reject an adverse committee report must be approved by not less than three-fifths of the members voting. Failure to adopt a motion to reject an adverse committee report constitutes adoption of the report.

(3) If the House rejects an adverse committee report, the bill progresses to second reading, as scheduled by the Speaker, with any amendments recommended by the committee.

H40-110. Consent calendar procedure. (1) Noncontroversial bills and simple and joint resolutions may be recommended for the consent calendar by a standing committee and processed according to the following provisions:

(a) To be eligible for the consent calendar, the legislation must receive a unanimous vote by the members of the standing committee in attendance (do pass, do pass as amended). In addition, a motion must be made and passed unanimously to place the legislation on the consent calendar and this action reflected in the committee report. Appropriation or revenue bills may not be recommended for the consent calendar.

(b) The legislation must then be sent to be processed and reproduced as a third reading version and specifically marked as a "consent calendar" item.

(2) Other legislation may be placed on the consent calendar by agreement between the speaker and the minority leader following a positive recommendation by a standing committee. The legislation must be sent to be processed as a second reading version but must be specifically announced and posted as a "consent calendar" item.

(3) Legislation must be posted immediately (as soon as it is received appropriately printed) on the consent calendar and must remain there for 1 legislative day before consideration under Order of Business No. 11, special orders of the day. At that time, the presiding officer shall announce consideration of the consent calendar and allow "reasonable time" for questions and answers upon request. No debate is allowed.

(4) If any three representatives submit written objections to the placement of legislation on the consent calendar by the action of a standing committee or if any one representative submits a written objection to the placement of legislation on the consent calendar by the speaker and minority leader, the

HeinOnline -- 1995 vol. IV 3696 1995

legislation must be removed from the consent calendar and added to the regular second reading board.

(5) Consent calendar legislation will be considered on Order of Business No. 8, third reading of bills, following the regular third reading agenda.

(6) Legislation on the consent calendar must be considered individually with the roll call vote spread on the journal as the final vote in the House.

(7) Legislation passed on the consent calendar must then be transmitted to the Senate. Legislation must be appropriately printed prior to transmittal.

H40-120. Legislation requiring other than a majority vote. Legislation that requires other than a majority vote for final passage needs only a majority vote for any action that is taken prior to third reading and that normally requires a majority vote.

H40-130. Amending House second and third reading agendas. (1) A majority of representatives present may rearrange or remove legislation from either the second or third reading agenda on that legislative day.

(2) Legislation may be added to the second or third reading agenda on that legislative day on a motion approved by not less than three-fifths of the members present and voting.

H40-140. Second reading. (1) Legislation returned from committee may be placed on second reading unless otherwise ordered by the House.

(2) The House shall form itself into a Committee of the Whole to consider business on second reading. The Committee of the Whole may debate legislation, attach amendments, and recommend approval or disapproval of legislation.

(3) Except on the final legislative day, at least 1 legislative day must elapse between the time legislation is reported from committee and the time it is considered on second reading.

(4) If a motion to recommend that a bill "do pass" or "be concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do not pass" or "be not concurred in", is considered to have passed.

(5) An amendment attached to legislation by the Committee of the Whole remains unless removed by further legislative action.

(6) When the Committee of the Whole reports to the House, the House shall adopt or reject the Committee of the Whole report. If the House rejects the Committee of the Whole report, the legislation remains on second reading, as amended by the Committee of the Whole, unless the House orders otherwise.

(7) A representative may move to segregate legislation from the Committee of the Whole report before the report is adopted. Segregated legislation, as amended by the Committee of the Whole, must be placed on second reading unless the House orders otherwise.

H40-150. Amendments in the Committee of the Whole. (1) All Committee of the Whole amendments must be checked by the House amendments coordinator for format, style, clarity, consistency, and other

HeinOnline -- 1995 vol. IV 3697 1995

factors, in accordance with the most recent Bill Drafting Manual published by the Legislative Council, before the amendment may be accepted at the rostrum. The amendment form must include the date and time the amendment is submitted for that check.

(2) An amendment submitted to the rostrum for consideration by the Committee of the Whole must be marked as checked by the amendments coordinator and signed by a representative.

(3) A copy of every amendment rejected by the Committee of the Whole must be kept as part of the official records.

H40-160. Motions in the Committee of the Whole. (1) When the House resolves itself into a Committee of the Whole, the only motions in order are to:

(a) amend;

(b) recommend passage or nonpassage;

(c) recommend concurrence or nonconcurrence;

(d) indefinitely postpone;

(e) reconsider;

(f) pass consideration;

(g) call for cloture;

(h) rise, rise and report, or rise and report progress and beg leave to sit again; and

(i) to change the order in which legislation is placed on the agenda.

(2) Subsections (1)(e) through (1)(h) are nondebatable but may be amended.

(3) If a quorum of representatives is not present during second reading, the Committee of the Whole may conduct no business on legislation and a motion for a call of the House without a quorum is in order.

H40-170. Limits on debate in the Committee of the Whole. (1) Except for the representative who makes a motion, no representative may speak more than once on the motion and for no more than 5 minutes. The representative who makes the motion may have 5 minutes to close.

(2) After at least two proponents and two opponents have spoken on a question and 45 minutes have elapsed, a motion to call for cloture is in order. Approval by not less than two-thirds of the members present and voting is required to sustain a motion for cloture. Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.

(3) By previous agreement of the Speaker and the minority floor leader, a bill or resolution may be allocated a predetermined amount of time for debate and number of speakers.

HeinOnline -- 1995 vol. IV 3698 1995

H40-180. Special provisions for debate on the general appropriations bill. (1) The Appropriations Committee chair, in presenting the bill, is not subject to the 5-minute speaking limitation.

(2) Each appropriations subcommittee chair shall fully present their portion of the bill. A subcommittee chair is not subject to the 5-minute speaking limitation.

(3) After the presentation by the subcommittee chair, the respective section of the bill is open for debate, questions, and amendments.

(4) An amendment that affects more than one section of the bill must be offered when the first section affected is considered.

(5) Following completion of the debate on each section, that section is closed and may not be reopened except by majority vote.

(6) If a member moves to reopen a section for amendment, only the amendment of that member may be entertained. Another member wishing to amend the same section shall make a separate motion to reopen the section.

(7) Debate on the motion to reopen a section is limited to the question of reopening the section. The amendment itself may not be debated at that time. This limitation does not prohibit the member from explaining the amendment to be considered.

(8) A motion for cloture is not in order during debate on the general appropriations bill.

H40-190. Engrossing. (1) After legislation is passed on second reading, it must be engrossed within 48 hours under the direction of the Speaker. The Speaker may grant additional time for engrossing.

(2) When the legislation has been reported correctly engrossed, it may be placed on third reading on the following legislative day. On the final legislative day, the correctly engrossed legislation may be placed on third reading on the same legislative day.

H40-200. Third reading. (1) All bills, joint resolutions, and Senate amendments to House bills and resolutions passing second reading must be placed on third reading.

(2) Legislation on third reading may not be amended or debated.

(3) The Speaker shall state the question on legislation on third reading. If a majority of the representatives voting does not approve the legislation, it fails to pass third reading.

H40-210. Senate legislation in the House. Senate legislation properly transmitted to the House must be treated as House legislation.

H40-220. Senate amendments to House legislation. (1) When the Senate has properly returned House legislation with Senate amendments, the House shall announce the amendments on Order of Business No. 4, and the Speaker shall place them on second reading for debate. The second reading vote is limited to consideration of the Senate amendments.

HeinOnline -- 1995 vol. IV 3699 1995

(2) If the House accepts Senate amendments, the House shall place the final form of the legislation on third reading to determine if the legislation is passed or if the required vote is obtained.

(3) If the House rejects the Senate amendments, the House may request the Senate to recede from its amendments or may direct appointment of a conference committee and request the Senate to appoint a like committee.

H40-230. Conference committee reports. (1) When a House conference committee files a report, the report must be announced under Order of Business No. 3.

(2) The House may debate and adopt or reject the conference committee report on second reading on any legislative day. The House may reconsider its action in rejecting a conference committee report under rules for reconsideration, H50-160.

(3) If both the House and the Senate adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the House, following approval of the conference committee report on third reading, sball place the final form of the legislation on third reading to determine if the required vote is obtained.

(4) If the House rejects a conference committee report, the committee continues to exist unless dissolved by the Speaker or by motion. The committee may file a subsequent report.

(5) A House conference committee may confer regarding matters assigned to it with any Senate conference committee with like jurisdiction and submit recommendations for consideration of the House.

H40-240. Enrolling. (1) When House legislation has passed both houses, it must be enrolled within 48 hours under the direction of the Speaker. The Speaker may grant additional time for enrolling.

(2) The chief sponsor of the legislation shall examine the enrolled legislation and, if it has no enrolling errors, shall, within 1 legislative day, certify the legislation as correctly enrolled.

(3) The correctly enrolled legislation must be delivered to the Speaker, who shall sign the legislation not later than the following legislative day. When enrolled legislation is delivered on the final legislative day, the Speaker shall sign it that day.

(4) After the legislation has been reported correctly enrolled but before it is signed, any representative may examine the legislation.

H40-250. Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the House shall announce the amendments under Order of Business No. 5.

(2) The House may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.

(3) If both the House and the Senate accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage,

HeinOnline -- 1995 vol. IV 3700 1995

the House shall place the final form of the legislation on third reading to determine if the required vote is obtained.

H40-260. Governor's veto. (1) When the Governor returns a bill with a veto, the House shall announce the veto under Order of Business No. 5.

(2) On any legislative day, a representative may move to override the Governor's veto by a two-thirds vote under Order of Business No. 9.

It would amend the Montana Constitution to prohibit the legislature from spending public pension fund assets, reducing funding levels or borrowing against assets of the public retirement system. Funds could only be used to provide benefits or to pay costs of administering the funds. It would require that public retirement systems be funded on an actuarially sound basis and managed carefully in accordance with recognized standards of financial management. It does not change existing law concerning investment of public funds.

Chapter 43 was approved by the following vote at the General Election held November 8, 1994:

(b) Bonds of the United States or other securities fully guaranteed as to principal and interest by the United States, or

(c) Such other safe investments bearing a fixed rate of interest as may be provided by law.

(3) Investment of public retirement system assets shall be managed in a fiduciary capacity in the same manner that a prudent expert acting in a fiduciary capacity and familiar with the circumstances would use in the conduct of an enterprise of a similar character with similar aims. Public retirement system assets may be invested in private corporate capital stock."

Section 2. Article VIII of The Constitution of the State of Montana is amended by adding a new section 15 that reads:

Section 15. Public retirement system assets. (1) Public retirement systems shall be funded on an actuarially sound basis. HeinOnline -- 1995 vol. IV 4017 1995

WHEREAS, by its terms, the Compact required the participation of the United States in the project to repair and rehabilitate the Tongue River Dam in southeastern Montana, which required certain authorizations and appropriations by the Congress of the United States; and

WHEREAS, in the Northern Cheyenne Indian Reserved Water Rights Settlement Act of 1992, referred to in this preamble as the federal act (Public Law 102-374, 106 Stat. 1186), Congress approved the Compact and obligated, under certain terms and conditions, the federal government and the state to provide funding for the project; and

WHEREAS, because of a clerical error in the federal act Montana may lose some of the federal funding for the project, and accordingly, Congress, in S. 1654 (103d Cong. 1st Sess.), is considering an amendment to correct that error; and

WHEREAS, some of the terms of the federal act and the pending amendment vary from the Compact, thereby creating uncertainty in efforts to obtain federal funding for the project and secure judicial approval of the Compact; and

WHEREAS, the Northern Cheyenne Tribe, the Montana Reserved Water Rights Compact Commission, and the Montana Department of Natural Resources and Conservation have given their consent to, adopted, and ratified the terms of the federal act and the pending amendment; and

WHEREAS, the judicial confirmation of the Compact and timely completion of the project is of high priority to the State of Montana, the Northern Cheyenne Tribe, and the United States.

THEREFORE, the 53rd Legislature of the State of Montana, meeting in special session, finds it appropriate to give its consent to, adopt, and ratify the terms and conditions of the federal act and the pending amendment and to modify the Compact to the extent necessary to conform therewith.

CHAPTER NO. 9

[SB 18]

AN ACT PROVIDING REDUCED NET PROCEEDS TAX RATES AND REDUCED SEVERANCE TAX RATES ON THE INCREMENTAL PRODUCTION OF OIL FROM ENHANCED RECOVERY PROJECTS THAT BEGIN AFTER DECEMBER 31, 1993, AND BEFORE JANUARY 1, 2002; PROVIDING THAT INCREMENTAL PRODUCTION FROM ENHANCED RECOVERY PROJECTS IS TAXED AT EXISTING HIGHER RATES IN CALENDAR QUARTERS IN WHICH THE PRICE PER BARREL OF OIL IS EQUAL TO OR GREATER THAN $30; EXEMPTING FROM NET PROCEEDS TAXATION FOR A PERIOD OF 18 MONTHS THE PRODUCTION OF OIL FROM HORIZONTALLY COMPLETED WELLS; REQUIRING THAT THE BOARD OF OIL AND GAS CONSERVATION APPROVE ENHANCED RECOVERY PROJECTS IN ORDER FOR THE PROJECTS TO QUALIFY FOR THE REDUCED TAX RATES; REQUIRING THAT THE BOARD ESTABLISH A FEE SCHEDULE TO DEFRAY THE EXPENSES FOR REVIEWING PROPOSED ENHANCED RECOVERY PROJECTS; AMENDING SECTIONS 7-1-2111, 7-7-2101, 7-7-2203, 7-14-2524, 7-14-2525, 7-16-2327, 15-6-208, 15-23-601, 15-23-602, 15-23-603, 15-23-607, 15-23-612, 15-23-613, 15-36-101, 20-9-141, 20-9-331, 20-9-333, AND 20-10-144, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND AN APPLICABILITY DATE.

STATEMENT OF INTENT

A statement of intent is required for this bill because the board of oil and gas conservation is authorized to approve and certify production decline rates for the purpose of determining incremental production from enhanced recovery projects as provided in this bill.

The department of revenue has adopted rules for determining incremental production from tertiary production based on production decline rates. It is the intent of this legislation that the determination of incremental production is more appropriately a function of the board of oil and gas conservation because the board already has comprehensive statutory authority over oil and gas exploration and development activities in Montana.

The legislature intends that the board of oil and gas conservation shall, in consultation with the department of revenue, adopt rules setting forth the methodology by which the board may approve new or expanded secondary and tertiary recovery projects. The rules must include the method for establishing the rate of decline in production in the existing level of development in a project area. For a secondary or tertiary recovery project for which initial approval is sought, the rules must include the method for establishing the rate of decline in production from existing primary or secondary recovery operations in a proposed project area. In addition, the rules must include the method for determining the level of production from existing wells in a project area in order to establish the level of incremental production that qualifies for the tax incentive rates provided in this bill.

The board of oil and gas conservation is required to establish by rule a fee schedule to defray the expenses associated with reviewing applications for

HeinOnline -- 1995 vol. IV 4021 1995

enhanced recovery projects. The fee schedule adopted by the board must take into account the complexity of processing the application.

A statement of intent is also required for this bill because the department of revenue is granted rulemaking authority for determining the allocation of incremental production from enhanced recovery projects to production that is subject to net proceeds taxation and to production that is subject to the local government severance tax. The allocation must be based on the ratio of production from wells drilled before July 1, 1985, in a project area that qualifies for a reduced tax rate on incremental production to production from wells drilled after June 30, 1985, in the project area that qualifies for a reduced tax rate on incremental production.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-6-208, MCA, is amended to read:

"**15-6-208. Mineral exemptions.** (1) One-half of the contract sales price of coal sold by a coal producer who extracts less than 50,000 tons of coal in a calendar year is exempt from taxation.

(2) Metal mines producing less than 20,000 tons of ore in a taxable year are exempt from property taxation on one-half of the merchantable value.

(3) *(a)* New production, as defined in 15-23-601, is exempt from taxation for the first 12 months of production as provided in 15-23-612.

(b) Production from horizontally completed wells, as defined in 15-23-601, is exempt from taxation for the first 18 months of production as provided in 15-23-612.

(4) The first 1,000 tons of travertine and building stone extracted from a mine in a tax year are exempt from property taxation."

Section 2. Section 15-23-601, MCA, is amended to read:

"**15-23-601. Definitions.** As used in this part, the following definitions apply:

(1) "Board" means the board of oil and gas conservation.

(2) "Enhanced recovery project" means the use of any process, other than primary recovery, for the displacement of oil from the earth and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

~~(1)~~*(3)* "Excise tax" means the windfall profit tax on domestic crude oil imposed by Title I of the federal Crude Oil Windfall Profit Tax Act of 1980, as enacted or as amended.

(4) "Existing enhanced recovery project" means an enhanced recovery project that began development before January 1, 1994.

(5) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the recompletion of existing wells as horizontally completed wells, the change of an injection pattern, or other operating changes to an existing enhanced recovery project that results in the

recovery of oil that would not otherwise be recovered. The project must be developed after December 31, 1993, and before January 1, 2002.

(6) "Horizontal drain hole" means that portion of a well bore with 70 degrees to 110 degrees deviation from the vertical and a horizontal projection within the common source of supply, as that term is defined by the board, that exceeds 100 feet.

(7) "Horizontally completed well" means:

(a) a well with one or more horizontal drain holes; and

(b) any other well classified by the board as a horizontally completed well.

(8) "Incremental production" means the volume of petroleum or mineral or crude oil produced by a new enhanced recovery project, by a well in primary recovery recompleted as a horizontally completed well, or by an expanded enhanced recovery project in excess of the production decline rate established before:

(a) the expansion of an existing enhanced recovery project;

(b) the commencement of a new enhanced recovery project. In the case of a project that had no taxable production prior to the commencement of an enhanced recovery project, incremental production means all production of petroleum or mineral or crude oil from the enhanced recovery project.

(c) the commencement of the recompletion of a well as a horizontally completed well.

(9) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

~~(2)~~*(10)* ~~The term "new production"~~ *"New production"* means the production of natural gas, petroleum, or other crude or mineral oil from any well *that was* drilled after June 30, 1985, or that has not produced natural gas, petroleum, or other crude or mineral oil during the 5 years immediately preceding the first month of qualified new production.

~~(3)~~*(11)* ~~The terms "operator"~~ *"Operator"* and "producer" mean any person who engages in the business of drilling for, extracting, or producing any natural gas, petroleum, or other crude or mineral oil.

(12) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

(13) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area before the commencement of a new enhanced recovery project, of a recompletion of a well as a horizontally completed well, or of an expanded enhanced recovery project. The approved production decline rate must be certified in writing to the department of revenue by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used by the

HeinOnline -- 1995 vol. IV 4023 1995

department to determine the volume of incremental production that qualifies for the tax rate imposed under 15-23-607(2)(c).

(14) "Production from horizontally completed wells" means petroleum or other crude or mineral oil produced from a horizontally completed well that is drilled or recompleted after December 31, 1993, and before January 1, 2002.

(15) "Secondary recovery project" means an enhanced recovery project that is not a tertiary recovery project. A secondary recovery project must be approved by the board as provided in 15-36-101(1)(c).

(16) "Tertiary recovery project" means an enhanced recovery project that meets each of the following requirements:

(a) The project must be certified as a tertiary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated in the certification according to the specifications required by the board.

(c) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this part, tertiary recovery methods include but are not limited to:

(i) miscible fluid displacement;

(ii) steam drive injection;

(iii) micellar/emulsion flooding;

(iv) in situ combustion;

(v) polymer augmented water flooding;

(vi) cyclic steam injection;

(vii) alkaline or caustic flooding;

(viii) carbon dioxide water flooding;

(ix) immiscible carbon dioxide displacement; or

(x) any other method approved by the board as a tertiary recovery method.

~~(4)~~*(17)* ~~The term "well" includes~~ *"Well" means* each single well or group of wells, including dry wells, in one field or production unit and under the control of one operator or producer."

Section 3. Section 15-23-602, MCA, is amended to read:

"15-23-602. Statement of sales proceeds on new *production, production from horizontally completed wells, or incremental* production. (1) As provided in subsection (2), each operator or producer of new production, *production from horizontally completed wells, or incremental*

production of ~~natural gas,~~ petroleum~~,~~ or other crude or mineral oil *and each operator or producer of new production of natural gas* shall ~~make out~~ *complete* and deliver to the department of revenue a statement of the gross sales proceeds of new production of natural gas, petroleum, or other crude or mineral oil, *production from horizontally completed wells, and the incremental production of petroleum or other crude or mineral oil* from each well owned or worked by the person. The gross sales proceeds must be determined by multiplying the units of production sold from the well times the royalty unit value of that production at the well. The statement must be in the form prescribed by the department and must be verified by the oath of the operator or producer or the manager, superintendent, agent, president, or vice-president of the corporation, association, or partnership. The statement must show the following:

(b) the description and location of the well;

(c) the number of cubic feet of natural gas, barrels of petroleum or other crude or mineral oil sold from the well during the period covered by the statement; and

(d) the gross sales proceeds in dollars and cents or, in the case of sales between parties not acting at arm's length, the greater of the gross sales proceeds from or the fair market value of the products sold.

(2) Each operator having new production, *production from horizontally completed wells, or incremental production* as *those terms are* defined in 15-23-601 shall, on or before the last day of the months of October, January, April, and July, ~~make out~~ *complete* and deliver to the department of revenue a statement of the gross sales proceeds of the new production, *production from horizontally completed wells, or incremental production* from each well owned or worked by the person during the preceding calendar quarter. The statement must be in the form prescribed by the department and verified as provided in subsection (1). The statement must show the information required in subsections (1)(a) through (1)(d)."

Section 4. Section 15-23-603, MCA, is amended to read:

"15-23-603. Net proceeds — how computed. (1) As provided in subsection (2), the department of revenue shall calculate and compute from the returns the gross sales proceeds of the product yielded from the well for the year covered by the statement and shall calculate the net proceeds of the well yielded to the producer, which net proceeds are determined by subtracting from the gross sales proceeds of the well all royalty paid in cash by the operator or producer and the gross value of all royalty apportioned in kind by the operator or producer determined by using as the value of a barrel of oil or a cubic foot of gas the average selling price for the calendar year of a barrel of oil or a cubic foot of gas from the well out of which the royalty was paid.

HeinOnline -- 1995 vol. IV 4025 1995

(2) For new production, *for production from horizontally completed wells, or for incremental production,* net proceeds are the equivalent of the gross sales proceeds, without deduction for excise taxes, of the product yielded from the well for the quarter covered hy the statement, except that in computing the total number of barrels of petroleum and other mineral or crude oil or cubic feet of natural gas produced, there must he deducted so much of the product as is used in the operation of the well from which the petroleum or other mineral or crude oil or natural gas is produced for pumping the petroleum or other mineral or crude oil or natural gas from the well te a tank or pipeline.

(3) In the statement of sales proceeds required under 15-23-602 for lease or unitized areas from which new production, *production from horizontally completed wells, or incremental production* and other production have been sold, the number of barrels of new production, *production from horizontally completed wells, or incremental production* of oil or cubic feet of new production of gas must be segregated from and stated separately from the number of barrels of other production of oil or cubic feet of other production of gas."

Section 5. Section 15-23-607, MCA, is amended to read:

"**15-23-607. County assessors to compute taxes.** (1) Immediately after the board of county commissioners has fixed tax levies on the second Monday in August, the county assessor shall, subject to the provisions of 15-23-612, compute the taxes on net proceeds, as provided in ~~subsection~~ *subsections* (2) *and (3)* of this section, and royalty assessments and shall deliver the book to the county treasurer on or before September 15. The county treasurer shall proceed to give full notice of the assessments to the operator and shall collect the taxes as provided by law.

(2) For new production, *production from horizontally completed wells, and incremental production,* as *those terms are* defined in 15-23-601, the county assessor may not levy or assess any mills against the value of the new production, *production from horizontally completed wells, or incremental production,* but shall instead levy a tax as follows:

(a) for new production of petroleum or other mineral or crude oil, 7% of net proceeds, as described in 15-23-603(2); ~~or~~

(b) for new production of natural gas, 12% of net proceeds, as described in 15-23-603(2)*; or*

(c) (i) except as provided in subsection (4), for incremental production that is classified as secondary recovery from new enhanced recovery projects, as defined in 15-23-601, and for incremental production that is classified as secondary recovery from expanded enhanced recovery projects, as defined in 15-23-601, 5% of net proceeds, as described in 15-23-603(2); or

(ii) for incremental production that is classified as tertiary recovery from new enhanced recovery projects, as defined in 15-23-601, and for incremental production that is classified as tertiary recovery from expanded enhanced recovery projects, as defined in 15-23-601, 3.3% of net proceeds, as described in 15-23-603(2).

(3) For purposes of this section:

(a) incremental production from a new enhanced recovery project qualifies for the tax rate imposed in subsection (2)(c)(i) or (2)(c)(ii) if, before the project begins development, the board approves the project and designates the area to be affected by the project.

(b) the incremental production from an expanded enhanced recovery project qualifies for the tax rate imposed in subsection (2)(c)(i) or (2)(c)(ii) if, before the expansion begins, the board approves the expansion and designates the area to be affected by the expansion.

(4) (a) Incremental production from a new enhanced recovery project is subject to the tax rate imposed in subsection (2)(c)(i) or (2)(c)(ii) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a new enhanced recovery project is taxed as provided in subsection (2)(a) for production occurring in that quarter.

(b) Incremental production from an expanded enhanced recovery project is subject to the tax rate imposed in subsection (2)(c)(i) or (2)(c)(ii) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from an expanded enhanced recovery project is taxed as provided in subsection (2)(a) for production occurring in that quarter.

(5) For the purposes of subsections (4)(a) and (4)(b), the average price per barrel must be computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

~~(3)~~*(6)* The amount of tax levied in subsections (2)(a), ~~and~~ (2)(b), *and (2)(c)*, divided by the appropriate tax rate and multiplied by 60%, must be treated as taxable value for county bonding purposes.

~~(4)~~*(7)* The operator or producer is liable for the payment of the taxes that, except as provided in 15-16-121, are payable hy and must be collected from the operators in the same manner and under the same penalties as provided for the collection of taxes upon net proceeds of mines. However, the operator may at ~~his~~ *the operator's* option withhold from the proceeds of royalty interest, either in kind or in money, an estimated amount of the tax to be paid by ~~him~~ *the operator* upon the royalty or royalty interest. After the withholding, any deviation hetween the estimated tax and the actual tax may he accounted for by adjusting subsequent withholdings from the proceeds of royalty interests."

Section 6. Section 15-23-612, MCA, is amended to read:

"15-23-612. Certain natural gas, petroleum, or other crude or mineral oil exempt. (1) New production, as defined in 15-23-601, is exempt from the net proceeds tax imposed by this part for the first 12 months following the last day of the calendar month immediately preceding the month in which:

HeinOnline -- 1995 vol. IV 4027 1995

(a) natural gas is placed into a natural gas distribution system; or

(b) production for sale from a crude oil or mineral oil well is pumped or flows.

(2) After the expiration of the 12-month exemption period provided *for* in subsection (1), new production of natural gas, petroleum, or other crude or mineral oil is subject to net proceeds tax imposed by this part.

(3) Production from horizontally completed wells, as defined in 15-23-601, and incremental production from wells recompleted as horizontally completed wells are exempt from the net proceeds tax imposed by this part for the first 18 months following the last day of the calendar month immediately preceding the month in which production for sale from a crude oil or mineral oil well is pumped or flows.

(4) After the expiration of the 18-month exemption period provided for in subsection (3), production from horizontally completed wells, as defined in 15-23-601, is subject to net proceeds taxes imposed by this part.

~~(3)~~*(5)* Notwithstanding the provisions of subsections (1) ~~and (2)~~ *through (4)*, all reporting requirements under the net proceeds tax remain in effect."

Section 7. Section 15-23-613, MCA, is amended to read:

"**15-23-613. Disposition of *taxes on* new *production, production from horizontally completed wells, and incremental* production ~~taxes~~.** The county treasurer shall credit all taxes on new production, *production from horizontally completed wells, and incremental production*, as provided for in 15-23-607, in the relative proportions required by the levies for state, county, school district, and municipal purposes in the same manner as property taxes were distributed in the year preceding the budget year."

Section 8. **Rules.** The department of revenue shall adopt rules to ensure that incremental production of oil from enhanced recovery projects is allocated to production that is subject to net proceeds taxation and to production that is subject to the local government severance tax.

Section 9. Section 15-36-101, MCA, is amended to read:

"**15-36-101. Definitions and rate of tax — state severance tax — local government severance tax — assessment of nonworking interest owner — exemption.** (1) Every person engaging in or carrying on the business of producing petroleum, other mineral or crude oil, or natural gas within this state or engaging in or carrying on the business of owning, controlling, managing, leasing, or operating within this state any well or wells from which any merchantable or marketable petroleum, other mineral or crude oil, or natural gas is extracted or produced shall, except as provided in 15-36-121, each year when engaged in or carrying on the business in this state pay to the department of revenue a state severance tax for deposit in the general fund of the state of Montana plus a local government severance tax in lieu of a tax on net proceeds for replacement of property taxes formerly levied on net proceeds. Except as provided in subsection (3), the state severance tax and the local government severance tax are as follows:

HeinOnline -- 1995 vol. IV 4028 1995

(a) except as provided in subsections (1)(b)~~, (1)(c), and (1)(d),~~ *through (1)(f),* a 5% state severance tax on the gross taxable value of all the petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 8.4% on the gross taxable value, as defined in subsection ~~(6)(a)(ii)~~ *(8)(a)(ii),* of all the petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit; but in determining the amount of the state severance tax and local government severance tax, there must be excluded from consideration all petroleum or other crude or mineral oil produced and used by the person during the year in connection with the person's operations in prospecting for, developing, and producing the petroleum or crude or mineral oil;

(ii) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(iii) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of petroleum or mineral or crude oil that may potentially be recovered. For purposes of this section, secondary recovery methods include but are not limited to:

(A) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of petroleum or mineral or crude oil from the producing formation to a producing well bore; or

~~(c)~~*(d)* a 2.5% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 5% on the gross taxable value, as defined in subsection ~~(6)(a)(ii)~~ *(8)(a)(ii)*, of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a tertiary recovery project after July 1, 1985. For purposes of this section, a tertiary recovery project must meet *each of* the following requirements:

(i) ~~the~~ *The* project must be approved as a tertiary recovery project by the board of oil and gas conservation. The approval may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(iii) ~~the~~ *The* project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil ~~which~~ *that* may potentially be recovered. For purposes of tbis section, tertiary recovery methods include but are not limited to:

(A) miscible fluid displacement;

(B) steam drive injection;

(C) micellar/emulsion flooding;

(D) in situ combustion;

(E) polymer augmented water flooding;

(H) carbon dioxide water flooding;

(I) immiscible carbon dioxide displacement; or

(J) any other method approved by the ~~department~~ *board* as a tertiary recovery method.

(e) except as provided in subsection (4)(b), a 2% state severance tax on the gross taxable value of the incremental petroleum and other mineral or crude oil produced by the person, plus the local government severance tax of 3.3% on the gross taxable value, as defined in subsection (8)(a)(ii), of the incremental petroleum and other mineral or crude oil produced by the person, other than new production, from each lease or unit in a tertiary recovery project commenced or expanded after December 31, 1993, and before January 1, 2002. The tertiary recovery project must meet the requirements of subsections (1)(d)(i) through (1)(d)(iii).

~~(d)~~*(f)* a 5% local government severance tax on the gross taxable value, as defined in subsection ~~(6)(a)(ii)~~ *(8)(a)(ii)*, of all petroleum and other mineral or

HeinOnline -- 1995 vol. IV 4030 1995

crude oil produced by the person other than new production produced by a stripper well, as defined in subsection ~~(7)~~ *(9)*.

~~(2) For purposes of this section, the term "incremental petroleum and other mineral or crude oil" means the amount of oil, as determined by the board, to be in excess of what would have been produced by primary and secondary methods. The determination arrived at by the board must be made only after notice and hearing and shall specify through the life of a tertiary project, calendar year by calendar year, the combined amount of primary and secondary production that must be used to establish the incremental production from each lease or unit in a tertiary recovery project.~~

(2) For purposes of this section, the following definitions apply:

(a) "Board" means the board of oil and gas conservation.

(b) "Enhanced recovery project" means the use of any process for the displacement of oil from the earth other than primary recovery and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

(c) "Existing enhanced recovery project" means an enhanced recovery project that began development before January 1, 1994.

(d) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the change of injection pattern, or other operating changes to an existing enhanced recovery project that will result in the recovery of oil that would not otherwise be recovered.

(e) "Incremental production" means:

(i) the volume of oil produced by either a well in primary recovery recompleted as a horizontally completed well or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate established under the conditions existing before:

(A) the commencement of the recompletion of a well as a horizontally completed well;

(B) expansion of the existing enhanced recovery project; or

(C) commencing a new enhanced recovery project; or

(ii) in the case of any project that had no taxable production prior to commencing the enhanced recovery project, all production of petroleum or mineral or crude oil from the enhanced recovery project.

(f) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

(g) "Operator" or "producer" means the person responsible for the actual physical operation of an enhanced recovery project.

(h) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

HeinOnline -- 1995 vol. IV 4031 1995

(i) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded secondary recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department of revenue by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under subsection (1)(c) or (1)(e).

(j) "Secondary recovery project" means an enhanced recovery project that is not a tertiary recovery project.

(k) "Tertiary recovery project" means an enhanced recovery project using a tertiary recovery method described in subsection (1)(d)(iii).

(3) (a) A local government severance tax is imposed on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas subject to local government severance taxes imposed under this chapter. The local government severance tax on nonworking interest owners is computed at the following rates:

(i) 12.5% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum and other mineral or crude oil;

(ii) 15.25% on the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted or marketable natural gas.

(b) The amounts paid or apportioned in kind to nonworking interest owners are exempt from the local government severance taxes imposed under 15-36-121(2) and under subsections (1)(a) through ~~(1)(d)~~ *(1)(f)* of this section.

(4) (a) Incremental production from a secondary recovery project is subject to the tax rate imposed in subsection (1)(c) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a secondary recovery project is taxed as provided in subsection (1)(a) for production occurring in that quarter.

(b) Incremental production from a tertiary recovery project is subject to the tax rate imposed in subsection (1)(e) if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 per barrel in a calendar quarter as determined in subsection (5), incremental production from a tertiary recovery project is taxed as provided in subsection (1)(d) for production occurring in that quarter.

(5) For the purposes of subsections (4)(a) and (4)(b), the average price per barrel must be computed by dividing the sum of the daily price for west Texas

intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

~~(4)~~*(6)* Nothing in this part may be construed as requiring laborers or employees hired or employed by any person to drill any oil or natural gas well or to work in or about any oil or natural gas well or prospect or explore for or do any work for the purpose of developing any petroleum, other mineral or crude oil, or natural gas to pay the severance tax, nor may work done or the drilling of a well or wells for the purpose of prospecting or exploring for petroleum, other mineral or crude oil, or natural gas or for the purpose of developing them be considered to be the engaging in or carrying on of the business. If, in the doing of any work, in tbe drilling of any oil or natural gas well, or in prospecting, exploring, or development work, any merchantable or marketable petroleum, other mineral or crude oil, or natural gas in excess of the quantity required by the person for carrying on the operation is produced sufficient in quantity to justify the marketing of the petroleum, other mineral or crude oil, or natural gas, the work, drilling, prospecting, exploring, or development work is considered to be the engaging in and carrying on of the business of producing petroleum, other mineral or crude oil, or natural gas within tbis state within the meaning of this section.

~~(5)~~*(7)* Every person required to pay the state or local government severance tax under this section shall pay the tax in full for the person's own account and for the account of each of the other ~~owner or~~ owners of the gross proceeds in value or in kind of all the marketable petroleum or other mineral or crude oil or natural gas extracted and produced, including *an* owner or owners of working interest, royalty interest, overriding royalty interest, carried working interest, net proceeds interest, production payments, and all other interest or interests owned or carved out of the total gross proceeds in value or in kind of the extracted marketable petroleum or other mineral or crude oil or natural gas, except that any of the interests that are owned by the federal, stato, county, or municipal governments are exempt from taxation under tbis chapter. Unless otherwise provided in a contract or lease, the pro rata share of any royalty owner or owners will be deducted from any settlements under the lease or leases or division of proceeds orders or other contracts.

~~(6)~~*(8)* For purposes of this section, the following definitions apply:

(a) (i) "Gross taxable value", for the purpose of computing the state severance tax, means the gross value of the product as determined in 15-36-103.

(ii) "Gross taxable value", for the purpose of computing the local government severance tax, means the gross value of the product as determined in 15-36-103 less the gross value paid in cash or apportioned in kind to a nonworking interest owner by the operator or producer of extracted marketable petroleum, other mineral or crude oil, or natural gas.

(b) "Nonworking interest owner" means any interest owner who does not share in the development and operation costs of the lease or unit.

~~(7)~~*(9)* For the purposes of this section, "stripper well" means a well that produces less than 10 barrels a day, determined by dividing the amount of production from a lease or unitized area for the year prior to the current calendar

HeinOnline -- 1995 vol. IV 4033 1995

year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365."

Section 10. Section 7-1-2111, MCA, is amended to read:

"**7-1-2111. Classification of counties.** (1) For the purpose of regulating the compensation and salaries of all county officers, not otherwise provided for, and for fixing the penalties of officers' bonds, the counties of this state must be classified according to that percentage of the true and full valuation of the property in the counties upon which the tax levy is made, except for vehicles subject to taxation under 61-3-504(2), as follows:

Limitation on amount of bonded indebtedness.** (1) Except as provided in subsections (2) through (4), ~~no~~ *a* county may *not* issue general obligation bonds for any purpose ~~which~~ *that*, with all outstanding bonds and warrants except county high school bonds and emergency bonds, will exceed 11.25% of the total of the taxable value of the property ~~therein~~ *in the county*, plus the amount of *taxes levied on* ~~interim production and~~ new production, *production from horizontally completed wells, and incremental production* ~~taxes levied~~ divided by the appropriate tax rates described in 15-23-607(2)(a), ~~or~~ (2)(b), *or (2)(c)* and multiplied by 60%, plus the amount of value represented by new production *and production from horizontally completed wells* exempted from tax as provided in 15-23-612 multiplied by 60%, plus the value of any other production occurring after December 31, 1988, multiplied by 60%, to be ascertained by the last assessment for state and county taxes prior to the proposed issuance of bonds.

(2) In addition to the bonds allowed by subsection (1), a county may issue bonds ~~which~~ *that*, with all outstanding bonds and warrants, will not exceed 27.75% of the total of the taxable value of the property in the county subject to taxation, plus the amount of *taxes levied on* ~~interim production and~~ new production, *production from horizontally completed wells, and incremental production* ~~taxes levied~~ divided by the appropriate tax rates described in 15-23-607(2)(a), ~~or~~ (2)(b), *or (2)(c)* and multiplied by 60%, plus the amount of value represented by new production *and production from horizontally completed wells* exempted from tax as provided in 15-23-612 multiplied by 60%, when necessary to do so, plus the value of any other production occurring after December 31, 1988, multiplied by 60% for the purpose of acquiring land for a site for county high school buildings and for erecting or acquiring buildings ~~thereon~~ *on the site* and furnishing and equipping the ~~same~~ *buildings* for county high school purposes.

HeinOnline -- 1995 vol. IV 4096 1995

STATEMENT OF INTENT

With the adoption of the 1972 Montana constitution, the state assumed responsibility for the appraisal, assessment, and valuation of property for property tax administration. Although the state was granted this new responsibility and authority by the constitution, county assessors were retained by local governments to assist the state in the assessment function, acting as agents of the department of revenue. Through the implementation and use of electronic data processing and other technological advances, many of the assessment functions previously performed by county assessors have changed dramatically.

Recognizing the need to make state and local government more responsive and efficient, it is the intent of the legislature that all appraisal and assessment duties relating to property taxation be assigned to the department of revenue. This action transfers from county assessors to the department the responsibility and authority to perform any assessment functions.

Acknowledging the talents and skills of county assessors, it is the intent of the legislature that current county assessors may choose to become employees of the department of revenue and that their respective counties may consolidate the office of county assessor with another county office.

If the current county assessor does not choose to become a state employee and the county chooses to retain the separate office of county assessor, the department of revenue shall, with the consent of the county assessor, contract with the county for the county assessor to perform specific duties as assigned by the department. If under this agreement the county assessor produces satisfactory work quality and output for the department, the department may continue the contract as long as the person currently serving as county assessor retains the position. The department may also contract for any successor county assessor in counties that retain the separate office of county assessor to perform duties assigned by the department.

It is further the intent of the legislature that all present deputy county assessors become employees of the department of revenue, with the same preferences and benefits as other state employees.

To allow for the efficient administration of the property tax appraisal and assessment, it is the intent of the legislature that the department of revenue use other efficiency measures, such as creating regional county appraisal and assessment offices, adjusting office hours of department field offices, and restructuring the organizational structure of the property assessment division.

The legislature grants to the department of revenue general rulemaking authority for the accomplishment of these administrative changes.

The state auditor shall deposit into a state special revenue account funds received from examination of insurance companies, liquidation of the glacier general assurance company, and licensing of out-of-state insurance agents.

The department shall develop and submit a cost recovery plan for the warrant writing system to the office of budget and program planning and the legislative fiscal analyst by June 1, 1994. The total program cost estimate used to allocate the fees must be reduced by the estimated amount of the state special revenue fund balance for the program that will carry over from the 1995 biennium.

The fixed cost rates charged to state agencies by the state auditor for warrant writing services (object code 2113) may not be higher than the amount necessary to fund the expenses of the agency for providing those services, as appropriated in the state pay plan and [this act], and to fund any unforeseen costs that would require supplemental funding.

The legislature recognizes that costs associated with litigation in which the legal services division must provide representation to the state of Montana may exceed the appropriation provided in item 1c. In that event, the department will need to request a supplemental appropriation from the 1995 legislature to adequately represent the state.

The department is authorized to request a budget amendment for the rural statewide intelligence network if federal grant funds become available during the 1995 biennium.

The department is directed to prepare a plan to privatize all state driver's license examination stations and to present this plan to the legislative audit committee by July 1, 1994. The department shall also prepare a plan by July 1, 1994, in consultation with the superintendent of public instruction, to have driver's license examinations of students conducted, under the supervision and direction of the department, by local school district staff of traffic education programs administered by the superintendent of public instruction.

The department is directed to negotiate with communities, alternative vendors, and/or other governmental agencies to achieve greater cost reductions and improved access to driver's license examination services for the 1997 biennium.

The department is to develop a plan for streamlining operations, improving efficiencies, and better coordination of services for the gambling control division. The plan is to be submitted to the legislative finance committee before June 1, 1994.

The department shall work with the department of transportation to develop a plan for coordination of truck inspection and safety. The plan is to be submitted to the legislative finance committee before June 1, 1994.

The department is authorized to transfer the retirement contributions provided under 19-6-404 and 61-5-121(1)(a) in fiscal 1994 and fiscal 1995 from the highway patrol retirement clearing account in the state special revenue fund to the Montana highway patrol officers' retirement pension trust fund. An appropriation must be established each year in the amount required to be transferred.

The department shall, in consultation with the department of administration, review the cost-effectiveness, along with other relevant considerations, of operating its in-house duplicating facilities compared to department of administration services. The department shall report its conclusions, along with department of administration comments, to the office of budget and program planning and the office of the legislative fiscal analyst by June 1, 1994, and to the respective appropriations subcommittee of the 1995 legislature.

The legislature recognizes that the Montana supreme court decision in Woith v. Cascade County may require payment from the state general fund to the property taxpayers in Cascade County. In that event, the department shall request a supplemental appropriation from the 1995 legislature for those payments.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

The department may adjust appropriations and FTE in the construction, interfund transfers, and maintenance programs between fiscal years to reflect actual expenditures related to the construction work plan and maintenance activities.

The department may adjust appropriations in the construction and rail and transit programs between fund types, provided that the adjustment does not exceed 10% of the total appropriation established by the legislature for the construction or rail and transit program and provided that the general fund appropriation in the rail and transit program does not increase over the amount established by the legislature. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning, and all fund transfers of over $1 million in any 30-day period must be communicated to the legislative finance committee in a written report.

The legislature recognizes that costs associated with the McCarty farms litigation may exceed the appropriation in item 10g, and in that event, the department will need to request a supplemental appropriation from the 1995 legislature to adequately represent the state.

The legislature urges the department to review the highway leading must directly between Billings and Great Falls. This corridor is important to the economic well-being of the state of Montana and instrumental in economic development of international trade. The department shall prepare a written report encompassing the condition of the highway and the improvements made and planned to be made. The report must include cost estimates, a tentative schedule, the types of improvements, and a means of financing the construction or reconstruction. This report must be made available to the legislature on or before December 1, 1994.

The legislature eliminates a $100,000 allocation per year included in item 3 from the noxious weed control budget for the purchase of biological agents and designates those funds for general operation of the maintenance program.

The department shall, in consultation with the department of administration, review the cost-effectiveness, along with other relevant considerations, of operating its in-house duplicating facilities compared to department of administration services. The department shall report its conclusions, along with department of administration comments, to the office of budget and program planning and the office of the legislative fiscal analyst by June 1, 1994, and to the respective appropriations subcommittee of the 1995 legislature.

Item 8 includes authority for the department to assess equity ratios upon highway users in order to determine if the GVW fees revised by the 1993 legislature are equitable. If inequities are revealed, the department shall prepare an amended fee schedule for presentation to the 1995 legislature. If any inequity is greater than the imbalance identified in the original cost responsibility study, the department shall prepare legislation correcting the inequity.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

Liquor division proprietary funds necessary to maintain adequate inventories of liquor and wine and to operate the state liquor operation are appropriated in amounts not to exceed $50,662,000 in fiscal 1994 and $52,765,000 in fiscal 1995. During the 1995 biennium, the division shall attempt to return at least 10% of net sales. Net sales are gross sales less discounts and all taxes collected. The division shall limit operational expenses of the liquor merchandising system to not more than 15% of the net sales. Operational expenses may not include product costs, freight charges, expenses allocable to other divisions, or licensing bureau expenses.

It is the intent of the legislature that the department vigorously pursue collection of the dangerous drug tax pursuant to Title 15, chapter 25, part 1.

~~If the referendum to enact a general sales tax and to provide tax reform in Senate Bill No. 235 is approved by the electorate in the special election provided for by [section 184 of Senate Bill No. 235], there is appropriated from the state special revenue account created in Senate Bill No. 235 to the department of revenue up to $4,511,707 in fiscal 1994 and up to $5,684,952 in fiscal 1995 for the purpose of administering the provisions of Senate Bill No. 235. In accordance with 17-2-107(2)(c), the legislature authorizes the department of administration to provide an interentity loan to the department of revenue for these amounts during the 1995 biennium. These loans must be repaid from proceeds of the sales tax deposited in the state special revenue account.~~

~~If the referendum to enact a general sales tax and to provide tax reform as provided in Senate Bill No. 235 is approved by the electorate at the June 8, 1993, special election provided for by [section 184 of Senate Bill No. 235], there is appropriated from the sales tax and use tax account established in [section 71 of Senate Bill No. 235] to the department of revenue the amounts necessary to provide the property tax replacement revenue for taxing jurisdictions as provided for in 15-1-111(5) through (13), as amended by Senate Bill No. 235, and in [section 125 of Senate Bill No. 235], regarding reimbursement to local governments and schools, in fiscal 1994 and fiscal 1995.~~

If House Bill No. 50 is not passed and approved, the general fund appropriation in item 7 is increased by $1,200,000 in fiscal 1995. If House Bill No. 50 is passed and approved, the $1,200,000 reduction that is reflected in item 7, which is a result of the House Bill No. 50 proposal to streamline the property valuation division, is not intended to be in addition to any reduction to the general appropriations act that is also contained in House Bill No. 50.

The department shall provide 1993 income taxpayers with an informational form and appropriate instructions that will permit the taxpayers to determine what their individual tax liability would be under the provisions of House Bill No. 671 enacted as Chapter 634, Laws of 1993, by the 1993 regular session of the legislature. The form must be clearly marked "for informational purposes only". If possible, the forms must be included with the mailing of the 1993 income tax forms. If not, the informational forms must be mailed to taxpayers together with any forms necessary for the implementation of the provisions of House Bill No. 29 if that act is passed and approved.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

Item 2d is contingent on passage and approval of House Bill No. 21.

The department may transfer cash from the capital projects fund to the state special revenue fund to fund the appropriation in item 3. The transfer may not exceed the state special revenue fund appropriation for the architecture and engineering division that is included in the state pay plan and [this act].

Funds remaining in the capitel land grant account of the capital projects fund, after the appropriations are met for the general services division of the department and any project provided for in Chapter 774, Laws of 1991, are appropriated to the long-range building debt service fund for the payment of principal and interest on bund issues for public buildings at the capitol for executive, legislative, and judicial purposes, as outlined in section 12 of The Enabling Act. This appropriation is for the biennium ending June 30, 1995, and is not to exceed the annual debt service required on these bends.

The appropriation in item 6 in the "other" column includes $58,801 in fiscal 1994 and $58,801 in fiscal 1995 from the capital projects fund.

In item 6, the department may charge a maximum of ~~$3.47~~ *$3.42* a square foot in fiscal 1994 and ~~$3.57~~ *$3.48* a square foot in fiscal 1995 for office space in state-owned buildings.

The appropriation in item 6 includes $28,050 in fiscal 1994 and $51,425 in fiscal 1995 proprietary funds that must be transferred to the department of natural resources and conservation for the purpose of paying off general obligation bends issued by the department of natural resources and censervation to fund energy savings projects.

The department shall develop and submit a cost recovery plan for the state payroll system to the office of budget and program planning and the legislative fiscal analyst by June 1, 1994. The total program cost estimate used to allocate the fees must be reduced by the estimated amount of the state special revenue fund balance for the program that will carry over from the 1995 biennium.

The fixed cost rates charged to state agencies by the department for payroll services (object code 2114) may not be higher than the amount necessary to fund the expenses of the agency for providing those services, as appropriated in the state pay plan and [this act], and to fund any unforeseen costs that would require supplemental funding.

In accordance with 42 U.S.C. 607(B)(2)(c), the department shall implement a payment-after-performance policy for the AFDC-UP program no later than January 1, 1994. In implementing this policy, the department shall:

(1) require that at least one parent in the household participate in approved education, training, or job search activities; and

(2) provide for payment of AFDC benefits, but only after performance of assigned activities under subsection (1) is completed.

The department is authorized to retain 7.5% of the federal community services block grant and pass through the remaining 92.5% to the human resource development councils (HRDCs). If during fiscal 1994 or fiscal 1995 the block grant falls below the federal fiscal year 1990 grant level, the department shall retain only 5% of the grant amount and pass through the remaining 95% to the HRDCs.

The appropriation in item 1 is contingent on a program being in place by July 1, 1994, that requires AFDC recipients whose youngest child is at least 1 year of age to be referred to the JOBS program. The department may waive the requirement for good cause.

Item 1 includes $100,000 of state general fund money in each fiscal year for the department to contract for assistance in obtaining SSI disability benefits for indigent persons, *including AFDC recipients*.

In order to expend funds from item 1, the department shall apply for waivers from federal regulations governing AFDC programs no later than July 1, 1994. If federal approval is received, the department shall implement the waivers as soon as feasible. The department shall apply for waivers to encourage employment by allowing working AFDC recipients to retain a greater portion of their income. The department shall work in cooperation with local welfare task forces in development of waiver applications and in implementation of approved waivers. The waivers may include but are not limited to:

(1) expansion of the earned income disregard above the current $30 and 33% of additional earned income;

(2) exclusion of all earnings of children;

(3) elimination of the 100-hour rule for the AFDC-UP program;

(4) reduction, by increasing percentages, of the amount of AFDC benefits for those recipients who remain on AFDC after each 12 consecutive months unless good cause is established for remaining on assistance; and

(5) changing the definition of household income to include the income, minus child support, of all adults in the household where the AFDC recipient lives.

The department is encouraged to seek waivers that are cost-neutral. The department shall develop and use an appeals process for AFDC recipients if it implements waivers that result in cost savings by decreasing individual benefits.

No later than September 1993, the department shall submit to the legislative finance committee a detailed report of the progress towards implementation of the waivers developed by the department and local welfare task forces. The department may not implement a waiver program unless actual cost savings can be demonstrated. The department is authorized to expend up to 10% of projected savings for administrative costs that are mandated by federal regulations associated with implementation of the federal waivers.

The AFDC payment level for the 1995 biennium must be established at 40.5% of the federal poverty index.

The department may not expend funds from item 1d *if* unless the department certifies to the director of the office of budget and program planning that in-house administration of the JOBS program is more cost-effective than contracting for JOBS program administration.

The department shall extend client followup reporting to 6 months for each participant leaving the JOBS program.

The department shall provide the following information about the Montana AFDC population to the 54th legislature by December 1, 1994:

(1) the average length of time a client receives AFDC (since the inception of TEAMS, the automated eligibility determination system);

(2) the percentage of the caseload that remains on AFDC by selected length of stay;

(3) reported reasons that applicants are requesting AFDC benefits; and

(4) reperted reasons AFDC recipients no longer require AFDC benefits.

The department may obtain information for items 3 and 4 from periodic surveys of AFDC and former AFDC recipients.

Beginning in fiscal 1995, the department shall competitively award the contract for the food stamp outreach program to an agency or entity that:

(1) can provide the necessary state or local matching funds;

(2) demonstrates that it will reach a broad representation of potentially elig ble persons;

(3) will coordinate efforts with the LIEAP, food banks, and food distribution programs; and

(4) provides for an independent evaluation of the outreach program, which will be made available to the 54th legislature. The department shall develop evaluation criteria to measure the effectiveness of the outreach program, including but not limited to the number of persons contacted, the numbor of persons assisted in making application for food stamps benefits, and any followup information available on the contacts made. If a bid is not awarded (based on the inability to meet all of the above criteria), an outreach program may not be conducted.

The department may require only AFDC and food stamp households with earned income and/or those who have recent work history to report monthly. The department may, however, promulgate administrative rules that require monthly reporting for specific recipient population groups that have been shown to be subject to high eligibility determination errors or fraud.

The department is directed to implement a policy to reduce AFDC grants by $50 for all eligible AFDC clients sharing living arrangements with anyone who is not in the assistance unit or whose income and resources are not considered in the determination of the assistance unit grant. The following AFDC recipients are not subject to this deduction: AFDC recipients living with a separate household that receives supplemental security income; AFDC recipients living in government-subsidized housing; and two or more AFDC assistance units living together. The department shall apply for federal approval of a good cause hardship exception in addition to the exceptions previously listed.

The department is directed to request units of the university system to assist the department, witheut charge, in development of clear and concise AFDC program information for the education of AFDC clients. The program information must include a description of AFDC-earned income provisions, transitional day care, transitional medicaid, and any other benefits that will assist the AFDC client in securing and retaining employment.

The state share of AFDC-related support collections and all AFDC and non-AFDC federal incentive payments and program collected fees must be deposited in a state special revenue account from which the state share of the administrative and operational costs of the child support enforcement program must be paid. ~~The legislature intends that, during the 1995 biennium, the department collect at least $1.15 for each $1 expended for administrative and operational costs from the account.~~ The department shall transfer to the general fund from the child support enforcement account any cash balance remaining in excess of $500,000 at the end of fiscal 1994 and 1995.

The department shall conduct a review of child support privatization projects in other states and report the results of the review to the 54th legislature. The review must address: the impact of privatization ou the efficient utilization of the state IV-D computer system; the granting of quasi-judicial powers to private contractors; the results of federal audits and conformity to federal regulations of privatized operations; the degree of monitoring by state personnel from privately operating programs or aspects of programs; and a summary of advantages and disadvantages from the perspective of state officials involved with privatization.

The department is appropriated funds in item 5a for a pilot project in Deer Lodge County. The pilot project may include work, job training, subsistence payments, and preventive health programs for low-income poople. The use of appropriated funds in item 5a is contingent on Deer Lodge County levying 12 mills for ita poor fund for public assistance, protective services, and other benefits for low-income poople.

The department is authorized to transfer funds among appropriations for medicaid primary care, medicaid nursing care, medicare buy-in, state medical, and the home- and community-based waiver program.

The legislature intends that expenditures for all provider rate increases approved by the legislature be limited to the dollar amounts appropriated rather than percentage increases on which the original estimates may have been based. The department will be in compliance with this provision if:

(1) it estimates total costs for each medicaid service category in June prior to the beginning of each fiscal year of the 1995 biennium; and

(2) the percentage increases or base adjustments approved by the department are limited to the dollar amount appropriated for each provider rate increase.

It is the intent of the legislature that the department develop a continuum of care designed to limit the growth of state expenditures for long-term care services for the elderly and disabled. The department is directed to present to the 54th legislature a plan that defines and provides a cost-effective range of services for people who are elderly or disabled; provides individuals with a choice of services that best reflects their personal preferences and treatment needs; offers services, including but not limited to in-home care, nursing facility care, long-term hospital care, and alternative community care, such as adult foster homes and personal care facilities. If the department certifies to the director of the office of budget and program planning that cost-effective alternative services for the elderly and disabled can be provided within existing appropriations, the department may implement these services during the 1995 biennium. The legislature intends that these alternative services for the elderly and disabled are within the amount, scope, and duration of the medicaid services supported by appropriations in [this act].

The department and the department of corrections and human services may develop a capitation contract for the delivery of and payment for mental health services in Montana. The departments shall develop the contract in consultation with an advisory group. The advisory group must consist of representatives from the following groups: mental health services clients and their family members, community mental health centers, private mental health services providers, the departments, the Montana state hospital, hospitals, and other appropriate groups. The department may develop a capitation contract for physical health services. The department shall develop the physical care managed care plan in consultation with an advisory group. The advisory group must consist of representatives from health services clients and their family members, private physical care providers, the Montana legislature, the department, the department of corrections and human services, Montana hospitals, and other appropriate groups.

The department shall provide information regarding the specific family planning services covered by medicaid, including birth control pills, norplant, condoms, and sterilization procedures. The information must include the address and phone number of the local family planning clinic.

~~If House Bill No. 333 is not passed and approved, item 6 is increased by $1,261,427 general fund money in fiscal 1994, $1,268,050 general fund money in fiscal 1995, $3,091,323 federal special revenue in fiscal 1994 and $3,030,424 federal special revenue in fiscal 1995.~~

The department and Montana universities and colleges may develop early periodic screening diagnosis and treatment (EPSDT) outreach programs and use appropriate funds to match federal funds for EPSDT outreach activities. The department may contract with universities and colleges to provide EPSDT programs by March 1994.

The department may extend passport to health provider status to outpatient hospitals if the department determines that the status will achieve program savings, improve recipient access, or extend the passport program to currently underserved areas.

The department shall review the feasibility of establishing a voucher system for payment of medicaid personal care services. If the department finds that a voucher system can be implemented within the appropriation in [this act], the system may be implemented during the 1995 biennium. If the department determines that the voucher system is infeasible, it shall report its findings to the house appropriations committee during the 1995 regular session of the legislature.

It is the intent of the legislature that in fiscal 1994 and fiscal 1995, any unexpended general fund money, up to $1 million per year, in items 6 and 6a be used for assisted living, home-based care, or waivers.

The department may transfer funds in and out of item 6a.

Expanded waiver services funded in item 6f should be used to expand waiver services in eastern Montana if clients and services are available. The expansion may occur in the following counties: Blaine, Big Horn, Carter, Custer, Daniels, Dawson, Fallon, Garfield, Gelden Valley, McCone, Musselshell, Petroleum, Phillips, Powder River, Prairie, Richland, Roosevelt, Rosebud, Sheridan, Valley, Wheatland, and Wibaux.

Contingent on passage and approval of Senate Bill No. 145, the *The* appropriation in item 6j must be used for a medicaid model waiver for people with traumatic brain injuries.

The department shall direct licensed providers of assisted living services in a facility setting to give notices of available unskilled positions to the department local area jobs program offices.

The department shall implement 53-6-101(9) if medicaid expenditures exceed appropriations in [this act] in either year of the biennium.

It is the intent of the legislature that annualized expenses for operation of SEARCHS not exceed $1,500,000. This amount includes expenses for any facilities management contracting that may be uzed for system operations, computer processing costs directly associated with operation of the system, and other personal services and nonpersonal services costs directly charged to the management and operation of the system.

If the department considers contracting for operation of the TEAMS and/or SEARCHS computer applications on a privately owned and operated mainframa or midrange computer, the department shall submit to the office of budget and program planning and to the legislative finance committee a comparison of the cost of operating the system on the state mainframe computer managed hy the department of administration. The department of administration shall estimate rate changes that would occur due to removal of TEAMS and/or SEARCHS from tha state mainframe. If the office of budget and program planning determines that statewide cost savings are greater than the private contract cost savings to the department, the department shall operate TEAMS and/or SEARCHS on the state mainframe computer if continued operation of TEAMS and/or SEARCHS on the state mainframe does not conflict with federal regulations.

The department is authorized to transfer funds between appropriations for the vocational rehabilitation and visual services programs.

The department may pursue funding of any existing eligible state general funded services under the federal ICF/MR program if the federal government fails te approve adequate medicaid waiver funding under the home- and community-based waiver program.

It is the intent of the legislature that the developmental disabilities division pursue federal funding to enhance and improve services to persons with developmental disabilities. These additional federal funds may be expended by the division for services as long as those actions do not require or commit the state te additional general fund expenditures beyond the amount appropriated during the 1995 biennium hy the legislature for the developmental disabilities community.

The department shall, in consultation with the department of administration, review the cost-effectiveness, along with other relevant considerations, of operating its in-house mail facilities compared to department of administration services. The deportment shall report its conclusions, along with department of administration comments, to the office of budget and program planning and the office of the legislative fiscal analyst by June 1, 1994, and to the respective appropriations subcommittee of the 1995 legislature.

Items entitled "State Fuad Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

The department shall use and develop additional services, within appropriation limitations, that are family-focused, child-centered, sensitive to unique cultures, and community-based. The department shall use the least restrictive, most appropriate services with the goal of preserving families.

The department is directed to develop a child welfare management information system (MIS). The appropriation in item 1b must be expended only for development and operation of the MIS. The department shall develop the most comprehensive MIS possible within the appropriation in item 1b. If the appropriation is not sufficient to fund development of the entire system, system compenents may be prioritized by the department. The MIS should include the following compononts:

(1) foster caro and adoption;

(2) protective services;

(3) juvenile corrections;

(4) licensing;

If the department is selected by the department of social and rehabilitation services to manage the food stamp outreach program, the department is appropriated $157,349 in federal special revenue each fiscal year of the biennium.

The department is appropriated an amount equal to the general fund transfer received from the office of public instruction for education costs of children receiving medicaid-eligible treatment services. Funds in item 4a are to serve children in the custody of the department that previously were placed or would have been placed in freestanding inpatient hospitals for youth under 21 years of age. If a balance remains in item 4a after providing for the needs of children in the custody of the department, this balance may be used for related services.

Item 4b is to develop family support services for children at risk of abuse or neglect and for children that have been referred for abuse or neglect and to develop community-based services for children placed in or who are at risk of being placed in juvenile corrections facilities. The development of additional services is contingent on recovery of federal funds through department refinancing initiatives and the collection of contributions from parents of children. The department may add up to 6.0 new FTE to implement the refinancing strategies. The department shall present to the 54th legislature a report that includes the number and types of services developed, the number of children and families served, and the effectiveness of the services delivered. If the department recovers funds from refinancing initiatives and collection of parental contributions in excess of $2,150,000 either year of the 1995 biennium, it is appropriated up to $1 million in federal funds each year for those excess funds. The department may use these excess funds in any manner it considers necessary.

~~The appropriation in item 4g is contingent on passage and approval of Senate Bill No. 271.~~

The department shall develop a plan for the establishment of regional treatment centers for children with severe emotional disturbances to provide for the placement of the children in local regions and to allow children currently placed outside of Montana to be returned to the state.

It is the intent of the legislature that annualized expenses for the operation of the child welfare MIS not exceed $1,500,000 annually. This amount includes expenses for any facilities management contracting that may be used for system operations, computer processing costs directly associated with operation of the system, and other personal services and nonpersonal services costs directly charged to the management and operation of the system. The department may not proceed with the development of the MIS until it has certified to the office of budget and program planning and to the legislative finance committee that the projected annualized operation costs of the system will not exceed the limit imposed in this statement of intent. If the child welfare system will run on the state mainframe computer and if the department elects to contract for operation of the system on a privately owned and operated mainframe or midrange computer, the department shall submit a comparison to the office of budget and program planning and to the legislative finance committee of the cost of operating the system on the state mainframe computer managed by the department of administration. The department of administration shall estimate rate changes that would occur because of operation of the child welfare MIS on the state mainframe. If the office of budget and program planning determines that statewide cost savings are greater than the private contract cost savings, the department shall operate the child welfare system on the state mainframe computer.

The department may pursue medicaid funding for the intermountain deaconess children's home.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

(4) A report must be submitted by the department to the legislative fiscal analyst following the end of each fiscal year of the biennium. The report must include a listing of projects with the related amount of expenditures for each project.

Item 1b contains $60,000 as a biennial appropriation to study the feasibility of implementing an automated license issuing system. The department shall present the results of the study to the 54th legislature. In preparing the 1997 biennium budget for legislative consideration, the office of budget and program planning and the legislative fiscal analyst's office may not include the expenditures from this item in the current level base.

Item 1b includes $54,705 from general funds, $4,981 from state special revenue funds, and $59,686 from proprietary funds in fiscal 1994. In preparing the 1997 biennium budget for legislative consideration, the office of budget and program planning and the legislative fiscal analyst's office may not include the expenditures from this item in the current level base. It is the intent of the legislature that the fiscal 1995 appropriation for this item, adjusted for inflation, is the correct ongoing base for this item when considering the 1997 biennium budget.

~~Item 3a is contingent on passage and approval of Senate Bill No. 424.~~

Item 4 contains $7,000 per year to bring Powell County into the state/county cooperative fire protection program.

If House Bill No. 54 is not passed and approved, the general fund appropriation in item 4 is increased by $69,121 in fiscal 1994 and by $74,119 in fiscal 1995 and the state special revenue appropriation for each year is decreased by like amounts.

~~Item 4b is contingent on passage and approval of House Bill No. 652.~~

The legislature recommends that the board of land commissioners amend its cabinsite rules and fee structure to require lessees who apply for sale of their cabinsites to reimburse the department for all expenses it incurs in processing the sale applications.

Federal fire reimbursement funds are those funds received for expenses incurred from loaning department personnel to federal agencies to assist in fire suppression activities. Only those federal funds received as reimbursement of expenses credited against the department's state forestry operational budget are considered federal fire reimbursement funds. All other federal funds received must be deposited into the general fund. The department shall report federal fire reimbursement expenditures on state accounting records, and the records must be separate from current level operations.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

Item 3 includes $100,000 each year of the biennium for maintenance of the Galen campus.

The legislature directs the department to maintain the Galen campus in good condition during the 1995 biennium while the department seeks potential users of the facilities. If a use can be found that will not have a negative state general fund impact during the 1995 biennium, the department is authorized to make the necessary transfer after review by the legislative finance committee.

~~If House Bill No. 333 is not passed and approved, the general fund appropriation in item 3 is reduced by $35,626 in fiscal 1994 and by $77,966 in fiscal 1995 and the state special revenue appropriation in item 6 is reduced by $52,166 in fiscal 1994 and by $76,986 in fiscal 1995.~~

Item 5 includes $4,675 in fiscal 1995 that must be transferred to the energy conservation program account and used to retire the general obligation bonds sold to fund energy improvements through the state building energy conservation program.

The department shall coordinate the development of programs for children with severe emotional disturbances. The departments of family services, health and environmental sciences, and social and rehabilitation services and the office of public instruction and the board of crime control shall fully cooperate and coordinate resources with the department.

The departments of family services, corrections and human services, health and environmental sciences, and social and rehabilitation services and the office of public instruction and the board of crime control shall collaboratively develop, administer, and fund services for children with severe emotional disturbances and with multiagency service needs. The departments and agencies are directed to develop community-based alternatives to inpatient psychiatric care and to reduce the number of residential care placements.

The departments and agencies may use general fund money, state special revenue, private funds, local government funds, and federal special revenue to design, administer, and provide programs for children with severe emotional disturbances. The departments and agencies may use available state and federal funding, within appropriation limits. The departments and agencies shall maximize the recovery of federal funds for these services, including waivers to the medicaid program to permit children with severe emotional disturbances to be served in their own homes and communities or, when appropriate, in the least-restrictive setting. The departments and agencies may use general fund money to match federal, local government, and private fund sources.

Whenever possible, the departments and agencies shall work with local providers and units of government to develop programs to serve children with severe emotional disturbances. Services may include but are not limited to case management services, day treatment, respite care, emergency services, and crisis intervention and stabilization services. Programs may include a managed care system, when allowable, to control entry into and exit from in-state and out-of-state residential facilities and to control the types and duration of services and reimbursement rates.

The departments and agencies shall encourage families to assist with payment of these services.

Items entitled "State Fund Cost Allocation" are contingent upon passage and approval of House Bill No. 21.

E. EDUCATION

University system units are defined in 17-7-102(16). For all university system units, except the office of the commissioner of higher education, all funds, other than plant funds appropriated in [the long-range planning bill] *House Bill No. 5 (now Chapter 624, Laws of 1993)*, relating to long-range building, and current unrestricted operating funds, are appropriated contingent upon approval of the comprehensive program budget by the board of regents by October 1 of each year. The budget must contain detailed revenue and expenditures and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. All movement of funds between the current unrestricted subfund and the designated subfund account entities must be clearly identified in the state budgeting and accounting system.

Programs for the university system units' budgets, except the office of the commissioner of higher education, include instruction, organized research, public service, academic support, student services, institutional support, operation and maintenance of plant, and scholarships and fellowships.

All university system units, except the office of the commissioner of higher education, shall account for expenditures consistently within programs and funds across all units and shall use the national center for higher education management systems program classification structure, along with the college and university business administration (CUBA) system, as a minimum standard for achieving consistency.

Included within state special revenue to the six university units and the office of the commissioner of higher education is the sum of $16,956,000 in fiscal 1994 and $13,899,000 in fiscal 1995 from revenue generated under the provisions of 20-25-423. The department of revenue shall levy the full 6 mills as authorized in 20-25-423. Revenue received by the university system under the provisions of 20-25-423 that exceeds $16,956,000 in fiscal 1994 and $13,899,000 in fiscal 1995 is appropriated to the office of the commissioner of higher education and must cause a reversion of a like amount of general fund. If revenue received under the provisions of 20-25-423 is less than $16,956,000 in fiscal 1994 and $13,899,000 in fiscal 1995, the office of the commissioner of higher education may request a supplemental appropriation under the procedures contained in 17-7-301 for distribution to the university system. The supplemental request may total no more than the difference between actual revenue and the appropriation in each fiscal year.

It is the intent of the 53rd legislature thet no funds be transferred in fiscal 1994 or fiscal 1995 from the student assistance program to any other program within the office of the commissioner of higher education.

Any indirect cost reimbursements received in excess of $20,885 in fiscal 1994 and $20,885 in fiscal 1995 as a result of an increase in the federal talent search grant must cause a general fund reversion of a like amount.

~~If House Bill No. 5 is not passed and approved in a form that results in the issuance of general obligation bonds for prepayment of the remaining payment obligations for the Butte vocational technical center, the general fund appropriation in item 10 is increased by $465,115 in fiscal 1994 and by $467,275 in fiscal 1995.~~

In the event that bond payments on the Butte, Great Falls, and/or Billings vocational-technical centers are less than the amounts shown in item 10 in either year of the 1995 biennium, the difference between the appropriated amount and actual payments is appropriated for preplanning purposes to complete the unfinished space at the Great Falls Vocational-Technical Center.

The general fund appropriation for each community college includes 49% of the total unrestricted budgets for the community colleges in fiscal 1994 and fiscal 1995. The total unrestricted budgets for the community colleges must be approved by the board of regents.

The general fund appropriation for each community college provides 49% of the total audit cost. The remaining 51% of these costs are to be paid from funds other than those appropriated in item 4. Audit costs for the biennium may not exceed $18,000 each for Dawson and Miles community colleges and $25,000 for Flathead Valley community college.

The legislature expects, as a result of the general fund reductions adopted in [this act], that the governor and the board of regents will manage these reductions in the following manner:

(1) Administrative cuts should precede and meet or exceed, on a percentage basis, reductions in any other area of the university system. Management efficiencies, as prescribed by the MGT study, should be implemented to the greatest extent and as soon as possible.

(2) Faculty productivity standards should be negotiated and implemented.

(3) Enrollment limits and tuition increases should be used only as a last resort.

The 53rd legislature does not require that the board of regents' employee reporting system (RERS) be maintained in the 1995 biennium. However, it is the intent of the legislature that accurate, consistent, and accessible position and compensation information be available to the legislature and the governor. The Montana university system, except the office of the commissioner of higher education and the community colleges, shall provide the following information electronically to the legislative fiscal analyst and the office of budget and program planning:

(1) On January 1 and at fiscal yearend beginning in fiscal 1994 and each year thereafter, the actual personal services data. This data must tie to the actual expenditures as recorded on SBAS.

(2) Beginning November 1, 1993, and each year thereafter, the budgeted personal services data. The data must tie to the operating plan as approved by the board of regents.

This personal services data must include but not be limited to the following for each position number: program number, responsibility center, salary, benefits, fund type, and FTE position title and position type. The initial submission of this information must be reviewed and approved for accuracy, consistency, and accessibility by the joint committee on postsecondary education policy and budget.

Item 16 reduces the total appropriation to the Montana university system. The board of regents shall determine the proportional share of the reduction to be allocated to each unit of the Montana university system and reduce its general fund appropriation accordingly.

The board of regents may find it necessary to increase tuition at the six university units and the five vocational-technical centers in fiscal year 1995 as a result of the general fund reductions contained in [this act]. Any additional tuition revenue over the appropriated level is appropriated to the board of regents for allocation to the six university units and the five vocational-technical centers. The legislature urges the commissioner of higher education to work with student representatives to consider using a portion of any fiscal year 1995 tuition increase for tuition assistance for needy in-state students. The commissioner shall submit the results of these meetings to the board of regents prior to the adoption of any fiscal year 1995 tuition increases.

Item 17 reduces the general fund appropriation and increases the 6-mill levy state special revenue appropriation to the six university units of the Montana university system. Item 17 is appropriated to the office of the commissioner of higher education for distribution by the board of regents, who shall determine the proportional share of the reduction in general fund money and the increase in state special revenue money to be allocated to each of the six university units. The board of regents shall reduce each unit's general fund appropriation and increase its state special revenue appropriation accordingly. It is the intent of the legislature that the general fund reduction at each of the six university units be offset, on a dollar-for-dollar basis, with the additional 6-mill levy state special revenue appropriation.

WHEREAS, nonresidents who claim resident status for purposes of purchasing Montana fish and game licenses perpetrate a fraud upon the people

HeinOnline -- 1995 vol. IV 4304 1995

of Montana by failing to purchase the proper licenses and by failing to pay their share of income taxes if required to do so, resulting in an inequitable treatment of the hunting and fishing public and of Montana taxpayers; and

WHEREAS, residents who benefit from the income generated by illegally licensed hunters and who do not pay Montana taxes on that income, by failing to report land lease income, trespass fee income, outfitter income, game farm income, shooting preserve income, and trophy fees, also perpetrate a fraud upon the people of Montana, resulting in an inequitable tax burden on residents who do pay their fair share of taxes; and

WHEREAS, concentrated interdepartmental coordination of residency compliance efforts between the Department of Fish, Wildlife, and Parks and the Department of Revenue could address these inequities, thus drastically reducing the incentive for residency fraud by enhancing enforcement capabilities of both agencies and potentially generating significant revenue for the state from enforcement of both fish and game laws and income tax laws; and

WHEREAS, a study by the Departments could disclose the extent of the problems of underreporting of income and residency fraud, provide the means to refine and further implement the information-sharing network between the agencies, indicate ways that enforcement could be enhanced under present law, give the agencies the information that they need for requesting additional implementing legislation to address the problems of underreporting of income and residency fraud, and give an indication of potential revenue that could be generated through greater enforcement.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Fish, Wildlife, and Parks and the Department of Revenue be directed to investigate and conduct a study of underreporting of income and residency compliance for fish and game licensing purposes and state income tax purposes.

BE IT FURTHER RESOLVED, that the Departments analyze residency data and computer bases and, when possible, implement the present information-sharing network to enhance enforcement efforts under current law.

BE IT FURTHER RESOLVED, that the Departments report to the 54th Legislature on or before December 10, 1994, the results of the study with regard to the extent of the problems of underreporting of income and residency fraud, the need for any additional implementing legislation to address those problems, and an indication of potential revenue that could be generated through greater enforcement.

BE IT FURTHER RESOLVED, that the Departments use existing personnel and presently appropriated resources to cover the costs of conducting the study.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE DEPARTMENT OF SOCIAL AND REHABILITATION SERVICES TO STUDY THE FEASIBILITY OF OPERATING A PROGRAM TO PREPARE RECIPIENTS OF PUBLIC ASSISTANCE FOR EMPLOYMENT IN STATE-FUNDED PROGRAMS THAT PROVIDE SERVICES TO PEOPLE WITH DISABILITIES AND TO REPORT ITS FINDINGS TO THE 54TH LEGISLATURE.

WHEREAS, a person with developmental disabilities should be given every opportunity to live in the least restrictive setting possible while receiving appropriate services from personnel who have the training and skills necessary to address each disabled individual's unique needs; and

WHEREAS, there may be individuals in the group of low-income people receiving public assistance benefits who would be capable of employment in programs that provide services to Montanans with developmental disabilities; and

WHEREAS, Michigan bas developed a small pilot program of training, support, and supervision that has assisted low-income families and families on public assistance in becoming foster families for a small number of children with developmental disabilities, and that program should be studied for its advantages and disadvantages; and

WHEREAS, there may be cost savings to the state by assisting the transition of individuals from public assistance to employment and independence; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Social and Rehabilitation Services conduct a study of the Michigan Living in Family Environments (L.I.F.E.) Program in order to determine if a similar program in Montana would be feasible and in the best interest of people with developmental disabilities and individuals receiving public assistance and if a similar program would be cost-effective for the State of Montana.

BE IT FURTHER RESOLVED, that the study include alternatives to assist current programs in achieving the same goals as those of the L.I.F.E. program, tailored to use the resources available in Montana and to meet the needs of our citizens with developmental disabilities.
